

MINUTES OF PRESBYTERY.

At Charlottetown, and within St. James' Hall there, on Tuesday, the second day of August, one thousand nine hundred and ten years, and at ten o'clock in the forenoon, the Presbytery of Prince Edward Island met in quarterly session, and was constituted by the moderator pro tempore, John Murray, with whom were present: W. H. Spencer, E. J. Rattee, W. A. Mason, A. B. McLeod, George E. Ross, A. S. Stewart, A. Craise, A. J. McNeill, John Hawley, John Gillis, D. McKenzie, D. B. McLeod, R. P. Murray, H. W. Toombs, D. Fraser, A. D. McKenzie, J. McKenzie, W. L. Green, John Sterling, A. D. Sterling, ministers; James Moar, T. C. James, Hon. B. Rogers, elders. Revs. Dr. Grant, Dr. Coffin, A. F. Robb and F. S. Coffin being present, were invited to sit and correspond. Minutes of meetings held on May 10th, 13th, 31st, June 14th and 29th were read and sustained. John Murray was elected moderator of Presbytery for the ensuing six months.

John Murray was nominated moderator of the forthcoming year. U. McNeill, John Gillis and Geo. E. Ross reported on their attendance at the General Assembly.

The clerk read the report of the Presbyterial of the Woman's Foreign Missionary Society. The report was received, and the work of the society commended and Messrs. Ross and Spencer appointed to draft a suitable resolution in connection with this report and submit it to the Presbytery. Elders' commissions were received from the following sessions, and their names ordered to be placed on the roll of Presbytery, namely, Zion, Charlottetown; Alberton, Cavendish, Georgetown, Wood Islands, Richmond Bay East, Prince-town, Souris, Murray Harbor South, New London, Montague, Marshfield, Carleton Place, St. John's, Valleyfield.

The clerk was authorized to receive and place on roll the names of Presbytery elders duly appointed and transmitted to him in favor of D. A. Bruce, Hon. B. Rogers, Hammond Toombs, George Parker, Donald McRae, Joseph Simmons, Thomas McNutt, C. A. B. McLeod, Angus McPhee, Charles McGregor, Jas. Murray, L. H. D. Foster, James Gillis, D. McDonald, William Munroe, respectively.

On motion, the following were nominated to act on Synod's standing committees: Education, T. P. Fullerton; Sabbath Schools, R. G. Sinclair; Young People's Societies, D. Fraser; Moral and Social Reform, R. G. Strathie; Systematic Giving, Geo. Miller; Bills and Ordinances, R. P. Murray; Synod Fund, A. Craise; Widows' and Orphans' Fund, A. B. McLeod; Century Church and Manse Building Fund, John Gillis; Church Life and Work, E. J. Rattee; Tenure of Church Property, Lieut. Gov. Rogers; Evangelism, Geo. E. Ross; Committee to nominate Standing Committees, W. H. Spencer.

Geo. E. Ross, convener, D. Fraser, and E. J. Rattee were appointed a committee to consider the matter of recruiting men for the ministry, and to report to the next quarterly meeting of Presbytery.

T. C. James addressed the Presbytery on Foreign Missions; Dr. Coffin, Trinidad, spoke of his

work in that country, and stated many interesting and encouraging facts, indicating success and progress.

A. F. Robb made statements in regard to his work in Korea, and presented numerous features of interest and advancement.

Presbytery adjourned to meet at the same place at the hour of a quarter to two, of which public information was made and this session was closed with the Benediction. A. CRAISE, Pres. Clerk.

Same place and date, the Presbytery met, pursuant to adjournment at a quarter to two, and was constituted by the moderator, John Murray. Sederunt ut supra.

E. J. Rattee gave notice of motion to reconsider Presbytery's former decision in regard to the printing of the minutes.

T. C. James moved the following motion which was seconded by John Gillis, and carried:— That the ministers of the Presbytery of Prince Edward Island consult their sessions and congregations as far as possible, with a view to our assuming the support of Rev. Dr. Coffin in place of Rev. A. D. McKenzie, who, in the Providence of God, has been compelled to retire from the mission field.

It was further, on motion, agreed that the Presbytery meet in special sessions in St. James' Hall on the Tuesday of Exhibition week at 10 a. m., to deal with this matter and any other necessary business.

