KILL THE CATS

(New York Tribune.)

As a war measure the government of the United States has recently been urging all citizens who own gardens to plant every available inch to vegetables; also to urge farmers to increase their crop acreage to the fullest limit possible. The food production being one of the main problems of war—success or failure often depending upon the food supply—it is, of course, the duty of every patriotic citizen to do all possible to aid his government in this respect.

Birds are the greatest known help in all forms of agriculture. During the year 1916 insect and rodent pests caused more than \$900,000,000 damage to crops in this country. That means a loss to every man, woman and child in the United States of about fifteen dollars a year. Had we had a larger bird population this loss might have been entirely done away with. There are numerous reasons, among them being too liberal and unwise hunting laws; the foreman with a gun; the American small boy, armed with an air gun or a .22 rifle; red squirrels, rats, field mice, skunks, minks, snapping turtles, foxes, weasels, and snakes; but the worst enemy of all is the domestic cat, for cats kill more birds than all other agencies combined.

During the year 1916 it is estimated that there were 250,000,000 birds killed by cats in the United States! Can we wonder, then, that insect pests inflicted \$900,000,000 damage during the same period.

If you want to see more birds, kill the cat; if you want to decrease the cost of living, kill the cat; if you want to do your share toward increasing the food supply for the United States and our allies, kill the cat; if you desire to be a good citizen and help your government, kill the cat.

Grape-Nuts for Lunch Puts "PEP" into the afternoon's work

There's a Reason

The Central Guardian

IT PAYS to buy in this province. WHO will astound Charlottetown on June 18th? 986

LIUENANT BROWN, who has taken part in minstrel entertainments elsewhere, is assisting our local talent. See them tonight at College Hall. 990

ADVERTISERS PLEASE NOTE—On account of Monday being a half-holiday for the advertising hands during the summer months, no advertisements will be accepted at this office after 10 a. m. Monday for insertion in Tuesday's Guardian. 949, 6, 12 MEIT.

HELPING THE 105th—The ladies of Brantford Women's Patriotic Society who have been providing comforts for Islanders in the different units, have just shipped 27 pairs socks and a generous supply of toilet soap to the secretary of the 105th Comport Circle. This kindly act will be much appreciated by the boys at the front.

INVESTMENT PAID 900 PER CENT—A short time ago Mr. George C. Cudmore, Elm Avenue, advertised the sale of eggs from his Buff Orpington hens, using The Guardian only as a sales medium. The ad was a small one, costing but \$5.00 for the entire run. To date Mr. Cudmore has sold over \$50 worth of eggs from his flock and he gives full credit to The Guardian for bringing in fully \$45 worth of this business. Orders came in from many parts of the Province—and the last one did not arrive yet, either.

HOLDS RECEPTION—Mrs. Chas. D. Weeks received yesterday in her home on First Street, Medicine Hat, for the first time since coming to the city. Simplicity of appointment characterized the event. The reception rooms were prettily arranged with pink carnations and sweet peas, a beautiful cluster of the latter forming the centre of the dainty tea table. The hostess received her guests with charming cordiality and was assisted, by Mrs. H. H. Brown, Mrs. Large presided over the tea cups while Mrs. David Brown served the ices. The tea room assistants were Mrs. J. S. McLeod, Miss Trimble and Miss Passmore. Mrs. Weeks' little daughter Adela assisted by ushering in the guests. A large number of ladies availed themselves of the privilege of calling upon Mrs. Weeks, who has recently come from Prince Edward Island to make her home in the city.—Medicine Hat Exchange.

PERSONALS

Mrs. L. B. Wood, of Glace Bay, is the guest of Mrs. W. A. Miller, of East Royalty.

Miss Marion Wheat, City, has returned home from Iowa City, where she was attending school.

Mr. F. Prettie, Eastern manager of the F. W. Woolworth Companies stores left yesterday for Halifax. He will return to Charlottetown in a few weeks.

Mr. and Mrs. C. Leonard McDonald, of Indian River, were in the city yesterday returning from Tracadie, where they attended the ordination of their cousin, Rev. Dr. W. V. McDonald.

IN THE GARDEN OF EDEN
From the New York Independent

The Mesopotamian valley, up which the British expedition from the Persian Gulf has made its way, is, according to tradition, man's first—and last—paradise. But Tommy Atkins' tolling through sand under a blazing sun, fighting fleas and flies as well as Turks and Arabs, did not find the country Edenic. One night when the troops were trying to sleep one soldier was heard to say to another: "Well, Bill, if this is the Garden of Eden, I wonder what Adam and Eve did with these ere mosquitoes a-buzzin' around 'em."

WILL NEVER QUIT UNTIL STARVED

NEW YORK.—Russia will not quit unless she is starved into submission. This is the opinion of Ralph Dawson, who for two years has represented a New York firm in Petrograd and other Russian cities. He left Russia on April 24.

