**BIBLE SOCIETY MEETING.**—Mr. A. M. Donovan K. C., of Toronto, President of the Canadian Bible Society will arrive on the Island the evening of the 11th Oct, and will address a joint meeting of all the churches on Thursday the 11th in the Methodist Church, Summerside at 7:30 o'clock p. m. It is hoped that representatives of the different Branches of this great society throughout the country will make it a point to be present and hear Mr. Donovan, as well as the people of the town.

**LIGHT STATIONS DAMAGED.**—The extent of the damage caused by the recent storm to the light stations throughout the Province is very considerable, reports Mr. W. H. Prowse, superintendent of lights, who returned yesterday from inspecting the Murray Harbor and Georgetown district. 150 feet of the protecting breastwork of the Murray Harbor front light has been washed away. 50 feet have been destroyed at St. Andrew's Point and Georgetown front light protection. Reports elsewhere show similar damage. The inner ranges at St. Peter's Harbor and Tracadie are gone. At Rustico the inner ranges have been demolished and the outer ranges moved out of position. Inner ranges at New London have met a similar fate. Many fishermen on the coast have lost their whole summer catches. Mr. Prowse leaves today, accompanied by Engineer Dawson, to continue the inspection at Rustico and New London.

**DR. BELL'S OFFICE, Crapaud,** is closed until October Twentieth. 945-10-9-31

**CHURCH OF SCOTLAND.**—Rev. Ewen MacDougall will preach Sabbath 14, at Bangor at 10:30; Kingsroad at 2:30; and Birch Hill at 6:30 p. m.

**PURE BRED HOLSTEIN CATTLE SALE.**—On account of unfavorable weather, the big auction sale of cattle at the farm of Milligan and Morrison, Northam, Lot 13, was postponed until next Wednesday, October 17th.

**RUM SEIZURE.**—Raiding the premises of a livery stable proprietor in Summerside on Tuesday, police officer Dan McNeill and the prohibition officers found and seized the following quantities of rum: one five gallon case and three stone jars in the cellar; two cans and five other containers in a suitcase in a bedroom; two other cans upstairs over the kitchen; a quantity in the office. In the garage sixteen empty ten gallon rum casks were found.

**SMALLER CATTLE SHIPMENT** The Canadian Sapper carried this week to Newfoundland 114 head of cattle, 45 sheep, 2 horses, 70 boxes of butter, 165 boxes of cheese, a number of pigs and sundry produce. The cattle shipment is considerably less than previous recent shipments. On the last trip 180 were carried but the sales were unsatisfactory owing to carload shipments which were unloaded on the market, at that time, from Africkish. The delicate balance of supply and demand is hard to maintain and shippers must of necessity take more or less of a gambling chance on the prevailing market condition. The Canadian Sapper will be here again on the 24th and after completing another round trip via Montreal, will be available after Nov. 8th for direct trips to and from St. John's. Service there may be secured weekly if desired.

### PERSONAL

Mr. and Mrs. Cecil B. Jones left yesterday morning for their home in Calgary after spending the summer on the Island.

The many friends of the Hon. Dr. McMillan will regret to learn he is confined to bed with a bad cold. He is making satisfactory progress and expects to be out in a few days.

**Will Take Off All Excess Fat**

## WALK TO HULL FROM SWANSEA

(By Dominion News Service)

**HULL, Oct. 8.**—Mrs. Mary Foster and her four children, whose ages range from nine to 15, will start to walk from Hull to Swansea a distance of 251 miles.

The family's resources had become exhausted, because the husband had been out of work for nearly three years, but recently he obtained a job as watchman at Swansea.

He had no money to pay his fare, and had to walk there. He was on the road a fortnight, and during the journey wrote to his wife regularly telling her the route he was taking.

Mrs. Foster, without informing her husband, has decided to go to Swansea with the children, so that they can all live together again.

"Travelling by rail is out of the question," she told an interviewer, as the fares would cost \$5.

"We shall take what food we can, and at night sleep on the ground under a sheet, one side of which I shall fasten to a gate. We hope to do at least ten miles a day."

"It is not the first big journey we have done. I have walked to Middlesbrough with my husband, nearly 200 miles."

Mrs. Foster's eldest son was killed in the war.

### SAYS NAPPING MINDS MAKE US SUBNORMAL

**NEW YORK, Oct. 9.**—Detailed photographic studies of the motions of human beings, made possible through the invention of an apparatus called the scale cage, have led to the conclusion that absent minded persons temporarily indulge in motions similar to the motion behavior of imbeciles, according to the Engineering Foundation of this city. The foundation says that great waste results, in some manual occupations, from ill-directed motion.

Many persons occasionally are absent minded and, while their wits are wool gathering, the motions of their bodies, as recorded by photography, are strikingly similar to those of the weak-minded and subnormal.

Bricklayers of ordinary training have used the same methods probably for 7,000 years. The berry picker, the most ancient of craftsmen, has followed simple and natural methods for thousands of years. Studies of these workers give no indication that the best way to do work is a matter of instinct, or is developed through successive generations by natural processes.

By finding out the best way, as demonstrated by the most expert worker, the bricklayer can be trained to do more than three times as much work with the same effort. The amateur berry picker, most highly educated in everything except berry picking and motion study, may be so trained as to increase his output fifteen fold.