Presbytery then adjourned to meet on Tuesday, 16th inst., at Lot 14 at 9.30 a. m., and at Lot 16 on the same day at 2.30, of which public information was made, and this sederunt was closed with the Benediction. A. CRAISE, Pres. Clerk.

HALIFAX, Aug. 3.—The steamer Scotsburn was launched Monday at Mahone Bay, where she was built by Ernst & Son, and arrived yesterday in tow of the S. S. Strathlorne, to be engaged by W. & A. Moir. Her tonnage is 160 and she will have a carrying capacity of about 1,700 barrels, together with passenger accommodation. She was built for the Halifax and Glace Bay Steamship Company, of which J. Foster Rood is manager, and will, like the Strathlorne, fly the Rood flag. It is expected she will be in service by the end of the month.

WINNIPEG, August 4.—The Canadian Northern report is very encouraging. It gives a healthier tone to market.

CAMPBELLTON, Aug. 3.—Further evidence of an epidemic breaking out in this desolated town has developed. A new case of diphtheria has been discovered and this along with measles and general sickness is making the situation truly a desperate one.

Special to The Guardian. COBALT, August 3.—Antoine Marchildon lost his life in Lake Temiskaming while returning from New Lisheard in a canoe with two others. He lost his hat overboard and in his efforts to reach for the hat overturned the frail craft.

Special to The Guardian. HAMILTON, August 4.—Tom Longboat has come to life again. He expects to run shrub at Montreal and later to tour Europe.

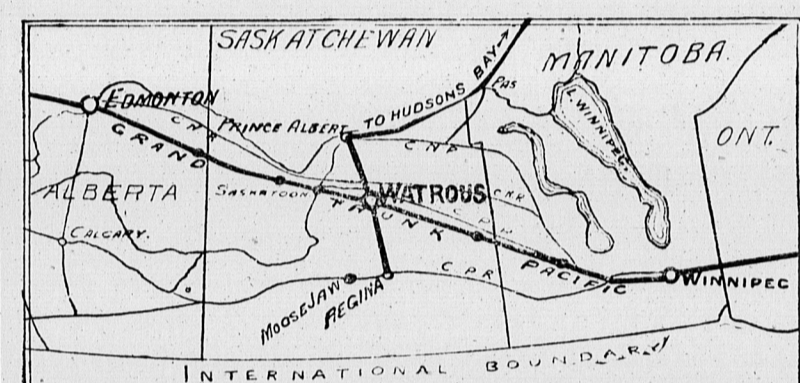

Special to The Guardian. Special to The Guardian.

The Eyes of Canada Are Turned Toward

Watrous

Favored Bountifully by Nature and by the Grand Trunk Pacific, Watrous is Destined to Become One of the Most Important Inland Cities of Western Canada

Watrous is located near the banks of Little Manitou Lake the most wonderful body of mineral water on the American Continent. A century ago the Indians took the sick and ailing tribesmen to Little Manitou to be cured. Today the white man is journeying from far and near to receive the benefits afforded by the medicinal waters from Little Manitou Lake. The Grand Trunk Pacific has selected Watrous as its Central and Principal Divisional point of the great Western Provinces, and it is from this Central Divisional point that the different Branch Lines to other important cities will radiate.

Watrous Occupies Splendid Strategic Position---407 Miles from Winnipeg 388 Miles from Edmonton

In the centre of the finest farming section in all Saskatchewan. In direct line between Regina and Prince Albert. Watrous is the terminus of the branch line of the Grand Trunk Pacific to Prince Albert, this last named city being an important lumber and agricultural point.

What Moose Jaw is to the Canadian Pacific Railway, Watrous will be to the Grand Trunk Pacific. Of the Great Western Provinces, Moose Jaw is the central divisional point on the Canadian Pacific Railway. Watrous is the central divisional point on the Grand Trunk Pacific. Moose Jaw now has 15,000 population, and is growing rapidly. Lots which sold in Moose Jaw a few years ago at \$100 each are to-day worth from \$1,000 to \$3,000, and they are advancing in price rapidly. You can buy lots to-day in Watrous at \$100 to \$175, in five years they should be worth at least as much as the same kind of lots in Moose Jaw to-day.

