IN MEMORIAM

MISS ANN McDONALD.

There passed away at Pinette on December 25th, 1914, after a short illness Ann McDonald in the 69 year of her age.

MR. WILLIAM BAGLOLE.

Passed peacefully to rest at Northam, Lot 13, on Dec. 27th, 1914, WILLIAM Baglole in the 91st year of his age.

ICEBOAT KILLS SKATER.

HAMILTON Ont., Jan. 21.—As the result of an ice-boat accident on the bay Constance Shipman, the 11-year old daughter of W. H. Shipman, is dead of a fractured skull.

BRITISH REGIMENTS IN THE THICK OF IT.

LONDON, Jan. 19.—Lists of dead and wounded British troops just compiled by the war office show that in the recent fighting the following units have borne the brunt of the German assaults.

COPENHAGEN, Jan. 19.—A private despatch from Berlin reports that a Zeppelin airship sailed over Paris yesterday and that an aerial bombardment of the French capital is soon to begin.

NON-SHOCKING

"We are now showing the largest and most complete line of Colgate's tooth preparations you have ever seen. It includes all that is new and best in these famous preparations.

ABBIES AND CRYSTALS PLAY AT ARENA TONIGHT

Tonight in the Arena rink the first hockey clash between a city team, the Abegweits and the Crystals of Summerside will take place.

The western team, who were Island Champions last season, will have, at least, as strong an aggregation as last year. It is understood there will be a change in the goal tend, Graves, of last year's intermediates, replacing Doucette. Stanley Perry, who was formerly one of the western stars but who was out of the game last season, is expected to appear at centre.

The Abegweits will present a stronger team than for some seasons and a royal game should result.

The defence of the Abbies should be particularly strong. It is believed that Vanierstine, Chester Campbell and George Stanaway will hold the defence in the goal.

Stanaway, who has played in the West for some years, is a strong aggressive player and a good deal is expected of him in tonight's game. He will be remembered as a prominent field athlete some years ago by the followers of sport.

The performances of Vanierstine and Ches. Campbell have been of a high class order in the hockey arena and as a net guardian Vanierstine has few peers.

The forward line will likely be made up of Lou Campbell, the speedy centre of last year, who is playing in an improved fashion, and Joseph Power, easily of senior calibre, is this year displaying more speed, stick handling ability and aggressiveness than ever.

E. McTague is again filling a wing position and can always be depended upon to put up a steady and excellent game. The other wing position will probably be filled by James Duffy, who has speed to burn, good shooting ability and splendid staying power. He is showing up this year in practice remarkably well.

This septette the local puck-chasers should put up a good showing tonight and one of the best games of the season will likely be witnessed.

The game starts at 8.15 sharp and as it will proceed without any delays, by the new by-laws, all lovers of the sport will witness the game in even a more enjoyable manner than ever.

DISABLED BELGIAN RELIEF SHIP NOW BEING TOWED TO HALIFAX.

HALIFAX, January 20.—Up to last night no further news was learned of Belgian relief ship Camino apart from the fact that she was now being towed to Halifax by the Furness steamer Kanawha and the government steamer Lady Laurier.

The latter vessel reached distressed steamer at midnight Monday and took the Camino in tow at ten o'clock yesterday morning. The Kanawha also has the vessel in tow and is taking the heavier part of the work, while the Lady Laurier is steering the disabled ship.

C. H. Harvey, of the marine and fisheries, received a wireless from Captain Travis, of the Lady Laurier, giving the foregoing information. It is thought that the vessels will arrive in port early tomorrow morning.

The westerly gales prevailing yesterday will probably delay them. The steamer Kanawha is a Furness liner now running between New York and Marseilles, and is well known at Halifax. William Roche is the agent for the Camino.

A NEW ZEPPELIN HAS TRIAL FLIGHT.

GENEA, Jan. 19.—A new Zeppelin airship left Friedrichshafen yesterday on a trial flight of an hour. After skirting Lake Constance the airship disappeared over the Grand Duchy of Baden, and later returned safely to its shed.

Prior to making the trip a German aeroplane made a scouting tour in order to prevent a surprise by French aircraft.

It is reported that the new Zeppelin will depart shortly for service on the North Sea.

GERMANY BADLY IN NEED OF COPPER.

PARIS, Jan. 21.—A letter which the Journal publishes from an officer at the front shows the enormous importance which the Germans attach to copper, incidentally justifying the British measures to prevent its importation, the Journal remarks.

