

FOR THE WOMAN READER BY FLORENCE RIDDICK BOYS

HOUSES

And tell me people of Orphese, what have you in these houses...

Have you remembered that glimmering arches that span the summits of the mind?

Or have you only comfort, the lust for comfort... which murders the passion of the soul...

VACATION

Vacation is not what it says a vacancy, but rather a change of occupations and interests...

Look out for the drinking water you use when away from home. Don't drink that whose purity is unknown...

Do you know the poison ivy vine, with its three divided leaf, the poison oak, a small shrub with broad leaves like an oak...

Warned with a foreknowledge of what to avoid, get out into the open for summer relaxation...

One can pick up a jolly crowd in the twinkling of an eye. Take along a basket of several varieties of sandwiches...

You will need a big rubber ball or bean bag for play, a jolly book or magazine, or musical instrument...

Shirring is a favorite treatment of all these days. There are shirred yokes, shirred sleeves, shirred vests, shirred cuffs...

Shirring is a favorite treatment of all these days. There are shirred yokes, shirred sleeves, shirred vests, shirred cuffs...

Shirring is a favorite treatment of all these days. There are shirred yokes, shirred sleeves, shirred vests, shirred cuffs...

Shirring is a favorite treatment of all these days. There are shirred yokes, shirred sleeves, shirred vests, shirred cuffs...

Shirring is a favorite treatment of all these days. There are shirred yokes, shirred sleeves, shirred vests, shirred cuffs...

Shirring is a favorite treatment of all these days. There are shirred yokes, shirred sleeves, shirred vests, shirred cuffs...

Shirring is a favorite treatment of all these days. There are shirred yokes, shirred sleeves, shirred vests, shirred cuffs...

Shirring is a favorite treatment of all these days. There are shirred yokes, shirred sleeves, shirred vests, shirred cuffs...

Shirring is a favorite treatment of all these days. There are shirred yokes, shirred sleeves, shirred vests, shirred cuffs...

Shirring is a favorite treatment of all these days. There are shirred yokes, shirred sleeves, shirred vests, shirred cuffs...

Shirring is a favorite treatment of all these days. There are shirred yokes, shirred sleeves, shirred vests, shirred cuffs...

Shirring is a favorite treatment of all these days. There are shirred yokes, shirred sleeves, shirred vests, shirred cuffs...

Shirring is a favorite treatment of all these days. There are shirred yokes, shirred sleeves, shirred vests, shirred cuffs...

Shirring is a favorite treatment of all these days. There are shirred yokes, shirred sleeves, shirred vests, shirred cuffs...

Shirring is a favorite treatment of all these days. There are shirred yokes, shirred sleeves, shirred vests, shirred cuffs...

Shirring is a favorite treatment of all these days. There are shirred yokes, shirred sleeves, shirred vests, shirred cuffs...

Shirring is a favorite treatment of all these days. There are shirred yokes, shirred sleeves, shirred vests, shirred cuffs...

Shirring is a favorite treatment of all these days. There are shirred yokes, shirred sleeves, shirred vests, shirred cuffs...

Shirring is a favorite treatment of all these days. There are shirred yokes, shirred sleeves, shirred vests, shirred cuffs...

Shirring is a favorite treatment of all these days. There are shirred yokes, shirred sleeves, shirred vests, shirred cuffs...

SMALL PACKAGES

Canners and packers are now putting up small packages of food for small families...

There is no question as to where he will be entertained. It will be the home of Jesse. The preparation quickly made and the guest is about to take his place at the head of the table...

A shepherd lad on the Judean hills tends his father's sheep. He may have seen the prophet pass or noted the stir caused by his arrival...

BUTTERMILK

For persons who are inclined to overeat of meat or beans or other proteins, buttermilk is a good protective food...

Too often it is fed to pigs and chickens and the children and adults deprived of its corrective benefits.

The Avocado

The avocado, or alligator pear, is a tropical contribution to our salad fruit. Its mild delicate flavor is at its best when combined with oranges or served with lemon juice or French dressing...

Where it is well known, the avocado has many uses. It may float in soup, be frozen in ice-cream, or be in any course, from soup to nuts.

To serve the avocado one may simply cut it in two, remove single large seed, and lay the halves on lettuce. Or it may be peeled, mashed, and spread on toast...

