MESSES. JAMES PATON & Co. held their grand fall millinery opening on Wednesday afternoon which was continued during yesterday afternoon and evening. This firm is to be congratulated on the elegant display presented. All the dainty creations of Panne velvets, lace, gauze, chiffon and feathers are attractively displayed together with a large number of artistic hats—models of the leading art centers. In millinery trimmings is found all kinds of braids, wings, quills, pompons, plumes and in many cases whole birds are worn. Something new and very "chic" is the astrakhan trimming of various shades. Ornaments are to be seen everywhere. Buckles of jet, steel, silver rhinestone, gun metal and other effects are very much in evidence and there is scarcely a hat that has not an ornament of some kind. Fur is also to be seen in various forms and makes the hat very rich and stylish looking. The bonnets this year are much larger and brighter in color. Red velvet formed the model of a very gay bonnet, have for trimming, black sequin with black crepe and buckles. Out of an extensive number of elegant durable and cheap hats we will endeavour to describe one or two. A picture hat with plaque crown with real lace underbrim created quite a sensation. Amazon plume on the side was caught with a pretty steel buckle on the side making a very stylish hat. An entirely new effect is a Turquoise tuck silk tam with lacing of black velvet. The lacings are caught with steel buckles and set off by a large black velvet bow off the face. A number of pretty silk waists with real lace colors attracted the throngs who visited the store during the days of the opening. Many pretty effects are shown in children's head wear and even the smallest tot can have a dainty piece of head dress. Mention should be made of a line of felt hats which Mr. Paton bought direct from the factory which they are offering at a reduced price and which are both pretty in shape and also in assortment of colors. Many exclamations were made about the pretty designs at such moderate prices asked for the millinery which was bought by Mr. Paton during his stay in the leading Millinery City, Paris.

EVERY WOMAN NEEDS IT. There are times when every woman is tormented by itching skin and would give anything for relief. There is a preparation known as Dr. Chase's Ointment, which is a prompt relief for these sufferings. Women prize it both for their own use and for the wonderful effectiveness in curing Baby Eczema, scald head, chafing, and the various skin diseases of childhood.

HALIFAX SHOULD BEAT IT.

TORONTO, October 8.—Troops are arriving hourly now for the great military review to be held on the occasion of the Duke's visit. Among the arrivals to-day was Major-General O'Grady-Haly. He said: "We want it to be the greatest military event that has ever taken place in Canada, and it will be disappointing should it be otherwise."