The officer writes: "Prisoners are now devoid of brass buttons and badges and even the points of the famous helmets. The state has ordered them to hand over everything containing copper and also to search about for such however trifling. When the German helmet is pointless, surely the beginning of Germany's end has come."

HORSE NOTES

That keen interest is being taken in horse racing, can easily be proved by the crowds that witness the weekly races of the New London Ice Racing Association. This club, which is just beginning its second season has reached the hundred mark membership, inaugurated the ribbon member ship last season. This year it has made a further innovation, viz. button rosettes with the club name neatly inscribed, for even running horses.

In addition to the purses thus giving them a lasting souvenir of honors won. To W. S. Found, formerly of Charlottetown, who handled some good horses there, a great deal of credit for its being is due, ably assisted by the efforts of James Pen gergast, Wm. Toombs, Hugh Morrissey and others. Though organized, as an Ice Racing Association, it is likely that racing will be held during the summer months on the new training track which has been laid out.

One is being looked by her owner Ed. Urech and looks fine after her return. Brad. McArthur has Baby Logan, 2 1/2 in the pink of condition. Happy George, 2.22 1/2 has had a three months run in bare feet, but is wearing new shoes since last week and looks ready.

Rumor had it that he was liable to be challenged, but like much of the news in these days is unfounded. In addition there are a number of good colts and porsets, some of which will surely be heard from next summer.

PERSONALS

Dr. D. Darrach, Kensington, was in Charlottetown yesterday.

Mr. H. H. Acorn, Souris, was among visitors to Charlottetown yesterday.

Mr. A. P. Prowse, M.L.A., Murray Harbour, came to Charlottetown yesterday and registered at the Victoria.

Messrs J. W. Carruthers, Montague, and H. H. Cox, Morell, were among visitors to Charlottetown.

Mr. A. L. Fraser, ex-M.P., Souris, was in Charlottetown yesterday, and returned home in the afternoon.

Mr. William Lewis has returned to his home in Freetown, after a pleasant visit to Hampshire and Charlottetown. While in the city he visited the Short Course and was pleased with the work done there.

"Buy Rexall Remedies—no matter what the nature of your ailments is, there is a Rexall remedy that is guaranteed to cure. Buy Rexall Remedies for best results, they are sold on their merit. MacKinnon Drug Co., Cor. Great George and Kent Streets, Charlottetown."

CONSTANTINOPLE REALLY IN DANGER.

PETROGRAD, Jan. 20.—The belief is growing here that Constantinople really is in danger. The military position of Turkey has become desperate through the clearance of their trans- ports from along the southern shores of the Black Sea. The Russians, in their cruise there, destroyed 51 Turkish vessels, mostly sailing craft, which the Breslau and Kamedieh should have guarded. They opened fire on the Russian cruiser at night, using projectors, but the Russian broad- side destroyed the Breslau's projec- tor. The Hamledieh then extinguish- ed hers, and both disappeared in the dark.

Previous to this the Breslau, through confusion in signals from shore, bombarded the Turkish position near Cho- paso so fiercely the Russians entered it without loss.

WILL WED MAN IN FAR JAVA BY PROXY.

DENVER, Col. Jan. 21.—The first marriage by proxy ever authorized by the Dutch government between one of its subjects and an American girl will be performed in Denver and on the island of Java in the Dutch East Indian group, 10,000 miles away, at corresponding hours next Wednesday night.

Miss Eugenia Campbell, daughter of the late Charles Campbell of Colorado Springs, and Harvey Duell, a Denver newspaper man, will be the principals in the ceremony. John Pieter Scholten, eldest son of Commander Pieter Scholten of the Dutch navy, retired, and a young woman whose name is unknown here, will go through a similar marriage ceremony.

The ceremony is made imperative here for the holding of all Netherlands troops under reserve for service in case of war.

DAY AND NIGHT GERMANY'S SOLDIERS GROUND TO DEATH IN STAFF'S MACHINE.

LONDON, January 20.—Granville Fortesque, telegrams from Warsaw to the Daily Telegraph, The Halifax Herald and The Evening Mail, light- ning along the Guecha-Belmalaf line shows a definite character. The Ger- mans seem determined to occupy a certain section of wooded, country held by Russian corps. Their attacks had been aimed at this point for three days and the opinion of our officers, by the Russian general officers, concerning their assaults continue to fail and there be a return of severe weather, the Germans must retire to the line they fortified in the rear. Spies re- port the line elaborately prepared for defence on the Grodeisk-Kekierievic route of the Russian advance. The Russian army is improving steadily. The soldiers are equal to anything in England in physique and look able to stand the test of the trenches. Do not be impatient about this forward movement on the part of the czar's troops. Day and night Germany's good fighting men are being ground to death in the machine that feeds the merciless demands of the German staff. Each successful charge now means an easier task in the future.

