The Future of Foxes An Independent Review

By W. C. Anderson (Reprinted from the Charlottetown Guardian)

This article has been reprinted in pamphlet form by special request, and supplied to the Hon. Geo. E. Foster, Minister of Trade and Commerce, to be laid before the English Trade Commission about to visit Canada.

It is a full and frank discussion of the Future of Foxes as a permanent paying industry, and shows that the Average Annual Profits of Fox Companies should, for the next ten years, be 23 per cent.

This pamphlet is indispensable to all Bona fide Fox Companies.

It is their guarantee of Good Faith.

Table with 2 columns: Price, Copies. Rows: 1,000 copies for \$5.50, 500 for 4.00, 250 for 3.50, 100 for 2.00.

THE CENTRAL GUARDIAN

IT PAYS to buy in this province. BUSHING JOB.—The longest line of bushes in P. E. I., is probably from Harncliffe to Hazzard's. They were put up by John J. McInnis, Harncliffe, and a fine job John did, all right.

COLD WEATHER.—The central part of the Island has witnessed one of the coldest weeks for a good many years. Wednesday and Thursday evening, the two coldest the glass was down as low as twenty degrees.—S.

SNOW PREDICTED.—The Train Despatcher of the P. E. I. R. received a telegram on Saturday from Mr. R. F. Stupart, of the meteorological Department, Toronto, stating that considerable snow fall, attended by high winds, was indicated in Districts 7, 8, 9, 10 and 11. Prince Edward Island District 11.

HELPFUL MEETINGS.—The prayer services conducted the past week in the Granville Methodist Church by Rev. John B. Gough are being continued by him through the present week. The meetings have been well attended and those who availed themselves of this opportunity of listening to Mr. Gough's stirring and enthusiastic words will no doubt be greatly benefited thereby.—X.

MUD DIGGING.—The extreme cold of the last week has about put a stop to the landing of mud in the south West River. Some however, have braved the attacks of Jack Frost and have been steadily landing. Last week a vast quantity of mud was removed from the river bed but on Monday the ice-cake on which the diggers were at work gave away and landing was thus stopped for that day.—X.

SERIOUS LOSS.—A very heavy loss was met with by Mr. Callaghan of Fort Augustus recently, he having lost a fine horse by injuries self inflicted. It seems that Mr. Callaghan, having had his horse recently shod with a very strong rope and as it often happens with horses, he got his foot over the rope, but unfortunately it was so strong the horse could not break it, consequently he threw himself and in struggling was cut so badly around the head and neck with the sharp shoes, that he died from the effects a couple of days afterward. The loss is a very heavy one as Mr. Callaghan refused two hundred dollars for him only a few days before.—S.

MOUNT ALLISON NOTES.—Two of the Intercollegiate League games have already been played, and Mount Allison has come through with a victory in both. On Friday night Feb 6th, the garnet and gold team played Acadia in their own rink in Wolfville. The first period ended 2-1 in favor of Mt. A. The second period 4-2 for the same team. The final score at the end of the third period being 6-2. Mt. Allison had the better of the argument all through, her men being fast skaters and clever stick handlers. Appleton 17 was easily the best man on the ice, and got the best of the argument by a score of 6-5. Mt. A. has a strong team and were the trophy winners last year. The first period ended 3-0 in favor of Mt. Allison. In this period Appleton scored a very heavy check and from his out was unable to play his usual brilliant game but pluckily continued to the finish. The second period ended 5-3 for Mt. A., and at the close of the third period 5-5. It was decided to play ten minutes over time in a pretty combination run from end to end of the rink by Capt. Dickard and Godfrey, the latter scoring the winning goal, just one minute before time was called. Mt. A. has till another game to play, when they meet U. N. B. at Sackville on Feb. 27th. A hard game is anticipated. The Mt. Allison line up was as follows: Goal—McCallum 14; Point—Pickard 14 (Capt.); C. Point—Crowe 16; Centre—Godfrey 14; Rover—Appleton 17; R. Wing—Herder 17; L. Wing—Brundage 17; Subs, Eaton, Dawson, Appleby and Beazley.

