RUSSIANS REPORT WAVES OF NAZIS CUT DOWN FIVE SHIPS, NINE PLANES FALL TO R. A. F. Germans Drive On Leningrad, Moscow, Kiev

Two children Drowned in N. B.

YOUNGS COVE, N.B., July 14—(CP)—Harold Maston, 7, only child of Mr. and Mrs. Herbert Maston, was drowned in a stream at this Queens County village today when a rowboat capsized. A companion, Jimmy Reed, 11, swam to safety. The other boy was unable to swim. Jimmy tried to save his chum but had to let go of him.

SAINT JOHN, N. B., July 14—(CP)—Morton Green, 9, drowned in the St. John River at Brown's flat today when he fell from a rowboat near a wharf. No one saw the accident. His body was recovered soon after the boy was missed by friends on shore. He had sailed with his father, Coleman Green, from Grand Manan, N. B.

Bullitt says Tri-color will Fly over Berlin

Former Ambassador To France Says People Pray For British Victory.

By D'Arcy O'Donnell
Canadian Press Staff Writer

MONTREAL, July 14—(CP)—William C. Bullitt, former United States ambassador to France, told the French people in a "Bastille Day" message today that in the end the tri-color "will fly over Berlin."

"If you today know how to listen," Mr. Bullitt said in addressing the French people, "you know that the Nazis will not win. This war will be won by all the civilized nations of the earth. In the end the swastika will not fly over Paris. Your flag will fly over Berlin."

Mr. Bullitt spoke after receiving an honorary degree of doctor of laws from the University of Montreal. His address in French was broadcast over the facilities of the Canadian Broadcasting Corporation, the British Broadcasting Corporation and was sent to France and French overseas possessions from Boston. A translation was carried over United States networks.

"I know that today, the 14th of July, 90 per cent of the French people are praying God for the victory of the British Empire and the liberation of France," said Mr. Bullitt as he spoke after receiving the degree from Msgr. Olivier Maurault, rector of the university.

"I know of my own knowledge," he said, "that the defeat of France did not come from any lack of..."

Less gasoline Consumption To be request

OTTAWA, July 14—(CP)—Creation of a new ministry to see that a proper balance of essential and non-essential consumption in Canada is expected to be announced momentarily.

It is understood here the various controls over commodities, now exercised by Munitions Minister Howe, have attained an importance which places too great a responsibility on a minister whose primary task is to keep the fighting forces supplied with highly complex materials of war.

Restriction of civilian consumption of commodities bearing on the war effort has been comparatively light so far but current reports are that the civilian population will have to begin sacrifices on a more general scale.

Churchill Declares Tables Are Turned

Germans turn to suffer terror from
skies heaped on helpless victims.

(By Drew Middleton, Associated Press Staff Writer)

LONDON, July 14—(AP)—In two speeches breathing confidence and defiance, Winston Churchill jubilantly proclaimed today to cheering thousands of London's civilian defenders that the tables are turned and the time has come for Germany to suffer the terror from the skies she has dealt on Britain.

The Prime Minister spoke first to 6,000 uniformed members of London's civilian defence services at a great rally in Hyde Park and then again, in even more dynamic tones, at a luncheon of the service organizations in London county hall.

Five points stood out in the Prime Minister's messages—

1. "It is time the Germans should be made to suffer in their own homeland and cities something of the torments they have twice in our lifetime let loose upon their neighbors and upon the world...."

"We have intensified for the past month a systematic, scientific and methodical bombing on a large scale of German cities and industries...."

"We believe it to be in our power to keep this process going on a steadily rising tide month after month, year after year, until the Nazi regime is either extirpated by us or, better still, torn to pieces by the German people themselves."

14,000 Vichy soldiers Elect to go home

ALEXANDRETTA, Turkey, July 14—(AP)—Fourteen thousand Vichy soldiers will cross the border from Syria into Turkey within 48 hours, informed sources said tonight.

They will enter this country at Antioch, these informants announced.

(This development came within a few hours after the British command at Cairo announced formal signing of the armistice ending the five-week campaign of British and Free French allied forces against Vichy troops in Syria and Lebanon, mandates handed over to France by the League of Nations following the first great war.

British armistice terms, not yet made public, were said to have given officers and men of the Vichy forces in the Levant the option of returning to France or joining the Free French forces, under whom they would retain rank, salaries and pensions. The troops scheduled to enter Turkey apparently are those who elected to go home.)

Wheeler tells Of former Nazi Peace proposal

WASHINGTON, July 14—(AP)—Senator Burton Wheeler (Dem.-Mont.) said late today that William R. Davis, an oil operator, had advised the Roosevelt administration after a trip to Germany in 1940 that Field Marshal Goering of Germany and Premier Mussolini of Italy were willing to visit Washington to "make a peace" in the war.

