OUTSTANDING PICTURE OF A WAR ROMANCE

One of the great romantic stories of the war, related as it is to the American bombing mission that electrified the world.

Go Long Way

Forty-five thousand dollars a year or more than \$2,000,000 in half a century may not seem large in the eyes of the wealthier provinces, but it would go a long way in Prince Edward Island with its approximately 100,000 people.

P. E. I. Delegation Interviewed At Federal Capital

(Frank E. Doyle in the Halifax Herald) OTTAWA, Aug. 5—Prince Edward Island's delegation while waiting for the Dominion-Provincial Conference to get under way, prepared its own case file. Premier Walter Jones indicated on the eve of the first meeting.

Round The Table

The discussion then went round the table with the various Premiers following one another in turn until Premier E. Manning of Alberta ended up by reading a lengthy prepared submission.

Maritime Claims

Premier J. B. McNair of New Brunswick spoke of the claims of the Maritime Provinces to a fairer distribution of national income and a more centralized government.

Atomic Bomb

(Continued from page 1) of the long-dreamed-of harnessing of atomic energy.

ATOMIC BOMB

Because the United States was well removed from enemy action development work on the project was carried out in this country and in Canada where a pilot plant is nearing completion in the Petawawa area of Ontario.

Plans of Procedure Snarled

The procedure snarled began immediately after Prime Minister Mackenzie King, seated at the head of the clerk's table in the House of Commons with the nine Premiers around the sides, declared the conference open and called for a solution of Canada's domestic problems.

May Alter Man's Course

Canadian and British scientists working in Montreal and other Canadian cities pooled their efforts with American and British scientists here to harness the unprecedented power of the force of which the atom is well known.

Still Thick Secrecy

Still thick secrecy shrouds much of the atomic bomb work. Its progress has been going on for some time. Mr. Stimson said its development culminated three years ago.

What Goes On In These Plants

He said: "Many have worked there in the plants for 2 1/2 years. Few know what they have been producing. They see great quantities of uranium going in and they see something coming out of these plants, for the physical size of the explosive charge is exceedingly small. We have spent \$2,000,000,000 on the greatest scientific gamble in history—and won."
