Scientists Interests Center on Lake Winnipeg Rock

(Canadian Press)

WINNIPEG, Nov 15—Centre of a storm of scientific opinion a durable age-old weather-beaten rock, standing high on the shore-line of Lake Winnipeg today he'd the attention of archaologists of a continent.

On its face were concentric circles filled with strange characters that roughly resemb'ed pr'mitive hei oglyph'cs. And it is on these markings that op'nion has divided.

A certain group hold to the belief the markings def'nit ly prove viking explorat'n of Canada as early as 1362. Others contend that nature has played sc'nce a scurvey trick.

The stone, a huge boulder measuring five feet in length, three feet in width and standing three feet high, was found on the farm of Steve Sygnatovitch, in the Husavick district 45 mi'es northwest of Winnipeg.

He communicated his discovery to Arthur H. Allardyce, a student of archaeology, who imm diately communicated with authorities on indian and runic writings. As soon as weather conditions permit these authorities will visit the rock. And until then a scientific world must wait.

A section of scientific thought which holds to the belief the markings may be acient runic, the written language of the Vikings, believe they record Norse exploration across Canada to Hudson Bay in 1362, more than 100 years before Columbus discovered America.

As yet no one has officially deciphered the markings on the stone, Dr. R. Johnson, considered one of America's leading authorities on runic writing, told the Canadian Press today. He had been shown a pencilled copy of the markings on the boulder, he said but would not express an opinion until he actually saw the stone.

HYPNOTISM IS USED TO REDUCE WEIGHT AND STOP SMOKING

OXFORD, O., Nov 15—And now science is using hypnotism—in the laboratory at least—to aid in regulating the diet so that a girl may have a figure slim enough to be fashionable.

Professor E. E. Patten and S. A. Switzer, Miami Univers'ty psychologists, experimenting on reaching the unguarded ec sses of the human mind during hypnosis, are helping their laboratory subjects not only to remove excess weight, but also to overcome self-consciousness and to cut down on their smoking.

Their six years of laboratory work, based partly on that of Dr. Hull at Yale, has dealt chiefly with "post-hypnotic suggestion," in which a subject carries out actions upon waking which were suggested during the hypnotic state.

For example, a girl subject wanted to lose some weight; during a hypnotic trance it was suggested that she stop eating starchy foods. Later, some fattening foods became extremely distasteful to her and she regained her slim figure.

An amateur actor who was suffering from stage fright, after receiving suggestions under hypnosis finds his acting is better. A boy who had trouble getting up early now rises at 7 a. m. and several persons who wanted to smoke less have been helped.

Mrs. Jackson—Yo' lazy nigger! S'pose I was took sick an' couldn't do washings, how would you live?

Mr. Jackson—Ah never thought ob dat, honey. Ah'll hustle 'round tomorrow and get some health insurance on you!

BURDOCK BLOOD BITTERS

Those Nasty Little Pimples

Thousands suffer untold miseria from the knowledge that these blemishes make them disgusting to those with whom they come in contact. They worry, day after day, wondering how they can get their skin cleared up. The way is to use Burdock Blood Bitters; a remedy that drives out the impurities from the blood, and when this is done the complexion is left without the sign of a pimple.

Monthly Meeting Children's Aid Society

There was a small attendance at the annual meeting of the Children's Aid Society of Prince County held in the Red Cross Rooms in the Town Hall, Summerside, on Tuesday, Dr. McPhee presiding.

After the reading of the minutes of the last annual meeting, Mr. V. J. Harrington submitted his yearly report.

Mr. Harrington's Report

To the President and Board of Management of the Children's Aid Society of Prince County:

As we are closing another year of the Society's activities in the interests of neglected and dependant children I may say the year has been a busy one, as there are many matters that naturally come within child-welfare work which the Society looks after both in the town and country.

My records show that clothing and footwear was supplied to forty children in Summerside and seven cases in the country were provided for. I made five investigations of cases reported from country districts occasioned by reports received by the Society from outside sources.