It matters little whether the divine culture of the young king was mediate or immediate. Samuel himself may have been his teacher or he may have gone to a prophet's school as Saul did...

Fruit Odds and Ends

If you find in your cupboard one orange, one banana, one sauce dish of strawberries and one slice of pineapple, do not set them into a cocktail. Place your sherbet cups in a row, one for each member of the family...

Put into a delicate instead of a "left over".

Put into a delicate instead of a "left over".

Put into a delicate instead of a "left over".

Put into a delicate instead of a "left over".

Put into a delicate instead of a "left over".

Put into a delicate instead of a "left over".

Put into a delicate instead of a "left over".

Put into a delicate instead of a "left over".

Put into a delicate instead of a "left over".

Put into a delicate instead of a "left over".

Put into a delicate instead of a "left over".

Put into a delicate instead of a "left over".

Put into a delicate instead of a "left over".

Put into a delicate instead of a "left over".

Put into a delicate instead of a "left over".

Put into a delicate instead of a "left over".

Put into a delicate instead of a "left over".

Sunday School Lesson

Third Quarter: Lesson III: 1 Samuel XVI: 4-13. July 17, 1927. Golden Text: Let no man despise thy youth...

SAMUEL ANOINTS DAVID

(The Story)

The obscure Judean village is thrown into a tumult by the unlooked for coming of one who outranks the king himself, Samuel the prophet...

Where he will be entertained. It will be the home of Jesse. The preparation quickly made and the guest is about to take his place at the head of the table...

A shepherd lad on the Judean hills tends his father's sheep. He may have seen the prophet pass or noted the stir caused by his arrival...

But grace of heart surpasses theocratic spirit. David breathes a prayer of loyalty to Jehovah and helpful to his fellows...

As David entered God said to the prophet, "Up! Anoint!" Next morning the oil of the Tabernacle glistens on those golden locks...

But grace of heart surpasses theocratic spirit. David breathes a prayer of loyalty to Jehovah and helpful to his fellows...

As David entered God said to the prophet, "Up! Anoint!" Next morning the oil of the Tabernacle glistens on those golden locks...

But grace of heart surpasses theocratic spirit. David breathes a prayer of loyalty to Jehovah and helpful to his fellows...

As David entered God said to the prophet, "Up! Anoint!" Next morning the oil of the Tabernacle glistens on those golden locks...

But grace of heart surpasses theocratic spirit. David breathes a prayer of loyalty to Jehovah and helpful to his fellows...

As David entered God said to the prophet, "Up! Anoint!" Next morning the oil of the Tabernacle glistens on those golden locks...

REPORT OF WOMEN'S INSTITUTES OF P. E. ISLAND

"MAPLE LEAF" TRAVELER'S REST

The meeting was held at the home of Mrs. Robert Marchbank, 15 members and 3 visitors were present...

Meeting opened with singing the Institute "Ode". The minutes of last meeting were read and adopted...

The monument committee report a caretaker secured to care for same. A motion passed that all the members attend the Annual School meeting...

Delegates were appointed to attend convention, and money was voted for their expenses. Committee was appointed to collect for Red Cross...

Next meeting to be held at the home of Mrs. A. Champion.

VICTORIA. The meeting was held in the hall, 11 members were present. The meeting opened with repeating Creed in unison...

Minutes of last meeting were read and approved. Delegates were appointed to attend the convention...

Sum of five dollars was voted for school prizes. Bill for school to be provided by the Institute. Bill for sidewalk of four locks upon his brow...

But grace of heart surpasses theocratic spirit. David breathes a prayer of loyalty to Jehovah and helpful to his fellows...

SCIENTIFIC FACTS

NEWEST NOTES OF SCIENCE

An adding device features the end of a new refillable lead pencil. Bermuda is to have its first railroad, a single track line 24 miles long...

The upper part of a new double hook for clothing holds it firmly on a closet shelf. About 80 per cent of the farm tractors used in France are made in the United States...

A folding jack has been invented that lifts an automobile when a wheel is run up it. Motorized three wheeled chairs for cripples and invalids have been designed in Germany...

The number of homes in the United States using electric light is estimated at 16,000,000. Males of a species of fish native to Siamese waters make a sound like the purring of a cat...

A French marine engineer claims to have discovered a substance that makes gasoline noninflammable. In the bottom of a new case for holding a package of cigarettes is a place to hold a match...