Big Work Possible

when body and brain are properly nourished. Then the human machine runs smoothly.

Grape-Nuts

FOOD made of wheat and barley, supplies the power-making body elements. Also certain mineral salts (Phosphate of Potash, etc.) often lacking in the every-day diet, but which are vitally necessary for balanced brain and nerve up-keep of active men and women.

If you expect to accomplish something worth while, prepare for it by feeding right.

"There's a Reason" for Grape-Nuts —sold by Grocers. Canadian Postum Cereal Co., Ltd.

POSTPONED.—The social and dance to be held in the Caledonia Club Rooms on Thursday the 19th instant has been postponed until Monday, the 23rd inst. All tickets issued will be good on this date. 1240

HAIR DRESSING.—Ladies' pomps for thin hair, switches and all hair goods made to order for the high fluffy dressings now so popular faded goods dyed and made like new. Shampooing and massage. Mrs. White, The Lenox. 4186

VALENTINE SKATE.—Another enjoyable carnival skate was held in the Arena Friday evening, this time a valentine one, and although the costumes were many and varied most of them represented the day which the skaters honored. There were little hearts, cupid's, comic valentines and numerous other ones that can't be remembered. The Charlottetown Band occupied the band stand and furnished good music, among the selections being a number of beautiful waltzes. The promenade did not lack the usual company of spectators that always gather when a carnival is taking place, and from the sounds of merriment that were heard they were listening to the affair as much as the skaters.

AN OLD BOOK.—Rev. S. H. Rice, of Sunny Brae, N. B., referring to the "fac-similes" of some ancient manuscripts possessed by Rev. Dr. Harrison, formerly of Charlottetown, writes the Wesleyan that he has a very old book, in good condition, entitled "An Harmony of the Confessions of the Faith of the Christian and Reformed Churches which purilepse the holy doctrine of the Gospel, and the Chief Kingdoms, Nations, and Provinces of Europe; the Catalogue and order whereof the pages following will declare." New York translated out of Latin into English. Also in the end is added the "Confession of the Church of Scotland." Allowed by public authority. Imprinted by Thomas Thomas, Printer to the University of Cambridge, 1586.

INSTITUTE MEETING.—The meeting under the auspices of the Northern Farmers' Institute at New Glasgow Hall on the 9th inst. was well attended, considering the inclement weather, there being about fifty people present from the immediate vicinity that listened with marked attention to an instructive and profitable address from Mr. B. Robertson, of the Agricultural Department, on Live Stock and Dairying; the production of which forms the basis of the farmer's prosperity not forgetting to emphasize the fact that greater judgment and skill is required in the manufacture than in the producing of our products and on which, to a very great extent, depends the success. The best system in the operation of the Dairying business is by having the milking period commence in the fall or early winter, the practice of allowing the cows to go dry in winter, or in producing milk commencing towards the end of the period in winter has not been a success. Winter dairying will also prove a great problem. Mr. Robertson considers the production of the heavy or draft horse as being much more than the light or carriage horse; size and weight are secondary to the conformation and quality. At the close of the address, complimentary remarks were made by Messrs. C. A. Stevenson, A. Moffat, Walter Bunnell, G. H. Stevenson, Rev. C. A. Hatfield. The meeting tendered Mr. Robertson a hearty vote of thanks for his eloquent and valuable address.