Wheeler told reporters that on one occasion, Davis had written him that Goering and Mussolini were willing to call on President Roosevelt and try to work out a peace.

"That was shortly after Poland had been taken," Wheeler added. "France and Belgium and other countries might have been saved if the President had followed up that proposal."

Commenting on a statement made by Mayor La Guardia in New York today that German peace proposals had been laid before representatives of a peace movement in this country, Wheeler asserted he had heard of no proposals beyond those which he said had been presented by Davis.

Wheeler identified Davis as an oil man with varied interests in Texas, New York and other states who "always has had close contacts with the White House."

Millfeeds reduced \$3.00 per ton Throughout Canada

OTTAWA, July 14—(CP)—The Wartime Prices and Trade Board announced tonight that effective immediately and for a limited period the wholesale prices of bran, shorts and middlings will be reduced by \$3 a ton throughout Canada.

The reduction will apply on both mixed and straight carlots, the board said.

The reduction announcement followed a meeting today of representatives of the Canadian Milling Industry with the Board and the Agricultural Supplies Board.

The statement added:—

"It is understood that the Department of Agriculture in the exercise of its control over exports will ensure that adequate supplies of millfeeds will be made available to Canadian users at these prices but that all supplies of millfeeds not purchased at these new prices will be all-weather export permits."

Ousted Consuls Will Sail From U.S. Today

NEW YORK, July 14—(AP)—More than 450 ousted German and Italian consuls, their families, and consular employees converged here today to sail on the naval transport West Point, formerly the liner America, but now a drab-colored ship equipped mainly with bunks and devoid of the comforts and furnishings usually found on ships used by government officials.

The liners will sail for Lisbon at 5 p.m. (A.D.T.) tomorrow.

Petai announces Defeat in Syria

VICHY, July 14—(AP)—Chief of State Marshal Petai formally announced France's defeat today in two notes, one to the civilians and the other to the soldiers in Syria.

In both, he expressed gratitude for conduct of the campaign and promised that France will remain closely attached to her mandates.

The document was signed at Acre Palestine, two days after actual cessation of hostilities.

Negotiations leading to the final signature were carried on at Acre by Gen. Sir Maitland Wilson, commander of Allied forces in Palestine and Trans-Jordan, and Gen. Henri Dentz, the Vichy commander in Syria. The armistice had been initiated there Saturday.

Take hayseed From lung of Pictou child

HALIFAX, July 14—(CP)—While a special surgical instrument was on its way from Philadelphia, doctors at a Halifax hospital went through an operation with instruments of their own today and removed from the lungs of a seven-month-old Pictou, N. S. girl, the operation was described as "successful."

The doctors decided today they could not afford to wait for the instrument being flown from Philadelphia after an emergency appeal Sunday. The child is the daughter of Mr. and Mrs. Frederick Gray.

Beef consumption In Canada is On upgrade

OTTAWA, July 14—(CP)—Canadian beef consumption is increasing with a resultant decline in the number of Dominion cattle in the United States, the Agriculture Department said tonight.

This is in contrast to hog marketings and the prices of bacon has been increased three times in recent months to keep pork supplies in Canada to meet the needs of the British market.

During the second quarter of 1941 cattle exports to the United States were less than the annual quota of 51,720 head for heavy cattle.

Estimates are that exports in this category will be nearly 100,000 head less than the annual quota of 193,350 head. Shipments of Canadian calves to the United States have also been on a reduced rate.

"One of the main reasons for the reduced exports to the United States is that the home market for cattle is attractive, with an increased demand for beef because of larger earnings in many Canadian homes and the requirements of military camps and other establishments," said an official.

Allies, Vichy French sign

CAIRO, Egypt, July 14—(AP)—Allied and Vichy officials today formally signed the armistice ending the five-week-old Syrian campaign in which Frenchman fought Frenchman and former ally battled former ally.

Gen. Sir Claude Auchinleck, British commander in the Middle East, announced here.

The document was signed at Acre Palestine, two days after actual cessation of hostilities.

Negotiations leading to the final signature were carried on at Acre by Gen. Sir Maitland Wilson, commander of Allied forces in Palestine and Trans-Jordan, and Gen. Henri Dentz, the Vichy commander in Syria. The armistice had been initiated there Saturday.

Mighty aerial Drive still In full swing

LONDON, July 14—(CP)—The Royal Air Force went hunting today for German shipping and German planes, and found both, scoring his on five ships totalling 22,300 tons and shooting down nine aircraft.

A 10th German plane, the second bomber of the day, was credited to anti-aircraft defences along the Scottish coast. The other bomber was destroyed by fighters off the coast of Wales.

The R. A. F. made morning raids on the German-held French ports of Cherbourg and Le Havre, rail yards at Hazebrouck, near St. Omer, and in the afternoon big Blenheims of the bomber command, searching for North Sea shipping, tracked a small convoy off the Dutch Frisian Islands, the air ministry said.

