The Woman Who Loved and Earned

BY JANE PHELPS A Modern Story of Home and Business

F.I.R.E! CHAPTER 36

"What's the matter, Robert? You look as if your best friend had packed away, and you never expected to find another. I never saw you look so depressed. Didn't you have a pleasant evening, and a good dinner?"

A 15 YEARS' FIRE

Just think! That is the time through which Mr. H. C. Buckley endured all the fiery torture of itching, burning eczema. His life was a perfect misery until Zam-Buk—the great herbal skin cure—brought complete relief.

Mr. Buckley, who lives at 461 East Broadway, Portland, Oregon, writes:—"For fifteen years I suffered with eczema, and although I tried many so-called 'eczema cures,' nothing seemed capable of dealing with a case like mine. It was not until I had Zam-Buk recommended to me that I began to have hope. This wonderful skin healer soon brought about a change for the better. As I persevered with Zam-Buk the burning sensation got less. I found Zam-Buk wonderfully soothing. Gradually the patches of soreness and the inflammation were reduced, and complete and permanent cure finally resulted. I would strongly advise all afflicted with eczema to give Zam-Buk a trial. It will give them satisfaction. They will not be disappointed."

WAS UNABLE TO WORK FOR YEAR

VETERAN WAS ALL RUN DOWN—GAINS FIFTEEN POUNDS—IN PERFECT HEALTH NOW

"For one year, before I began taking Tanlac I was so weak I could not do a lick of work but now I have gained fifteen pounds in weight and am in the very best of health," said Arthur P. Ingram of 4 George Street, Halifax, N. S., just a few days ago. Mr. Ingram saw four years of service in France with the Canadian Expeditionary Forces, being attached to the Fifth Artillery. He was engaged in some of the heaviest fighting of the whole war, including the battles of the Somme and Cambrai.

COMPLAINT OVER DELAY OF OVERSEAS MAILS

LONDON, Jan. 25.—Canadian cables indicate a certain exasperation on the Canadian side at mail service delays. On this side, similar delays are numerous. The first batch of Canadian newspapers for this year were delivered this morning. One annoying feature is the singular gap in delivery. For instance London gets Montreal papers for the first, second, ninth and tenth of the month the intervening numbers will be turned in probably some time during the week end. Enquiries by the Canadian Press at postal headquarters bring explanations which seem largely to justify the assertion that the day the dock strikes and the next ships and their much slower travelling are mainly responsible.

FOR SALE

Farm for sale at Mt. Stewart, with dwelling house and out-buildings. Apply

J. A. McKINNON, 257 Euston Street, Charlottetown. 6472-1-27ME101pd.

WAS UNABLE TO WORK FOR YEAR

VETERAN WAS ALL RUN DOWN—GAINS FIFTEEN POUNDS—IN PERFECT HEALTH NOW

"I have been in miserable health ever since I got out of the Army, late last spring, in fact, my troubles started when I was gassed in France just before the Armistice was signed," continued Mr. Ingram. In six months' time I lost forty pounds in weight and some days I was so weak that I came near collapsing. My appetite was so poor that I had to force myself to eat enough to keep alive. Sometimes the smell of food would nauseate me so that I had to get out of the house. You can imagine how weak I was when I tell you I went for days at a time without eating a bite. I could hardly retain a thing on my stomach, why, sometimes I would become so nauseated while sitting at the table that I would have to get up and leave. The cramps and pains in my stomach would nearly draw me double and at times the agony was almost more than I could bear. I was so nervous and restless that I got but little sleep and some nights I lay awake the whole night through.

CUT THIS OUT

OLD ENGLISH RECIPE FOR CATARRH, CATARRHAL DEAFNESS AND HEAD NOISES.

If you know of some one who is troubled with Catarrhal Deafness, head noises or ordinary catarrh cut out this formula and hand it to them and you may have been the means of saving some poor sufferer perhaps from total deafness. In England scientists of a long time past have recognized that catarrh is a constitutional disease and necessarily requires constitutional treatment.