DEBATE.—The students of the Long Course held a debate last night on the breeding of beef cattle. Resolved: That the breeding of beef cattle is as profitable in this province as the breeding of dairy cattle. It was opened by Victor McDonald who contended that the high cost of labour was making dairying very expensive. Mr. John McDonald contended that dairying had done very much for P. E. Island in the past, in fact it had saved the province at a very critical time, and up to the present it was much more profitable than beef raising. He pointed out the great advantage of having a lot of skim milk on the farm Mr. Ben. Gallant followed in support of beef cattle. He pointed out the excellent markets that were to be had near at home and could not see how dairying could be profitably followed while labour was getting so scarce. Howard Dohie quoted from the Farmers' Advocate which showed that some herds of cattle were making an annual profit of over \$1.00 per cow while the best profit he could find from any other speakers followed on both sides Mr. Louis Pearson went into the cost of feed for a cow giving 8,000 lbs. of milk in a season. He pointed out she could be fed for \$52.00 and that the skim milk could be very profitably fed to calves and pigs, he figured out a profit of over \$50.00 for a milk cow, and maintained that it was difficult enough to make profit in the feeding of beef. Mr. Norman MacLeod stated that dairy cattle could not be as profitable as his. Cass would like to suggest or else so many factories would not be closed in the province. He said those in favor of dairy cattle raising would have to account for this. Eric Dohie pointed out that the monthly cheque coming in for milk at the factory was a very great help to the farmer who had bills to meet the year round. Mr. Cyrus Poirier occupied the chair and gave his decision that the best arguments had been produced in favor of beef raising. The subject for Tuesday evening is Resolved: That horse-raising is a more profitable industry in this province than cattle raising.

DAILY SELECTIONS FOR GUARDIAN READERS

Furnished by W.S. Lonsden

IS IT TRUE? Is it true, O Christ in heaven, That the highest suffer most? That the strongest wander furthest, And the more helplessly are lost? That the mark of rank in nature Is capacity for pain? And the anguish of the singer Makes the sweetness of the strain? 4186

IS IT TRUE, O Christ in heaven, That, which ever way we go, Walls of darkness must surround us, Things we would but cannot know? That the infinite must bound us Like a temple veil unrent, Whilst the finite ever wearies, So that none's therein content? 4186

IS IT TRUE, O Christ in heaven, That the fullness yet to come Is so glorious and so perfect That to know would strike us dumb? That if even for a moment We could peer beyond the sky With these poor dim eyes of mortals, We should just see God and die? 4186

NARROW ESCAPE.—While one of the leading butchers of Lot 29, Queen's County, was hauling a load of beef to the shipping station, he had the misfortune to overturn his sleigh in such a way that he was buried under his load and unable to extricate himself. Luckily for the butcher, he was subject to cold feet, and had taken the precaution to have a couple of his wife's hot smoothing irons with him in his sleigh. Just as he was about to give up all hope of getting from beneath the load he thought of the hot irons. He looked around and spied one just beyond his reach, but after some squirming he was able to get hold of it, with which he melted enough of the snow under and around him to enable him to free himself. When he got to his feet he righted the sleigh, reloaded the beef and went on his way rejoicing.—V.

WILL BE MOURNED IN P. E. I.—James W. Bain, one of Yarmouth's best known residents, passed away on Sunday evening says a Yarmouth exchange. Mr. Bain had been an invalid for a long time and his death was not unexpected. He conducted a livery stable on John street for many years and was favorably known to thousands of visitors from the United States and Canada. Before his illness he paid strict attention to his business with the result that he built up a very large business which, since his illness, has been managed by his son George. He was in the 69th year and leaves a widow and one son. The funeral will be held tomorrow afternoon at 2.30, Rev. Mr. Schurman officiating. The late Mr. Bain has visited North River, P. E. I. for the past thirty years and for many seasons has loaded vessels at North River bridge with produce, taking out upwards of \$5000 per year. Mr. Bain always made his home with Mr. John Moreside, North River, and his demise is keenly felt.

WHAT'S INDIGESTION? WHO CARES? LISTEN

"PAPE'S DIAPYPSIN" MAKES SOUL, GASSY STOMACHS FEELS FINE AT ONCE

Time! In five minutes all stomach distress will go. No indigestion heart-burn, sourness or belching of gas, acid, or eructations of undigested food, no dizziness, bloating, foul breath or headache.

Pape's Diapypsin is noted for its speed in regulating upset stomachs. It is the surest, quickest and most certain indigestion remedy in the whole world, and besides it is harmless.

Millions of men and women now eat their favorite foods without fear—they know Pape's Diapypsin will save them from any stomach misery.

Please for your sake, get a large fifty-cent case of Pape's Diapypsin from any drug store and put your stomach right. Don't keep on being miserable—life is too short—you are not here long, so make your stay agreeable. But what you like and digest it; enjoy it, without dread of rebellion in the stomach.