Three direct hits were scored on one vessel of 6,000 tons, another of 3,000 tons was hit astern and an escort vessel of 1,500 tons was struck aft and amidstships, the communiqué said. A fighter which tried to break up the attack was shot down into the sea.

The morning attack on Cherbourg was costly, for the R. A. F. announced loss of two bombers and four fighters. However, seven German fighters were downed there and at Le Havre.

British naval Sloop is lost

LONDON, July 14—(CP)—The Admiralty announced today that the 1,200-ton British naval sloop Auckland had been sunk, but gave no details. The Auckland normally carried 188 men. The communiqué indicated there were some casualties.

Besides the 15 ships and a barge load of tanks sunk, it said 13 transports were damaged by the combined fury of the attacking Red fleet, air force and coastal batteries.

The communiqué added that not a single Soviet plane or ship was lost in this encounter.

In last night's communiqué the Russians declared that Red armies held every vital position without important change and that another hull had fallen over the vast battle line.

This temporary, repeated inaction was used by Russian informants to suggest that the Nazis had been forced to abandon, in favor of a far more cautious technique, the reckless pattern of 24-hour-a-day frontal assaults which had made clamorous the first phase of the invasion.

Responsible for Morale next winter

AYR, Scotland, July 14—(CP Cable)—Mines Secretary David Grenfell today warned the annual conference of the mine workers' federation of Great Britain that miners will be responsible in large measure for the national morale next winter.

"A very deadly blow to national morale would be no fires in the grates this winter and a deadlier blow would be dealt if the thousands of men and women who will be employed in our new factories found there was no power to work the machines," he said.

Warned harsh Times coming

ATLANTIC CITY, N. J., July 14—(AP)—The United States public was warned today by price administrator Leon Henderson to brace itself for a tomorrow of industrial dislocation and harsh sacrifice.

Interpreting The War News

(By Kirtle L. Simpson, Associated Press Staff Writer)

Whatever the truth of Berlin's undocumented claims of sweeping victories in Russia, there can be no doubt as to the heavy price the Nazis are paying, especially in war materials.

Of course, Russian statements that a million or more Germans have been killed, wounded or captured in the first three weeks of fighting are just as untrustworthy than almost identical Nazi claims. Both were issued by propagandists.

The circumstances of the Nazi-Soviet conflict, including the undenied entrapment of Red armies in the Minsk-Bialystok sector, tended to reverse that rule. A prodigious Red retreat on a 200-mile front has cost more than 250,000 personnel losses, according to Moscow's admission. German casualties

Dr. Robert G. Jackson dies

TORONTO, June 14—(CP)—Dr. Robert G. Jackson, 83 who for many years had lectured extensively throughout Canada and the United States on the philosophy of natural health, died at his home at nearby Rouge Hills, yesterday.

Germans Drive On Leningrad, Moscow, Kiev

Great battle rages along
long front; Enemy destroyer,
13 transport ships sunk.

(By Henry Cassidy, Associated Press Staff Writer)

MOSCOW, July 15—Tuesday—(AP)—Russian forces battling Hitler's legions by land and sea inflicted heavy losses on Nazi units on the eastern battlefield and sank two German destroyers and 13 transports out of a big Baltic convoy, the Soviet information bureau announced today.

The war bulletin said wave upon wave of German troops were cut down Monday in the fourth day of a mighty Nazi assault in the northwest, west and southwest gateways to Leningrad, Moscow and Kiev.

One hundred tanks and countless automobiles were declared destroyed alone in the western fighting, which has been centred around Vitebsk, some 300 miles from Moscow.

On the southwestern front, in the vicinity of Novograd Volynski, 120 miles east of Kiev, the Russians said their defenders of the Ukraine captured a number of cannon, machine guns, automobiles and other munitions from German mechanized units.

In this clash the Russians said their forces defeated a Nazi unit of some 3,000 men.

For the first time in recent days the official account did not mention by name any of the towns about which the main fighting has been raging.

The police on the Nazi convoy in the Baltic, the war bulletin said, occurred Sunday after the troop and munitions laden vessels were spotted by planes of the Red air force.

Besides the 15 ships and a barge load of tanks sunk, it said 13 transports were damaged by the combined fury of the attacking Red fleet, air force and coastal batteries.

The communiqué added that not a single Soviet plane or ship was lost in this encounter.

In last night's communiqué the Russians declared that Red armies held every vital position without important change and that another hull had fallen over the vast battle line.

This temporary, repeated inaction was used by Russian informants to suggest that the Nazis had been forced to abandon, in favor of a far more cautious technique, the reckless pattern of 24-hour-a-day frontal assaults which had made clamorous the first phase of the invasion.

Some of our Modern Poets Are Like Babies— You Can't Under- stand What They Say