An automatic telephone system is being installed in the city of Santo Domingo by American engineers. To prevent the odor filling a house transparent wrappers in which fish can be cooked have been invented...

In Sweden in March a market lettuce that was grown out of doors by warming the soil with electricity. Measuring 20 inches in length when extended, a new telescoping cigarette holder can be closed to a length of four...

Scientific societies have planned to establish a powerful radio broadcasting station at Johannesburg, South Africa. Accurate measurements have proved that smoke clouds floating over cities exclude as much as one third of the sunlight...

Without including Mongolia and Tibet there are estimated to be 225,000,000 acres of land in China under cultivation. One card can be ejected at a time from a new card case that can be carried in a vest pocket and manipulated by one hand...

To increase their visibility in fog London traffic policemen are experimenting with white rubber cuffs on their uniforms. To protect women's hats from rain a rubber cover that folds compactly enough to be carried in a hand bag has been invented...

About 90 per cent of the ore from which the world derives 60,000,000 pounds of refined nickel annually is mined in Canada. Copper plated shot have been invented, the idea being that they will scatter less than pure lead missiles when fired from a gun...

Swedish airplanes carry passengers between Malmo and Copenhagen in ten minutes as compared with two hours, required by ferryboats. With a new camera for aviators an area of 180 square miles can be mapped from an altitude of 15,000 feet on a single roll of film...

To obtain power for industries a hydroelectric plant to eventually develop 120,000 horsepower is planned for a Chilean waterfall. Durability and the fact that they can be washed are advantages claimed for artificial flowers made of rubber by a patented process...

To combat serious locust invasions a South African railway maintains a car to spray its tracks and right of way with an insecticide. A new electric room heater can be hung flat against a wall or turned out at an angle for drying or heating clothing and other articles...

Of European design is a fire engine unit small enough to be carried in a motorcycle side car that can pump 75 gallons of water a minute. To aid in teaching geography, cloth covered wire globes have been designed upon which school children paste maps they have drawn to scale...

There was a notable increase in the production of all important metals except gold and graphite in 1926 last year as compared with 1925. A Louisiana experimenter has developed a new type of rice, the heads of which have short, sharp beaks, too tough for cutting for birds to eat...

The Bulgarian government is endeavoring to educate the peasantry the advantages of scientific farming through several experiments. Heated by liquid fuel carried in its handle, a new branding tool has been invented to mark automobile tires and equipment with owners' initials...

German builders have developed several small types of Diesel engines for use with road rollers, concrete mixers and other industrial machinery. The United States has about 39 residents to the square mile, compared with 335 in Germany, 352 in Great Britain and Italy and 590 in Holland...

The Brazilian government will complete the Oros dam in the state of Ceara, one of the largest in the world, being built for irrigation purposes. According to a scientist who has on marriage early or late in life. It was decided to hold a tea cream and pie social in conjunction with School Trustees...

One new member enrolled. Next meeting to be held at the home of Mrs. D. J. Campbell. BORDEN. Meeting was held in the Schoolhouse, 8 members were present. The meeting was called to order by Director, Mrs. Laura Stewart, reading the Club Women's Creed. Minutes of previous meeting were read and adopted...

All Institutes on the Island are to be asked for their name, number and fifty cents for a square in a quilt. Next meeting to be held in the Schoolhouse. MOUNT CARMEL. Twelve members met in the hall. The meeting opened with Roll Call. Minutes of last meeting were read and adopted. Committee appointed to visit schools gave their reports. Two schools were visited and found in a satisfactory condition. Two delegates were appointed to attend the convention. Ten dollars was voted to buy church ornaments. Roll call at next meeting is to be answered with questions. Next meeting to be held in Mt. Carmel Hall.

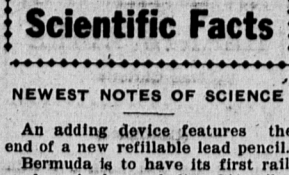

PRIEST POND. Meeting was held at the home of Mrs. J. R. Ryan, 8 members and 7 visitors were present. The meeting opened with Ode, followed by reading and adoption of minutes of last meeting. Committee reported and new ones were appointed. Roll call was answered by private views in the Schoolhouse.

