POLITICAL MEETING IN PRINCE COUNTY

(Continued from page one)

accuracy of those reports laid themselves open to a serious charge. He went on to specify the quality of \$100,000 obtained by the present Government through the efforts of the delegation that went to Ottawa, consisting of Hons. John McLean, A. E. Arsenault and himself, and pointed out the enormous advantages which the province had derived as a result. The previous Government lost a golden opportunity that presented itself in 1907 by remaining culpably silent when they should have pressed the claims of the province. The delegation from the present Government had a task of no common difficulty in persuading the authorities that the negligence of their predecessors should not stand in the way of the rights of P.E.I. Speaking in regard to the public services and the improvements all round, the Premier showed that in three and a half years the present Government had but three times as many feet of steel bridges as the former government had done in twenty years. He spoke of the mussel mud business, stating that some 5,000 tons had already been distributed. In regard to the oyster question he dealt with the speech of Mr. Bell, delivered at Malpeque, as published in the Pioneer and copied in the Patriot, the printed report being only slightly related to the actual utterance. The Premier picked this speech to pieces, much to the amusement of the audience, disposing of it as a mere repetition of the same old story and false statements made by Mr. Bell that speech. Mr. Bell would give the impression that he was opposed to oyster leases and yet as the Premier read to them, there were thirty acres leased to "Helen Bell, wife of John H. Bell, (loud cheering and uproarious laughter.) Mr. Bell, a young man, would not lease a single acre himself, seeing that he was opposed to it, but he got his wife to lease them. Perhaps that was not the same thing. The Premier asked the question would they exchange men like the Conservative candidates for a man like Bell, such mere pettifogging, double-dealing, who would hide himself behind his wife's skirts? (Uproarious laughter.) The Premier dealt very effectively with the slander in regard to the oats, explaining the circumstances fully and treating with due severity and contempt the miserable unparliamentary action of the petty opposition press in circulating falsehood calculated to injure the cause of the Empire in the present war, with the erroneous idea that some paltry advantage might be gained thereby. The good people of the province, however, were too intelligent to believe such hysterical misrepresentations, and would treat the Patriot effusions with the deserved contempt. Concluding, the Premier said that the people in the present contest had to choose between a Government with a record of efficiency and constructive ability behind it, and a leaderless aggregation of office-seekers, without principle or policy. Excellent addresses were also delivered by Messrs M. C. Delaney and A. A. Lefurey, and a highly enthusiastic meeting was brought to a close with the singing of the National Anthem.

CONVENTION IN SUMMERSIDE.

A Convention of the Liberal-Conservative of the Fifth District of Prince was held in Labor Union Hall yesterday afternoon, and was largely attended, each poll being fully represented. Dr. E. T. Tanton, President of the Summerside Conservative Club, occu-

PLIED THE CHAIR, WITH MR. J. F. ARNETT ACTING AS SECRETARY.

On the motion of Mr. Lamob Gaudet, Muddy Creek, seconded by Mr. Henry Compton, St. Eleanor's, Hon. James A. McNeill was unanimously chosen as candidate for Assemblyman at the coming election. On the motion of Mr. W. J. Lidstone, seconded by Mr. Franklyn Jolly, Linkletter, Hon. J. E. Wyatt was unanimously chosen as candidate for Councillor. There were no further nominations. In accepting the nomination for Assemblyman, Mr. McNeill in a short and pithy address thanked the delegates for the honor conferred upon him and assured them that he would in the future as in the past consider the interests of the Fifth District particularly and of the province generally. He assured them that the Mathieson Government would be sustained at the coming election and he trusted that his friends would stand by him as they had done in the past and that the Fifth District would continue to have a voice in the Government. The applause which greeted his remarks left no doubt as to the hearty support that Mr. McNeill will receive from the delegates and those whom they represented. Hon. J. E. Wyatt next addressed the meeting. He reviewed briefly the history of the Public Works Department, dealing especially with the management of the roads which he was expiating in the district in which they were collected, under the present Government, payments for all work done on the roads were made by department cheques signed by the Commissioner and Secretary after the closest scrutiny and investigation. Moreover all taxes for roads were expended in the district in which they were collected, whereas under the present Government, payments for all work done on the roads were made by department cheques signed by the Commissioner and Secretary after the closest scrutiny and investigation. Moreover all taxes for roads were expended in the district in which they were collected, whereas under the present Government, payments for all work done on the roads were made by department cheques signed by the Commissioner and Secretary after the closest scrutiny and investigation. Mr. Butler will not accept position. MONTREAL, Aug. 22.—Mr. M. J. Butler, ex-president of the Canadian Society of Civil Engineers, stated today that he had not been appointed as consulting engineer of the \$10,000,000 aqueduct scheme, and had no intention whatever of accepting such appointment.

As the manager of the well known firm of the Armstrong-Whitworth Company, and ex-president of the Canadian Society of Canadian Engineers, Mr. Butler is probably one of the most eminent authorities on engineering matters in Canada, and one can well understand his expressed determination as expressed today not to have anything more to do with the aqueduct scheme as it stands at present.

BOSTON HERALD IN DIFFICULTIES. BOSTON, August 23.—Notice of sale at auction of all property of the Boston Herald, Incorporated, publishers of the Morning Herald and the Evening Traveller, was published today. The sale, which will take place on September 14, has been ordered because of a default in payment of semi-annual interest on mortgage bonds due to the Commonwealth Trust Company.

GRAVE SITUATION IN CONSTANTINOPLE

(Special to the Guardian.) LONDON, Aug. 24.—The population of Constantinople considers the situation grave, according to information received in Sofia, Bulgaria, says a Reuter despatch. Violent fighting has been in progress on the Gallipoli Peninsula for the past week. It is declared thousands of wounded are arriving every day at Constantinople. At the same time thousands of fresh troops are being sent to the Dardanelles front. The scarcity of bread and coal is said to have added to the general feeling of depression.
