League Council May Force The Japs To Retire

GARNISHEE OF RELIEF MONEY OBJECTED TO

Kensington Cases To Be Argued In County Court Nov. 18th.

An unusual legal point arose in the County Court at Summerside before Judge Inman on Friday concerning garnishee cases in which a merchant had garnisheed the wages due for work under the unemployment grant to laborers in the town of Kensington.

Mr. Heath Strong, K. C., on behalf of the Town of Kensington, raised the objection that unemployment relief money could not be attached, and that it would be against public interest to do so.

The case, which has caused much interest, was set down to be argued on Nov. 18.

Several other cases were set down for trial on Nov. 4.

During Friday and Saturday the Court disposed of twenty-five debt and garnishee cases. S.

GENEVA, Oct. 25. (A.P.)—The League of Nations' greatest task in arbitrating the Sino-Japanese conflict still lies in the future and the test will come on Nov. 16, international opinion agreed tonight in reviewing the events of the past eleven days.

Operating solely under article eleven of the League covenant, the Council was adjudged to have done its duty to date by calling for the evacuation of Japanese troops from non-treaty zones in Manchuria by its next meeting. But the resolution adopted last night has only moral force, for Japan's veto destroyed its unanimity, and its legal value.

Friends of the League declared, however, that the Council debate and thirteen-to-one vote constituted a "striking moral condemnation of Japan" and placed the Japanese Government in the position of moral isolation in the eyes of the world. Strong doubt was expressed that Japan would have her troops back in the railway zone by the stipulated date and it was realized that if such doubt turns out to be justified the council must invoke article fifteen and perhaps article sixteen if it is to enforce its will. These articles give the council the right

IS HELD ON CHARGE OF MURDER

(Canadian Press)

HALIFAX, N. S., Oct. 25.—Peter Paul, Northfield Indian who was arrested by Nova Scotia Police on Friday night, after Charles Hennigar, Hants County farmer, had been taken to his home unconscious, was arraigned yesterday on a charge of attempted murder and remanded. Will Not Apply Dumping Duties

(Canadian Press)

OTTAWA, Oct. 25.—The Canadian Government has decided for the remainder of the present year not to apply the special or dumping duties designed to offset exchange fluctuations against British goods except to the extent that the pound sterling may drop below a \$4.40 average in Canadian funds. The average exchange rate is given the first and 15th of each month by the Department of National Revenue in notices to collectors.

The rate in one notice stands until the next notice is received. These average rates will be the basis on which it will be decided whether or not the exchange is below \$4.40. The last notice gave the rate of exchange on the pound as \$4.40 in Canadian money, so until Nov. 1, no dumping duty will be levied. An Order-in-Council making this change was passed by the Cabinet on Saturday.

This action has been taken on representations to the Government by importers that there has been an increase in commodity prices in Great Britain since that country went off the gold standard.

The information was officially verified in accordance with the original plans of the government as outlined to importers. The value of the pound for special duty or dumping purposes has consequently been fixed at ten per cent less than the par value, being the same as the increase in the commodity price level.

HENDERSON ILL

BURNLEY, England, Oct. 25. (A.P.)—Rt. Hon. Arthur Henderson, former Foreign Secretary in the late Labor Government, was taken ill here tonight and was forbidden by his physician to leave his hotel. Mr. Henderson was suffering from a chill and complained that he was ill early this evening, but continued with work of the Labor party, of which he became leader, succeeding Prime Minister Ramsay MacDonald, after the formation of the National Government.

Later he said he was suffering from pains in his stomach and was shivering and upon Mrs. Henderson's advice, he went to bed. The pain became worse and his wife and son, William, sent for a doctor.

Van Hoot of Haarlem, Holland, won the first prize with a speech on "The Royal House of the Netherlands."

The French of Canada, M. Cournoyer said, had survived as a cultural entity because "of our love for mother earth, our richest economic treasure but above all," because of "our intellectual and moral qualities."

"There is one virtue which French Canadians claim as a treas-