### FILMS TO ILLUSTRATE GERMAN WAR VERSION

**MUNICH, Oct. 9.**—A "German week" arranged by the Bavarian Department of Education, is to be held here soon, chiefly to exhibit propaganda films, designed to prove that Germany was not responsible for the outbreak of the world war. The Isar League of Youth is co-operating with the government in the move. Films on the following subjects are to be shown free:

"The lie that Germany was responsible for bringing about the war and the curse of Versailles."

"Undefeated in the field—memorial to the heroes of our old army."

"The theft of the German colonies in the tropics."

"Bravely waved the red, white and black flag—the heroic fight of the German fleet and its destruction."

"French invasion of the Rhine, Ruhr and the Saar."

"The maturation of the eastern boundaries of Germany."

The exhibition has been arranged principally for entertainment of young people, and students and others will be urged to attend, not only from Munich but all surrounding cities, and towns and the countryside.

### CHINESE DISCARDING NATIVE FOOTWEAR FOR LEATHER SHOES

**PERKING, Oct. 10.**—Chinese are gradually taking to the use of leather shoes, according to J. C. Huston, American consul. Chinese who have not adopted the foreign style of footwear are beginning to use chrome leather soles with their native cloth uppers.

Native shoes with chrome soles sell for \$1.50, while locally made foreign style shoes sell for \$5 a pair. The leather soles can outlast three cloth tops, it is stated.

### Put one on—the pain is gone!

**Dr. Scholl's Zino-pads protect while they heal—wholly new method. Absolutely safe!**

Corns are due to only one cause—friction and pressure from shoes. Heretofore, corn-sufferers have ignored this.

They have resorted to paring—a frequent source of infection—or they have used corrosive acids frequently with damaging results to the surrounding live tissue.

### A famous foot specialist's new discovery

Now Dr. Wm. M. Scholl, the eminent foot specialist, has found in Zino-pads a vastly better way, a scientific way, to end corn troubles—by removing the cause.

Dr. Scholl's Zino-pads not only stop the pain the minute applied but they protect the corn from pressure and friction while they heal! They are easy to apply, are thin, antiseptic, waterproof. Absolutely safe; will not injure the tenderest toe.

Special sizes for callouses and bunions, too. Try Dr. Scholl's Zino-pads. Nothing like them. At your druggist's or shoe dealer's. Costs but a trifle.

### WOMEN WOULD RESTORE LIBRARY OF LOUVAIN

**NEW YORK, Oct. 10.**—Every woman's club in the United States is being urged to contribute to the restoration of the Library of Louvain, the Belgian national library, which imports its books from Shantung. The chemical used for tanning are practically all imported from the United States.

The sum required to restore the library is \$1,000,000, of which approximately one-half has been given or pledged. The purpose of Mrs. Pennybacker's committee is to see that the gifts from American women are coordinated into definite memorials.

## The Monthly Cheque — That Never Fails

### How the Money was Lost

"You see I had only a few thousand dollars left after the estate was settled—"

and my brother borrowed some to help him along; of course that went and then—"

I simply had to help father with his business, he was so worried—"

and I thought it best to make an investment at once. Well that failed—"

and, really, if it were not for the monthly income cheque from the Canada Life I don't know how I should be getting along now."

It is all so simple and effective!

Just a few dollars set aside regularly, and the Canada Life will guarantee to your home a continuous monthly income.

What a relief to know that no matter what may happen, the monthly cheque that never fails, issued regularly by the Canada Life, will come to your home!

"Your present Life Insurance will perhaps "clear the mortgage," pay off the obligations of your estate, and leave something for your family, but

### Consider This :

Financial problems should not be thrust upon a woman who is not used to business deals. Therefore in addition to a "lump sum" of money, you should provide a definite income that cannot fail—

Because a weekly or monthly income is the natural thing for most people—

And a woman can keep a family together on even a small income, provided it is regular.

Moreover, the hands of unscrupulous men are always outstretched for money held by the unwary.

### The Monthly Income Plan

Will solve the problem.

Only a few dollars saved and set aside from your regular earnings can be multiplied into a substantial income for your Beneficiary. You will be surprised to learn what a reasonable proposition can be made to you

### There's time in the package

Time to do the many things ordinarily put off on wash-day. For Rinso does not keep you standing over the wash-tub, rubbing until your back aches and your hands are red and sore.

Rinso, an entirely different kind of soap, soaks clothes clean. Rubbing and boiling are unnecessary. The big soapy Rinso suds gently loosen the most ground-in dirt without weakening a single thread.

### AMERICAN TECHNICAL EXPERT WILL INSTRUCT HAITIAN FARMERS

**PORT-AU-PRINCE, Haiti, Oct. 9.**—Dr. George F. Freeman, recently of the staff of the Texas Agricultural College and Experiment Station, has begun the formation of a technical bureau here, under the Department of Agriculture, to further the economic development of the island. Dr. Freeman's mission is not only the vocational instruction, but also the professional education of the Haitian people along agricultural development lines. Both the Haitian people and the foreign colonies regard the addition of this agricultural expert to the corps of American experts in the islands as a significant contribution to Haiti's growing commercial activities. All is but lip wisdom that wants experience. 'Tis pride in fashion that puts humanity out of countenance.
