STOCK QUOTATIONS

Stock Markets At A Glance

TORONTO, July 12—(CP)—Trading in only moderate volume stocks showed insignificant index losses at the close of today's Toronto Exchange Market for the mining groups. In the final hour interest in the western oils perked up and gains were posted on good volume. The group recorded an index gain of .16.

MONTREAL, July 12 — (CP) — Securities rallied on the Stock Exchange and Curb Market today after Tuesday's shake-down in prices. All groups moved up in the averages except utilities which were unchanged. Turnover showed a sharp falling off from recent totals.

WINNIPEG, July 12—(CP)—Rye futures traded narrowly on the Winnipeg Grain Exchange today in comparatively light trade. Dealings were largely confined to locals and commission houses. December and May futures again posted new season highs. Inter-market spreading was mentioned with buying of the May here against sales at Chicago.

LONDON, July 12—(CP-Reuter)—Continued good war news was again a favourable influence on stock markets and a generally firm tendency was maintained in moderate turnover. Widespread demand was resumed for industrials with irons and steel and textiles prominent, despite profit-taking in the afternoon especially in stores, the general price level moved still higher.

CHICAGO, July 12—(AP)—A commercial demand for wheat futures developed in late trade today and prices rallied after a mid-session decline. Hedge selling was apparent throughout the day but rye offerings were not large and there was comparatively little pressure on the market. Reports of large flour sales to bakers also figured in the advance

Re Marketing Heavy Sows

The situation, in regard to the marketing of sows, has developed into a problem. There is no demand for them from the trade, and cold storage facilities have become so glutted up with the product that Packing Plants find it necessary to call a halt until some of the stock on hand can be liquidated. Consequently, the Livestock Marketing Board will not accept sows for shipment until the week of July 31st. During that week arrangements will be made to accept all the sows offered, but the chances are, they will have to be re-loaded at some central shipping point and sent through to Montreal in straight carloads of sows.

Following this, it is probable another recess period must be observed before a further shipment be undertaken.

Farmers who have sows to dispose of, are in the unfortunate position of having a product for which there is no demand at the moment and the Marketing Board is endeavouring to solve the problem as best it can.

We trust farmers will understand the situation and co-operate with us along the lines suggested in this letter. War conditions may change at any time, when there will be an outlet for every thing we will have to sell, in the liberated countries.

AN IMPORTANT MESSAGE
from
TIP TOP TAILORS LTD.

Our Stores Will Be Closed
From July 22nd to August 5th Inclusive

Since 1939 Tip Top Tailors' employees in stores from coast to coast and in our plant have worked under high pressure and often under the most difficult circumstances. Depleted staffs too, created more work for those that remained—often one man doing the work of two or more.

While our military production remained at its peak there was no thought of let-up. With this type of production now fairly well in hand, we feel that the men and women of Tip Top Tailors should have a respite to give them an opportunity to get out into the sun and rest.

This two-week closing will also enable key men in our plant and stores to catch their breaths, and to make arrangements for Fall production and delivery—without having to cope during this period with day-to-day problems as well.

We ask our customers to make a note of the above dates during which we shall be closed—

July 22nd to August 5th.

If you have a Tip Top garment on order now, at YOUR Tip Top store, please contact this store to see if it is ready. If it is, be sure to take delivery before July 22nd.

Federal Board to Watch Farm Prices

OTTAWA, July 12 — (CP) — Appointment of a Federal Board or Committee which will keep constant watch on the movement of farm and other prices is probable as part of the federal legislation establishing floor prices for agricultural products, it was learned yesterday.

The proposed board would be in a position to recommend action to the government when it appeared that farm floor prices and the prices of articles the farmer had to buy were getting out of line. The action might take the form of altering the floor prices to keep them in proper relation to the general commodity prices level.