Little Better Than Murder

"I didn't wait long. I may have hit one or two, but the others had rifles in their hands by this time, and their main line of dugouts was only 20 yards in front of me. I turned, called upon the two scouts who were with me and fled. I am going to tell you what a brave man I am, because I don't know when I shall be hit, though somehow I feel confident I shall come through, and I want to have a testimony, you'll think I am a savage. Sniping is little better than murder."

An Awful Machine

"The Germans have an awful machine which has been brought into play against our trenches recently. Shot from a distance of 300 yards, a one-foot long projectile, which one can watch at all points in its flight, goes high into the air and comes down almost plump at the point aimed at. It is called, I believe, a Minenwerfer—200 pounds of shell. A special corner of our line—not our company section, thank God—has been their special aim. They put these infernal bombs into a circle of 30 yards radius. They smash in the trenches blow men to bits and stupefy, and poison others."

Oxford Sends Her Best

A census at Oxford shows that two-thirds of the students and faculty are either now in the fighting or in training camps. The Oxford dons have shown special enthusiasm. Every man aged less than sixty years has responded to the call, "Your King and Country Need You." The younger dons are commissioned officers in the active forces, while the older are enlist-

ROBERT BURNS

BURNS ANNIVERSARY.

The great event now-a-days in the Scottish Calendar is Burns Anniversary which falls on January 25th. The committee of the Caledonia Club which annually arrange for the suitable celebration in Charlottetown, have completed preparations for two grand concerts in the People's Theatre on Monday and Tuesday evenings respectively. The programme as will be seen from the advertising columns is both long and varied, probably no more interesting one has been submitted to a Charlottetown audience for many a day. It includes Scottish

songs, dances and drills and exercises, pipe-playing, etc., as well as patriotic and other contributions. Those who patronize the entertainment, in addition to the opportunity of enjoying a first class programme have the satisfaction of knowing that the greater portion of the net proceeds is contributed to charitable objects. Last year, for instance, 57 poor people were supplied with coal, groceries, clothing and boots and shoes: Donations were also made as follows: Tuberculosis Dispensary \$5, St. Vincent Orphanage, \$15, Mt. Herbert Orphanage \$15; Patriotic Fund \$25.

SNIPING IS MURDER

LONDON, Jan. 21.—Sniping in the trenches in Flanders is murder, says an Oxford University professor in a letter home which has just come into my possession. He gives a vivid account of the horrors of warfare in a pine wood, where the Germans can be heard sapping 30 yards in front of the British line.

"This is the thirtieth day in the trenches, at least I think so, but I can hardly tell, and I have experienced everything but a bayonet charge and a wash.

Blood-spattered Wood

"We have been roiding trenches in a pine wood—at least it was a pine wood, now it is match wood, soaking, splintered, spattered with wet and blood. There has been no hand-to-hand fighting. It has all been done by the shell and rifle fire, with pneumatic bombs. The Germans' main trench runs in a line with a range of point is 500 and furthest 1,300 yards from us. But in between they have been burrowing up, and in the last few days, when I have been Scout-master, I have discovered subsidiary trenches, pits and dugouts from within 100 to 30 yards of our line. You can't see them because of the tangled woods, but you can hear the men digging and hacking as soon as you get five yards out. I myself have constantly within the last few days been playing against our trenches recently. Shot from a distance of 300 yards, a one-foot long projectile, which one can watch at all points in its flight, goes high into the air and comes down almost plump at the point aimed at. It is called, I believe, a Minenwerfer—200 pounds of shell. A special corner of our line—not our company section, thank God—has been their special aim. They put these infernal bombs into a circle of 30 yards radius. They smash in the trenches blow men to bits and stupefy, and poison others."

FRENCH HAVE HUGE FORCE.

LONDON, Jan. 21.—The Rev. Hugh B. Chapman, chaplain of the Chapel Royal, tells of an interview he had with Gen. Joffre's aide-camp in France. In part, he says: "I gave me figures as to the reinforcements which France possesses and is prepared to use at the right moment that simply astounded me. The figures far exceed my own anticipations, and would come in the nature of a great surprise to ninety-nine out of every hundred people in England as they did to me.

"I imagined, of course, that France had great reserves, but did not know until I was told that they were anything like so enormous.