The North American Antimony Smelting Co. Limited

Lake George, New Brunswick. Authorised Capital \$2,000,000 Outstanding \$1,000,000

- Officers and Directors: Stanley E. Elkin, M. P., St. John, President; Walter F. Dixon, New York, Vice-President; A. A. Saural, New York, Secretary-Treasurer; P. A. Guthrie, Boston, Solicitor; W. H. Irvine, M. D., Fredericton, Director; C. A. Crowe, Bridgewater, Mine Manager; Fred B. Edgecombe, Fredericton, Director; W. T. Chestnut, Fredericton, Director; Ricketts & Co., New York, Directing Engineers.

PROPERTY

Antimony Deposits at Lake George, N. B., with Mining Right over entire mineralized area, comprising 25 square miles with Mining, Smelting and Concentrating Plant and machinery thereon.

Extracts From Official Reports.

"These are the only Antimony deposits in Canada or the United States of Magnitude or extension enough to maintain a smelting plant, and the ore is pronounced by experts to be of the finest antimony ore known."

Extracts From Canadian Government Report on Property Canada

DEPARTMENT OF MINES—MINES BRANCH REPORT ON THE Mining and Metallurgical Industries of Canada

"The circumstances attending these deposits of Antimony are singularly favorable—first, the geological position of the deposits; second, their occurrence in segregated masses along lines of fracture, proving the veins to be true veins of great depth and horizontal extension; third, the purity of the grey Antimony ore and its gradual passage into native Antimony as the veins deepen; fourth, the abundance of ore and the ease with which it may be reached, either for mining operations or subsequent shipment."

PROVINCE OF NEW BRUNSWICK, DEPARTMENT OF LANDS AND MINES, FREDERICTON. January 28th, 1919.

"A. F. Saural, Esq., Treasurer N. A. A. S. Co., Ltd., 83 Wall Street, New York City, U. S. A.

"Dear Sir:—Referring to the Lake George Antimony property at Prince William in this Country, the Department understands that developments are going to be made on a large scale on the antimony deposits being developed at the above place by your Company.

"Numerous reports have been made by Mining Engineers from time to time on property and all of which indicates that large quantities of Antimony exist on this property.

"You can rest assured anything the Department can do to advance the interest of your Company will be cheerfully complied with.

"Wishing you every success in the enterprise, believe me, Yours obediently, Signed T. S. LOGGIE, Deputy Minister."

W. F. Almy, Mining Engineer, in his report says:—"I have examined the property of the North American Antimony Smelting Company, Limited, which is situated at Lake George, N. B., and I estimate there is sufficient ore opened up on three sides to keep a smelter running for twenty or thirty years with a daily capacity of one hundred tons of ore mined. And in addition thereto, there is, in my opinion, practically an inexhaustible supply of ore on the property."

"The market will absorb all that would be produced from the high grade ore that would be obtained in mining 100 tons daily."

Estimated Annual Production and Income Compiled By Ricketts & Co.

Table with columns: Natural Sulphide, White Oxide, Regulus, Crimson Sulphide, Golden Sulphide. Rows: Estimated Output (lbs.), Total cost in New York, Selling price per lb., Total selling price per lb., Gross Profits, Total gross profits, Gross tonnage output.

"The above estimate was compiled by us after exhaustive investigation and we do not hesitate to say that the market will readily absorb this production and the plant may be duplicated to manufacture twice the tonnage out of the surplus earnings of the Company which would then show an annual gross profit of 100 per cent. on the Capital stock. (Signed) RICKETTS & CO. C. E. W. BATESON, Vice Pres."

New Installation

It is the purpose of the Company to increase the capacity of this plant four-fold and also to erect in the vicinity of Boston a Sulphide Plant with an initial daily capacity of tens tons of Crimson and Golden Sulphides.

The necessary amount of the Treasury Stock will be sold to meet the following estimated expenses: New installation at mine \$225,000; Sulphide plant 75,000; Working capital 200,000. Total \$500,000.

It is the intention of the management to pay a substantial dividend out of the profits of the company and with surplus earnings to establish paint and enamel works at St. John, N. B., for which undertakings bonus stock will be issued to shareholders. This stock offers an unusually attractive investment opportunity as the abundance of raw material, that ever increasing demand for Antimony products and the recognized ability of the management insures the success of the Company. It is conservatively estimated that a substantial dividend should be paid within the next twelve months.