I made 67 calls on homes where it was reported the children were absent from school. In most cases the children were out of class owing to lack of clothing and footwear, some through illness, and some from want of books, whose parents were too poor to purchase them I reported the last named cases to the Board of Trustees and they supplied the necessary books.

I have had a fairly busy time with three families whose children persisted in not attending school. I paid 38 visits to Summerside High School during the year.

In the Juvenile Court we had six cases involving some 25 boys accused of pilfering, destroying property and one for vagrancy. Two boys were sentenced, placed in St. Patrick's Home, Halifax; and one young girl was placed in the Home of the Good Shepherd at St. John, N. B. Several children were placed in the Provincial Orphanages and one boy in a country home.

The Sewing Circle of the C.W.L. was of very great assistance in providing clothing for needy children.

I may add from my personal observation regarding distress, that it is more in evidence at the beginning of the present winter than in any previous year, and more aid will be required to relieve the situation.

Signed, V. J. HARRINGTON,
Truant Officer and agent for the Children's Aid Society.

President's Report

The president, Dr. J. A. McPhee, in his annual report stated that the Society during the past year had carried on its work as usual, quietly and effectively and that there was nothing unusual to report.

He stated that more interest should be taken by the citizens in general in the work of the Society which is carrying on a very necessary work and is chiefly concerned with the care and protection of neglected, dependent and delinquent children.

Dr. McPhee went on to say that the delinquent child is quite a problem in Summerside and that parental neglect is often responsible for this condition. Outbreaks of petty thieving occur from time to time in which several children are involved. Generally there is a ringleader who leads the smaller boys astray. These delinquents are dealt with in a very able manner by Judge Inman of the Juvenile Court and due to his admonition many of these boys are made to see the error of their ways and reform. Some few do not and are sent to the reformatory. It has been found in a few cases that boys who were delinquent in the town did well on being sent to the country to a foster home; perhaps better than if they had been sent to an institution. Due to the efficient work of our former Police Chief, Mr. John F. Kane, boys guily of petty thieving and other delinquents were always brought to court in short order.

The Provincial Government cooperates with the Society to the fullest extent and pays for children sent to the reformatory.

Dr. McPhee said a reformatory is needed in this Province and expressed the hope that such an institution would be established when economic conditions permitted. He stated that an organizational Child Welfare Department under the control of the Provincial Government is necessary to supervise and co-ordinate the various branches of child welfare work.

The president extended the thanks of the Society to the Press for its interest in the doings of the Society, to Judge Inman, the Juvenile Court Judge; to the Honorary Solicitor, Mr. Heath Strong, K.C., and the other officers of the Society, especially the efficient Secretary Treasurer, Miss Eleanor Green.

He also complimented Mr. V. J. Harrington, the agent of the Society and truant officer, in the efficient manner in which he performed his duties.

The treasurer's report was very satisfactory.

Regret was expressed at the departure of Mrs. Parnell McMahon from the Province as she had been a great help to the Society.

Mrs. L. R. Allen moved a vote of thanks to the president, Dr. McPhee, Mr. Heath Strong, K.C., and Miss Green for their untiring efforts in the interest of the children. This was seconded by Miss Wedge and heartily endorsed by Miss Mill, Rev. G. J. McLellan, D.D., and Rev. Bennett McDonald, S.

Amherst Hen Maritime Champion

(Canadian Press)

AMHERST, N. S., Nov 15—A barred rock hen on the farm of Mr. E. N. Smith, prominent poultry breeder, was hailed tonight as champion of the Maritime Provinces with a record of 327 eggs in 365 days.

The hen was not entered in contests conducted by the Dominion Experimental Farm at Nappan, near here, but Mr. W. W. Baird the superintendent, said the record undoubtedly would be accepted because its source was most reliable.

Previous Maritime records were locked up at the Experimental Farm and officials could not recall them.

The Maritime record, however, is far behind the world mark of 357 eggs in 365 days, established in 1930 by a British Columbia White Leghorn and equalled this fall by "Dereen 10-L", another British Columbia hen.
