BRITISH TORIES NOT SATISFIED

Special to The Guardian.

LONDON, Oct. 5.—One hundred active conservative members of both Houses have decided to endeavor to induce the party leaders to take a more active part in propaganda work.

They will urge them to exchange the present defensive policy for a definite constructive program.

Among other things it is strongly felt that the conference between Canada and the United States this month renders it imperative that the Unionist position on Imperial Preference should be absolutely plain, it being feared that if the Liberal party hold the next Colonial Conference the question of imperial consolidation will be practically destroyed because of the present government's unshakable adherence to Free Trade.

The new body wants a strong Leader. The new movement is significant in view of the fact that Balfour speaks at Edinburgh on Wednesday night.

STAR ATTRACTION AT FAIR

BROCKTON, Mass., Oct. 4—The attendance for the day, upwards of 25,000 marked a new record for the opening day of the fair. The crowds stayed later than usual also, this being due to the fact that Grahame-White, because of the high wind, did not venture to make a flight until after sun down. Shortly after 5 o'clock, the aviator's Farman biplane was trundled on to the field and Grahame-White, as he took his position for flying, was given a big ovation. After two unsuccessful attempts to get his machine off the ground, he finally started it up and despite the fact that the wind was still blowing almost a gale, he stayed in the air for seven minutes dipping over the grand stands and circling the field and then going off a mile or more into the distance. He made an almost perfect landing.

The horse races as usual, are a feature of the fair, and today's card drew an unusually large crowd to the grounds. There were four races on the programme, the two year-old trotting futurity, which was won by King Mac in straight heats, and the 2.25 trot, which went to Junie Rice in straight heats. In the latter race, there was a field of eleven starters and the event was closely contested, especially good time being made.

THE PORTUGAL SITUATION

LONDON, Oct. 5—The announcement of the death of Prof. Bombarda, the Republican deputy and anti-Clerical, who was shot by the army lieutenant, Pebello, at Lisbon, Monday, may possibly have started a revolution: Bombarda was a distinguished educator. He was recently elected to the Portuguese parliament in the Republican interest. His assailant, according to some reports, was a madman.

A recognized authority in Portuguese affairs, in an interview here, affected no surprise at the news of a rising. He said that the Republican party was thoroughly organized and that everything had been prepared for a bloodless revolution. Two prominent Republicans, Senor Lima and Relvas, the former proprietor of the newspaper Vanguardia, and the latter a landowner were sent to London last August to assure the British authorities that the approaching establishment of a republic would make no difference in the friendly relations between Portugal and Great Britain, as the alliance was one of peoples, not dynasties.

PARIS, Oct. 5—The Echo de Paris prints a wireless despatch from its correspondent dated St. Marie de Lamer, Cape Blaco, 9.20 p.m., saying: A revolution has broken out in Portugal. A great part of the army and all the navy has gone on the side of the Repdblicans. At 2 o'clock this afternoon a bombardment of the royal palace commenced. All ingress to the city has been forbidden.

The Rev. Mr. Sweet, according to the investigation of the church officials, was never ordained to the ministry. This fact came out after his arrest.

The matter affected Mr. Stone so that he became ill and was removed to the hospital in Middletown. His condition became serious and it was thought best to have the marriage ceremony performed again on advice of a lawyer who was consulted as to the former ceremony's legality.

A Middletown minister performed the ceremony in the presence of witnesses. Mrs. Stone is a sister of F. P. Hubbard, treasurer of the church, who was instrumental in bringing the charge against the Rev. Mr. Sweet.

WHAT NOT TO LOSE

Don't lose courage; spirit brave
Carry with you to the grave.

Don't lose time in vain distress;
Work, not worry, brings success.

Don't lose hope; who lets her stray
Goes forlornly all the way.

Don't lose patience come what will,
Patience oftimes outruns skill.

Don't lose gladness; every hour
Blooms for you some happy flower.

Though be foiled your dearest plan,
Don't lose faith in God and man.

DECLINING TO MAKE MATTERS WORSE.

It need never hurt us to be wronged or attacked. It may hurt our feelings, but that is a minor matter. We can always see to it that the only one who is really hurt is the one who has wronged us, if we remember what Dr. Stalker said in a lesson early this year: "The aggressor does more harm to himself than to the person he wrongs. . . Not till the victim returns the wrong does he bring himself down to the level of his assailant." It is better to stay on high ground and let our feelings suffer in silence, than to get down to the level of injuring ourselves.
