Stock Markets At A Glance

WINNIPEG, May 6 — (CP) — Rye futures prices gave an irregular display on the Winnipeg grain exchange today, fluctuating widely to flurries of buying and selling.

CHICAGO, May 6 — (AP) — Active grain futures were strong today with deferred oats contracts hitting their ceilings on several occasions and May rye at times advancing the five-cent limit permitted in one day. Offerings expanded in both oats and rye when no further advance was possible and prices backed down.

MONTREAL, May 6 — (CP) — Prices turned definitely lower in trading today on the stock exchange and curb market. Generally, lower trends were ascribed by market analysts to the example of New York but in refineries a dividend cut was responsible. All key groups were down in the indices and individual losses had a 3-1 advantage over gains.

NEW YORK, May 6 — (AP) — The stock market, on averages, made it five losing sessions in a row today although pressure was lacking and a number of issues negotiated last-minute recoveries.

The Associated Press 60-stock composite was off .5 of a point at 71.6, where it was 2 1-2 points under the 15-year peak established April 20.

TORONTO, May 6 — (CP) — Stocks registered their widest decline of recent months today on the Toronto exchange. Influenced by weakness in Wall Street and the strike situation in the United States. The mining groups were close to two points down and the western oils were off .52. Offerings dried up as prices weakened and the turnover for the day was only 1,399,000 shares, a reduction from last week's average.