Watrous being the central divisional point, and midway between Winnipeg and Edmonton, where the present shops of the Grand Trunk Pacific are located, it is expected that the central shops of the road will be located at Watrous.

On account of Watrous being the central divisional point, it is from here that the different branch lines to the important cities of Saskatchewan and Alberta will radiate.

With the building of the several large Sanatoriums, it will be most logical to suppose that, attracted by the lure of Little Manitou Lake, large numbers of transcontinental tourists will stop off at Watrous on their way from coast to coast.

Little Manitou Lake--"The Carlsbad of Canada"

This most remarkable mineral water lake is located about two and a half miles from Watrous. The water is similar in practically all respects to those of "Hunyadi Janos" and "Carlsbad" with the exception that the water of Little Manitou Lake contains the same ingredients in greater proportions, its specific gravity therefore being much greater. It has been proven that the waters of this lake are little short of marvellous in their power to cure rheumatism and skin diseases, and affording speedy results in biliousness, sick headache, etc. The fact that present accommodations at Watrous are entirely inadequate. Three large sanatoriums are already projected or under way, and others will doubtless be built to take care of the thousands who will come to Little Manitou Lake to be healed.

Herbert Quick, editor of "Farm and Fireside," one of the leading agricultural papers in the United States visited Little Manitou Lake, and writes of it as follows: "Little Manitou Lake, full to the brim of water like that of Hunyadi Janos, and as still and deserted by fish and owl as the Dead Sea. The germs of legends already stir in the social soil. One may hear of Indians smite with leprosy who came across the prairie ages ago, or

by the Manitou, or Great Spirit, to bathe in these waters and be healed. It is so set in its devotion to the salvation of life that it refuses to drown anyone.

Try to sink in it and it spurns you forth and ejects you. Go to Little Manitou with suicidal intent and it will hold your head out of water while it purges you of your disease.

Large profits will be made by farsighted investors who buy property in Watrous. Property at other famous health resorts is held at very high prices, and property in Watrous will doubtless command similar high prices within the next two or three years.

At these other noted health resorts, there are only mineral water springs; at Watrous there is a mineral water lake three-quarters of a mile wide and twelve miles long, with water so clear that the sandy bottom can be seen distinctly at a depth of six feet, and the water is so buoyant that a human being floats on its surface like a fishing cork. Little Manitou Lake is ideal for boating and bathing.

Property at Watrous should command even higher prices than at the other well-known resorts, because this is the only resort of its kind on the American continent, and there is but one Little Manitou Lake, and therefore there can be but one Watrous.

Three Sanatoriums To Be Erected An Active Market for Watrous Lots

Contract has been let for the erection of Manitou Lake Sanatorium, which, when completed will cost \$50,000. Work upon the building is to begin at once, and is to be pushed as rapidly as possible.

Another large sanatorium of fifty rooms is to be built at once by a Company which has been organized, with a capital of \$60,000, the principal stockholders being a number of physicians of Saskatchewan.

The Provincial Government of Saskatchewan, recognizing the curative value of the waters of Little Manitou Lake, has reserved for sanatorium purposes a mile of frontage on the lake, and it is understood that a large sanatorium is to be built on this tract in the immediate future.

BOTTLING AND SHIPPING WATER FROM LITTLE MANITOU LAKE. Anticipating the enormous demand for mineral water of this lake as soon as its great curative powers are

made known, a Company with strong financial backing has been incorporated (Manitou Mineral Water Company, Ltd., Winnipeg, Man.), and is now bottling and shipping the mineral water to all parts of the American continent. There are also two other companies being organized to bottle and ship the wonderful water from Little Manitou Lake. These water companies will be of great advertising value to Watrous, and will make this beautiful little city known throughout the American continent.

WATROUS SURROUNDED BY RICH AGRICULTURAL TERRITORY. The territory surrounding Watrous is very fertile, being a deep loam with clay sub-soil. The major portion of the land in the vicinity is under cultivation. Wheat averages about twenty-five bushels to the acre, while other crops range from fifty to sixty bushels.

To insure securing choice lots, we advise that you order direct from the Grand Trunk Pacific. Watrous is destined to become the inland Prince Rupert of the Grand Trunk Pacific.