"Nor for one moment did the suggestion that the campaign might take an adverse turn arise. The only idea in the aide-camp's mind was that the war had entered upon such a stage that defeat on the Allies' part was inconceivable."

END INDIGESTION OR STOMACH PAIN IN FIVE MINUTES

"Pape's Diapiesin" makes sick, sour, gassy stomachs feel fine.

Time it! In five minutes all stomach distress will go. No indigestion, heartburn, sourness or belching of gas, acid, or eructations of undigested food, no dizziness, bloating, foul breath or headache.

Pape's Diapiesin is noted for its speed in regulating upset stomachs. It is the surest, quickest and most certain indigestion remedy in the whole world, and besides it is harmless.

Millions of men and women now eat their favorite foods without fear—they know Pape's Diapiesin will save them from any stomach misery.

Please, for your sake, get a large fifty-cent case of Pape's Diapiesin from any drug store and put your stomach right. Don't keep on being miserable—life is too short—you are not here long, so make your stay agreeable. Eat what you like and digest it; enjoy it, without dread of rebellion in the stomach.

Pape's Diapiesin belongs in your home anyway. Should one of the family eat anything which don't agree with them, or in case of an attack of indigestion, dyspepsia, gastritis or stomach derangements at daytime or during the night, it is handy to give the quickest, surest relief known.

Twitching of the Nerves Broken-down System

Now Entirely Cured—Never Used Any Medicine With Such Benefit as Dr. Chase's Nerve Food.

Headaches, sleeplessness and nervousness are often very disagreeable, but when your nervous system gets into such a condition that the nerves twitch and jerk, and you have peculiar nervous sensations come over you there is cause for grave alarm.

Everybody dreads the thought of paralysis or locomotor ataxia. Nothing is worse to look forward to than helplessness. Sometimes it is helplessness of body, and at other times the mind is affected, which is far worse.

The writer of this letter did not know what to expect, but fortunately began the use of Dr. Chase's Nerve Food in time to head off danger, and

writes that she was entirely cured of the old trouble. The last paragraph proves that the cure was lasting.

Mrs. John McKellar, 11 Barton street east, Hamilton, Ont., writes: "I was injured some years ago, and that left me with a broken-down nervous system. I could not sleep, and suffered from twitching of the nerves and disagreeable nervous sensations."

"I then began using Dr. Chase's Nerve Food, and can say that I never used any medicine that did me so much good; in fact, I am entirely cured of my old trouble. The Nerve Food not only strengthened the nerves, but also built up my system in every way."

Under more recent date Mrs. McKellar writes confirming her cure, and states that she has had inquiries from many people who had heard of the great benefits she obtained from Dr. Chase's Nerve Food.

Dr. Chase's Nerve Food, 50c a box, 6 for \$2.50. At all dealers.

MORE THAN 90 APPLICATIONS

ST. JOHN, Jan. 19.—More than ninety applications have been received by Major C. H. McLean, O.C. Squadron "B," 6th Mounted Rifles, from men anxious to serve in that unit which, the understanding is, will be despatched to Egypt for action there. The expectation is that the regiment will be ready to sail almost as soon as the main body of the second contingent leave for England. A machine gun section is to be added to the regiment and Lieut. G.S. Grimmer, who is now in Halifax taking a course of instruction, will have command of it. It will comprise twelve men. It is possible also that a battery may be added to the regiment.

Lieut. E.J. Lonsberry of Fredericton has applied for a post with that regiment. It is considered likely that Lieutenants Evans and Morrissy will receive appointments. The 28th is depleted in numbers because of so many of the men having gone overseas with other units. The same is true regarding the 8th Hussars, in which no further appointments have been made other than those announced yesterday in the Times. Major Ings is expected this week from Charlotte-

town to confer with Lieut. Col. McDougal regarding appointments.

INDOOR DRILL.

The bad weather of the last few days has caused a cessation from the rigors of outdoor drill. Tactical exercises and route marches for the 26th Battalion, and it has also meant indoor drill for the No. 5 Co. C. A. S. C. As soon as the exercises will be continued.

TO MOBILIZE AT AMHERST.

Amherst News:—A regiment of cavalry numbering 600 men and a regiment of infantry numbering 1,100 men will be mobilized in Amherst for the third contingent. Major Benoit and Engineer Knight of the headquarters staff in Halifax were in Amherst Saturday making final arrangements. After examining the buildings available, they were inclined to favor as headquarters the passenger shed of the Canada Car Company for the men and the erecting shed of the company as quarters for the cavalry horses.
