MILLER BROS. LTD.
Great George Street

PETERS ROAD AND VICINITY

Apparently General Winter has issued his ultimatum. Fortunately he has not thrown up intrenchments and as yet is giving us a level deal.

The weather prophets of the waviest persuasion would seem to have erred in their prediction of a winter without much snow. However the end is not yet.

Mr. J. McGuigan, mail courier on the Montague-Murray Harbor North circuit has done excellent work in the interests of the mail service since assuming this arduous daily trip. Just now we would urge that everyone interested in keeping the roads in good condition for travelling. This is especially urgent in the case of highways practically without settlement, as the Commercial Road leading from Montague to the south. The Peters Road Cemetery upon which a great amount of voluntary labor has been given in laying off the plots, making of paths, fencing, and the building of the ornamental section. This latter was again attended to during November when the caretaker, Mr. Neil Vandenberg and several helpers prepared the ground, and planted a quantity of tulip bulbs on the diamond shaped beds, and on the margin of the central circular bed. The centre of this is reserved for a receptacle in which a variety of flowering plants will be placed there in the spring, and should add much to their beautifying effect. This receptacle is a gift made possible by the kindness and exertions of Mrs. George A. McDonald, Peters Road. The tulip bulbs are also a gift from Mr. George Luco of Newtonville, Mass., but who formerly resided in this vicinity, and to this gentleman, who so kindly contributed the gift, as also the one already referred to, the thanks of the shareholders and manager of the cemetery are due.

Mr. Pierce Butler and his brother Francis have returned home, after being some considerable time engaged at work in Trenton, N. S., and Dalhousie, N. B., respectively. They report help plenty and little employment to be obtained in these heretofore busy centres.

In the Evening Mail, of Halifax, N. S., a department of the paper is devoted to building etc. In the issue of Nov. 26th., your correspondent was shown the drawing and plans of a house, designed by the firm of Messrs. G. H. MacDonald and H. A. Magoon, architects of Edmonton, Alberta, and presented to the Evening Mail, by courtesy of Mr. A. E. Pries, architect, Halifax, N. S. Mr. MacDonald referred to is a native of Peters Road, a son of the late William MacDonald and Mrs. MacDonald, one of the boys who received his early education in the common school, later took correspondence course in architecture while working at Sydney, N. S., then located in Edmonton, Alta., attended college there, finally graduating from McGill University with the degree of B. S. C. A. We may add that the building referred to is 36 ft. 6 inches by 38 feet, and the cost \$11,000.

The Murray Harbor North Dairying Co., with its cheese factory at Sturgeon, has completed a most successful season. The manager, Mr. John Collings and staff deserve special mention for excellent work and strict attention to duty. The secretary Mr. Collings Sr., now winding up the season's business, attends to all the financial affairs of the factory, which is invariably done with care and promptness.

His many friends in Murray Harbor North and Peters Road are pleased to see by the Guardian, that Rev. D. V. O'Meara of Charlottetown is much improved in health, and able to take up his pastoral duties, after treatment in the Prince Edward Island Hospital.—P.

Asthma Cannot Last when the greatest of all asthma specifics is used. Dr. J. D. Kellogg's Asthma Remedy assuredly deserves this exalted title. It has to its credit thousands of cases which other preparations had failed to benefit. It brings help to even the most severe cases and brings the patient to a condition of blessed relief. Surely suffering from asthma is needless when a remedy like this is so easily secured.

Within three minutes after a radio appeal had been made for volunteers for a blood transfusion at Edinburgh, Scotland, recently, 15 people appeared at the hospital ready to make the sacrifice.

TRUANT OFFICER'S REPORT

CHILDREN'S AID SOCIETY, S'SIDE

Mr. President, Ladies & Gentlemen:— I hereby beg to submit my annual report as Truant Officer for the town and agent for the Children's Aid Society of Prince County.

In reviewing events transpiring since our last annual meeting in Dec. 1928, I may say as Truant Officer, I have had at times a fairly busy school year. At the beginning of the school year in September, 1928, there were still a great many truancy cases to be dealt with, but having at my service the machinery of the Juvenile Court, presided over by our very capable Judge, His Honor Justice Imman, coupled with our efficient attorney, Mr. Heath Strong, and the other executive officers of the Society, I found that I was able to cope with almost all cases of truancy. However, we had to deal also with cases other than truancy, such as theft, destruction of property, etc., by children under sixteen years of age. In most of these classes the offenders were successfully handled with the exception of one boy, who was committed to the reformatory in Halifax, N. S., in March last. I may add that there is at present one other boy who should be committed to the Reformatory in Halifax also as it seems impossible to correct him of his bad habits. But unfortunately for our towns and cities our Provincial Government during its last session saw fit to withdraw the grant which was usually granted to defray the expenses of boys sent to these institutions thereby throwing the burden on our towns and cities. As we have not got a reformatory in our own province it is almost a problem to deal with delinquent children and I would wish to express my opinion of the very urgent need of such an institution being founded in this Province.

Since school opened in September, with the exception of two boys who now are doing better in attendance at school, I may say that truancy is almost at the vanishing point. As agent for the Children's Aid Society I may say that a number of calls were made on our Society in the interest of destitute and neglected children. Of these I investigated four cases in various parts of the country and had these children placed in the St. Vincent De Paul Orphanage, Charlottetown, and a mother confined to the asylum owing to her being a mental defective.

I may add too that owing to the change in the school books this year a great many poor people of the labouring class found it a great hardship to procure books again this year, after having bought the necessary new books in 1928. In some families it incurred an expenditure of eleven or twelve dollars and a protest against the changing of books too frequently should be made by school boards and others interested.

PRACTICAL CHRISTMAS GIFTS
