MT. ALBION WOMEN'S INSTITUTE—The January meeting of this branch was held at the home of Mrs. Benj. Horton. Twelve members and nine visitors were present. After singing the Club Women's Creed and singing of the ode, roll-call was responded to by "My New Year Resolution." Minutes of the last regular meeting were read and approved. The sick and school committee reported. The treasurer purchased door knobs and plate for door and reported door as satisfactorily repaired. It was moved and seconded that a treat be given the school children at the same place on "Community Betterment" and to purchase same. Bills were presented and paid. It was decided to hold a parlour social at next meeting. A letter was read from Dr. Creelman and followed with keen interest by the members as it gave the needed information with regard to sanatoria construction. The members are very grateful to Dr. Creelman for his very plain and instructive letter. A "grab bag" was an interesting feature of this meeting and added substantially to the funds and caused a great deal of merriment. Donations of corn, raisins, peas, perfume and shoe polish were donated by merchants in Charlottetown, through Mrs. Benj. Horton. The Institute wishes to thank all those who so kindly sent donations. Programme for night was a paper on "Community Betterment" and a hidden tree contest. First prize being won by Miss Lona Jenkins and the second by Mrs. Haviland Horton. Collection for night, one dollar and ten cents (\$1.10), cash on hand \$75.01. The singing of the National Anthem brought a most successful meeting to a close. Lunch was then served and a social hour enjoyed.

SEA TRAVEL

HALIFAX, Jan. 13—Trans-Atlantic passenger and freight traffic through the port of Halifax continues brisk as a result of the arrangement for regular east-bound and west-bound service made between the Canadian National Railways and the White Star and Cunard lines over the week end. Six hundred passengers were landed here by the Cunard liners as Canadian and the White Star liner Laurentia from England. These liners also brought more than 1500 tons of freight to Halifax under the same arrangement. Two freight steamers are now loading nearly 3000 tons of cargo for England. The Leyland liner, Norwegian, taking on 1800 tons for Liverpool and the Atlantic Transport liner Missouri, 1100 tons for London.

AMERICANS VISITING CANADA

"There is a great deal of optimism throughout the United States and a feeling that the present prosperity is likely to continue, and as a result people are planning holidays in Europe, Canada and elsewhere," was the statement made by A. E. Chown, General Passenger Agent for the Canadian National Railways at Chicago, Ill., upon his arrival at the headquarters of the National System in Montreal, yesterday.

Mr. Chown went on to say that people in the United States seem to find a different brand of courtesy on this side of the border, at least on their return from a trip through Canada they are enthusiastic as to the courtesy they receive on trains, in hotels and everywhere else. People who plan to go to Europe chiefly desire to travel via the St. Law. route.

The Maritime Provinces also should receive a considerable influx of tourists this season from the United States, as there is a great deal of interest displayed there in Canada's Eastern Holiday country.

Prohibition

Continued from page 1

MR. BENTLEY'S ADDRESS

Before attempting to deal with this question, may I be permitted to express to those having the spiritual charge of this congregation appreciation of their courage in introducing a subject which, of late, has practically been tabooed by the pulpit.

As one who has borne a part in the recent struggle for Prohibition and who has had opportunity for knowledge of the efforts put forth to save it, it may not be inappropriate also that I pay tribute to the magnificent support given to the cause of Prohibition by the Disciples of Christ. Excelled by none in their efforts in this cause, it may be truly said that without the assistance given to Prohibition by persons of this denomination, we would not tonight be discussing this question. "What shall we do with Prohibition?" for our Prohibition Act would now be a thing of the past.

When I was honoured by being asked to prepare a brief paper on this subject I inquired what attitude I might assume on the part of my audience towards this question. Mr. McDougal replied that I might consider that my audience were in favour of Prohibition. If other answer had been given, it would have been useless to attempt to give reasons for the support of Prohibition. Within the brief limit permitted this paper.

Notwithstanding the answer given my question, I have the best of all precedents for putting to my audience the question, "To what extent are you Prohibitionists, my good friends?"

When I did a pretence was made of loyalty to a successful party, an astute philologist applied the test, "Say Shibboleth."

By a similar test I would ask "Do you voice Prohibition with that soft-breathing aspiration of the spirit which thinks only of the welfare, happiness and health of the children of the present and of the future, or do you speak Prohibition, as it were, with that harsh and sibylline hiss of indifference to the welfare of those children leaving them to be regarded merely as so many potential customers for the liquor traffic?"

The greatest of all Teachers, speaking to His immediate followers who had vowed eternal fidelity to His teaching and principles, saw fit to challenge even them with the question "Why call ye me Lord, Lord, and do not the things which I say?"

Violation of Law Unpunished

In like manner I would put to you the question, "Why do you call yourselves Prohibitionists and yet submit without protest to a Prohibition management and administration which is not doing its best, but on the contrary, is knowingly violating the law and permitting it to be violated by others without punishment?"

Before attempting to suggest an answer to the question "What shall we do with Prohibition," may I as briefly as possible refer to the law and to present conditions?

The Prohibition Act proper has to do with the sale within the Province of intoxicating liquor for medicinal purposes only, (apart from those rare occasions when liquor may be required for sacramental, scientific or other authorized non-beverage use). The law has also to do with the prevention of the sale of liquors by the Government or by any other person for beverage purposes.

Certain Dominion laws are designed to prevent the importation into this Province of liquors for beverage use and to prevent the illegal manufacture of liquor within the Province. If these laws were enforced no liquor would be procurable within the Province except from the Prohibition Commission, and if the Commission itself sold no liquor for beverage use, bootleggers, as well as smugglers and moonshiners, would be largely, if not entirely, driven to the extent to which these Dominion laws
