The best piece of musical comedy that has ever been shown in the city will be "Forty five minutes from Broadway" which will be placed on the boards at the Opera House, July 26th and 27th. A large portion of the "small boy" element of the population of this city were enjoying themselves on the western water front the other evening when a policeman hove into sight. A stampede among the bathers immediately ensued. A sense of guilt induced by a lack of bathing costumes, caused the majority to run like pre-adamites through the street to the nearest place of refuge. While it lasted the flight was a startling exhibit of the "altogether." However, the boys do not appear to be causing much annoyance this summer, most of them go to the Victoria Park baths where the addition of a few more decent bathing houses might wisely be made.

The Guardian has placed an order with the Mergenthaler Co Ltd, Montreal, for another of the well known Monoline typesetting machines which they manufacture, and which give such universal satisfaction everywhere. This is occasioned by this paper's increasing business, and will give its readers an even better news service than they now enjoy. The Mergenthaler people also manufacture the high grade American Linotype, but there are none of the latter machines in this Province owing to their great cost. The Mergenthaler Co believe that the best is none too good, so they will not handle other than the American Linotype and the Monoline. When installed, The Guardian will be the only Provincial paper with three type-setting machines.