"American is needlessly apprehensive," said Mr. Dawson yesterday. "Reports of chaotic conditions have been grossly exaggerated. The Romanoff party is dead and no tears were shed at its passing. The freedom of Russia is assumed and all she needs to continue a successful warfare against Germany are supplies, ammunition and railway transportations to the battle lines."

"When you consider that the Russian is heretofore devoted enough to fight Germany, armed only with religious images, sticks and stones; when you recall that he has done this three years on cabbage soup, black bread and tea; you must conclude he is not a quitter."

"A socialist revolutionary movement can be formed only when there is a strong industrial proletariat. The vast majority of the lower classes are small peasant proprietors, whose lands have been divided down since the abolition of serfdom, in 1861, until now each owns little more than "a foot of earth."

"None is so conservative as the Russian peasant proprietor, and any movement as a principle will be resented and squashed by him as soon as he is able to understand it."

Relative to recent agitations in Russia, Mr. Dawson said the Russians were enjoying free speech for the first time, and anyone who had something new to say stood up and said it fearlessly. He said exaggerated reports were reaching American, and credence was being given to alleged agitations not so pronounced as some of those occurring almost daily in this city.

"It is the policy of the temporary Government," he added, "not to use measures that would smother the old regime. They think it better to let the people blow off steam, and to permit the crazy intellectuals to prate of idealism to audiences, 90 per cent of which being illiterate, do not understand them."

"All wars in the final analysis—are fought by the masses, and we must realize the hardy, patient, devoted character of the Russian peasant, who is accustomed to a rigorous policy of self-denial, to understand that he is the soldier who will walk barefoot to Palestine or die fighting on the battlefields."

"As I crossed on the Trans-Siberian railways, soldiers from Siberian regiments were standing in and upon the roofs of the coaches. None had been on turlough since they were first called, and most of them had been fighting from the outbreak of war. One had been in the army three years before war began and had not seen his family in six years, yet he and all his companions were enthusiastically declaring they were going back soon to see it out."

"Beyond doubt, when there is a re-organization of Russian railway traffic under American guidance, the food question will become insignificant."

"System is rapidly becoming evident under the new regime, and auto cracy is a thing of the past and will be for ever."

PROPERTY SALE—The double tenement belonging to the late Mrs. Ritchie Murray at 12 Elm Avenue, was sold at noon yesterday to Messrs. Reaney Gay and James Arbing. Mr. Benjamin Carter was the auctioneer.

C. G. S. PRINCE EDWARD—The car ferry steamer left Charlottetown for Pictou yesterday morning at 9 o'clock. She had about 20 passengers and the following cargo: Two cars, potatoes, two cars, lobsters, three cars war freight, 100 cases eggs, one car barreled pork, six horses, two cows and 34 young pigs.

105th DRAFT—Major McNutt of the 13th Reserve Battalion, C. E. F., England, reports that the following men of the old 105th Battalion have left on transfer to Canadian Forestry Corps, which is at present stationed in England, but which will soon be sent across to France: 712896 Sergt. McCarthy, A. G., 712014 L. Cpl. Boulter, J., 713050 Pte. Gallant, J. P., 713282 Pte. Gallant, P. T., 712777 Pte. Malone, J., 713027 Pte. McAssey, A. S., 712998 Pte. Smith, A. L.

NERVOUS CHILDREN

From early spring until July is the time that St. Vitus Dance usually develops, and nervous children should be carefully watched during that time for symptoms of the disease. Irritability is one of the first signs noted. The child frets and quarrelsome and does not sleep well. The jerky movements that characterize the disease comes a little later. The patient becomes pale, languid, and often constipated. The limbs and sometimes the whole body jerks spasmodically, and in severe cases the power of speech is affected. Such a child should not be allowed to study, but should be kept quiet, given a nutritious diet, remain out of doors as much as possible, and above all things given a course of Dr. Williams' Pink Pills to build up the blood and strengthen the nerves. Without this treatment, St. Vitus Dance may become chronic, and the patient a life-long sufferer.

Mrs. W. A. Squires, Gammington, Ont., says: "A few years ago my only daughter, who was troubled with St. Vitus Dance, she was so bad she would lose control of her limbs, and her face would become contorted. We had to take her from school and had her under a doctor's care, but it did not help her. After the trouble had gone on for some time we finally decided to give her Dr. Williams' Pink Pills, and by the time she had taken five boxes she was completely cured, and has had no sign of the trouble since."

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

LAUDER'S WILL POWER

Harry Lauder's re-appearance at the Shaftesbury in London in "Three Cheers" was a triumph of will power.

Not by a flicker of an eyelash did he betray the storm of grief that has shaken him since he learned that his only son had fallen in battle. He sang his songs and carried through his business magnificently and only those behind the scenes knew how much he is troubled.

TO BRIGHTEN CARPETS AND RUGS.

There is nothing that mars the appearance of a living room more than a soiled, faded rug or carpet on the floor, and yet the housewife does not always feel able financially to replace the old rug or carpet with a new one.