SEA VIEW. Seventeen members and three visitors met in the schoolhouse for the monthly meeting. Meeting opened with "Ode" and "Creed", followed by Roll Call and reading and adoption of minutes. Reports were read from sick and school committees. Correspondence was read and discussion followed. Delegates were appointed to attend the Convention. School room floors to be cleaned. Committee appointed to collect for Red Cross Fifty cents to be donated to Borden Institute to help with autograph quilt. Letter of thanks was read from an returns re-created with zest and enthusiasm renewed and increased.

DAILY SCRIPTURE READINGS Monday.—Standard of fair play. Genesis 21:22-24. Tuesday.—Re-creation. Mark 6:21. Wednesday.—Harmful amusements. 1 Cor. 10:1-7. Thursday.—Misused amusements. Matt. 11:16-19. Friday.—Generosity. Gen. 13:9. Saturday.—Think of the weak. Rom. 15:1-6.

TO THINK ABOUT What vital Christian standard should we apply to amusements? What amusements are obviously unchristian? What kind of amusements would Jesus indulge in if he was among us now?

CHILDREN CRY FOR

Fletcher's CASTORIA. Castoria is a pleasant, harmless Substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups, especially prepared for Infants in arms and Children all ages.

MOTHER:—Fletcher's Castoria is a pleasant, harmless Substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups, especially prepared for Infants in arms and Children all ages.

To avoid imitations, always look for the signature of Dr. J. C. Fletcher. Proven directions on each package. Physicians everywhere recommend it.

made accurate studies of athletes a man who runs 100 yards in nine seconds uses about nine horsepower of energy. Explosive rivets invented by an Englishman to be fastened inside closed objects are expanded by firing cartridges they contain with hammer blows.

A compressed air operated machine has been designed by a Denver man to cleanse packing taken from railroad car journal boxes before it is replaced. Argentina has prohibited the importation of corn or seed corn from all countries as a means of preventing the possible introduction of the corn borer.

With a vacuum drying process invented in Sweden lumber is made ready for cabinet work or pattern makers within three days after a tree has been cut down. Driven by an air propeller, a new motor boat is steered by a large rudder that automatically rises as the speed increases until it is entirely in the air.

The Italian state railways are planning to use locomotives of a new type that can develop 2000 horsepower and maintain a speed of about 75 miles an hour. To be attached to a telephone mouthpiece to call the attention of users to the length of time they are talking a three minute sand glass has been designed.

To help in the study of technic a German musician has invented a machine to record on a film all the delicate vibrations that make up a musical composition. Interlocking bricks for chimneys have been invented that are so formed that when laid properly they form smooth, round flues in which soot cannot accumulate.

Scientists in Holland are obtaining from coal a dry carbon with many uses, a liquid said to be better than gasoline for fuel and a gas of high heating value. Inventors are striving to develop machines that will efficiently extract rubber from plants growing in the United States that produce it in small quantities.

When completed the power plant on the Shannon river at Limerick, Ireland, will develop 240,000 horsepower control an any unit under 1000 tons. Punctures seal themselves when their causes are withdrawn from a new automobile inner tube that has a thick section of rubber vulcanized on as an inner tread.

In experimenting with new ratons the British army uses a bicycle geared to recording apparatus to show how much work a soldier can do after each type of meal. A new gas that is a byproduct of petroleum refining that readily liquefies under pressure for transportation is being developed both for lighting and for motor fuel.

Potential production from the Maracaibo basin is so great that it would make Venezuela the second petroleum producing country in the world if the oil could be exported. With a view to increasing the uses of silver the United States Bureau of Mines is experimenting in an effort to find an alloy high in silver content that will not tarnish.

FLOOD DESTROYS CROPS EDMONTON, July 11.—More than nine thousand acres of hay land in the area of Big Lake, lying between Edmonton and Lac Ste. Anne, have been inundated and the hay crop destroyed at an estimated loss of \$90,000 to the farmers, owing to the flooding waters of the Sturgeon River.

MARRIAGES MUTCH-LOOMIS.—At Litchfield Conn., U. S. A. on Saturday the 2nd of July, by the Rev. Mr. Brewster, the marriage took place of Miss Edith McCallum Mutch, daughter of W. A. and Mrs. Mutch, Hopeton, Kent, Conn.

DEATHS PRAUGHT.—In this city, July 9th, Joseph A. Praught, aged 56 years.