I find a solution made of soap, water and salts of tarta, which may be secured at any drug store, makes an excellent cleaning agent for soiled carpets or rugs. Shave one-half pound of soap in a quart of water and boil until dissolved. Then add to this mixture one gallon of hot water and one ounce of salts of tarta, and mix thoroughly. Apply the mixture to the carpet or rug with a stiff brush, scrubbing briskly one breadth at a time. When the carpet is scrubbed sufficiently with the solution, wipe it with a cloth wrung out of cold water. If there is much green in the carpet, and it will preserve the color. This quantity will clean a large carpet.

Rugs and carpets may be freshened by wiping them with a cloth wrung out of warm water, ammonia and kerosene. Use one tablespoonful of ammonia and one table-spoon of kerosene to one gallon of warm water. Also the colors in rugs and carpets may be brightened by using a solution of alum water. Apply the solution to the carpet or rug with a cloth, and wipe thoroughly. If the colors are faded they may be improved by touching up all faded designs with commercial dye, or a mixture of oil paint and gasoline. Use a small brush when applying the color.

Senator—Don't you think that the country should spring to arms?
Citizen—Not until it arms to spring.

QUOTABLE TO SHOW DATE WHEN WAR WILL END.

OTTAWA JOURNAL—The war will end January 27, 1918. This date is set in the Bible according to a certain Presbyterian minister near Ottawa, who believed that St. John predicted present day history in Revelations, and determined to find the meaning of the mysterious numberings and prophecies found in the 13th Chapter of that book of the Bible which has remained more or less of a conundrum through all the centuries of theological study.

The divine makes his point from the 18th verse which reads: "Here is wisdom. Let him that hath understanding count the number of the beast, for it is the number of a man and his number is six hundred three score and six."

The minister according to an alphabetic code numbering the letters from one to twenty six, shows that Kaiser spelled with their corresponding figures instead of letters is 11-19-19 5-18. Adding six to each of these numbers you have 11-16-96-195-56-186 which added together makes 606 the number given in the quotation as the number of the man.

Basis of Prophecy.

In the fifth verse of the same chapter he points out that you read:—"And there was given unto him a mouth speaking great things and blasphemies; and power was given unto him to continue forty and two months."

So the finisher figures as the war opened July 27, 1914, in adding forty-two months it brings you to Jan. 27, 1918. He sees further substantiation for his approximate date in Rev. 12:6 where it is said: "And the woman fled into the wilderness where she hath a place prepared of God that they should feed her there a thousand, two hundred and three score days."

Figuring It Out.

Dividing 1260, or the number of days given, by 365 days, one finds that in years her period in the wilderness is three years and 165 days, or approximately three years and one half.

In further support of this date he quotes the 14th verse of chapter 12: "And to the woman were given two wings of a great eagle, that she might fly into the wilderness, into her place, where she is nourished for a time, and times, and half a time from the face of the serpent."

Of the same one, Daniel in his book, chapter 7:25, says:—"And he shall speak great words against the most High, and shall wear out the saints of the most High, and think to change times and laws; and they shall be given into his hands until a time and times and the dividing of time."

The Psychological Moment

"Now's the time to spring that new gown on pa."
"Why? Is he in a good mood?"
"The best. I just heard him bragging that he payed the best golf of his life yesterday afternoon."

DO YOU SUFFER FROM BACKACHE?

When your kidneys are weak and torpid they do not properly perform their functions; your back aches and you do not feel like doing much of anything. You are likely to be despondent and to borrow trouble, just as if you had a headache or a cold. Don't be victim any longer. The old reliable medicine, Hood's Sarsaparilla, gives strength and tone to the kidneys and builds up the whole system. Get it today.

For a Strong Personal Selling Message--Use Multigraph Letters

Inject some "ginger" into your advertising—strike straight from the shoulder. Have every envelope leaving your office or store bear a message—and have that message printed the MULTIGRAPH WAY.

A Multigraph Letter has a man-to-man appeal—there is a warmth—a magnetism—a personal, convincing ring to it that cannot be had in any other form of advertising.

There is no waste ammunition when you use Multigraph Letters because every letter goes straight to the mark—and you know a letter addressed personally to your prospect will be read when everything else fails.

Multigraph Letters is the cheapest form of advertising when you consider results—and results count.

If you are a tradesman or professional man wishing to get the ear of prospective customers there is no more effective means than Multigraph Letters.

Multigraph Letters will be found the most effective for

- Sales Letters
- Circulars
- Letters to Customers
- Directors Reports
- Lodge Reports
- Envelope Stuffers
- Printed Forms
- Collection Letters
- Meeting Notices
- Personal Appeals

Every letter is a perfect facsimile of typewriter—printed from moveable type—through a ribbon—your choice of a half dozen different colors.

Any quantity from 100 to 100,000 printed with the last letter as legible as the first—at a very nominal cost.

Send a trial order or see samples without delay.
