POTATOES BEGINNING TO MOVE

Indications Of A Return To Normal Conditions — Several Cargoes Booked For Shipment Through Halifax.

HALIFAX, N. S., March 17.—Indications of a return to normal conditions in the potato market are seen by the Halifax Harbor Commission in the report that several cargoes of potatoes have been booked for shipment through Halifax within the next 30 days. It is expected the first steamer will begin loading in 10 days or so.

Mr. J. W. Boulter, Secretary of the local Potato Growers Association interviewed by a Guardian reporter last night, stated that the frost and cold weather in the South has to a slight extent affected the potato market here, as some replanting will be necessary. The Association is at present gathering a shipment to be sent next week; and some further shipping, mainly of seed potatoes may take place in the next few weeks. It is doubtful if the market will advance sufficiently to let us in on tablestock shipments.

Sealers Caught In Ice Floe

(Canadian Press)
ST. JOHN'S, Nfld., March 17.—Four Newfoundland sealing steamers sheltered under the lee of ice today as storm threatened, while their two sister vessels lay helpless with broken propeller shafts between Gogo and Funks Islands. Word today from the Ranger and the Neptune, veterans of the fleet which lost their propellers early this week, was that all was well. Tonight the steamer Kyle, out of St. John's to assist the Ranger, wireless that she was stuck in heavy ice 40 miles short of her objective. The Sagons, bound for the Neptune was apparently still forging ahead. About 30 miles of water and ice floes separated the two disabled sealers. Meanwhile, fifty or sixty miles to the northward, the rest of the fleet had run alongside natural ice-piers to prevent going adrift, but their crews were evidently making use of their time. Pilot Arthur Sullivan, who flew over them today reported the Beothic, Imogene, Eagle and Terra Nova taking seal.

Headquarters Of Hitler Raided

Prussian Officials Determined To Smash What They Declare Is A Plot To Plunge Germany Into Civil War.

(By Louis F. Lochner, Associated Press Staff Correspondent)
BERLIN, Mar. 17.—Headquarters of Adolf Hitler's National Socialist Party throughout Prussia were raided today by police acting on orders to smash, what Prussian officials declared, was a plot to plunge Germany into civil war and seize power by force of arms. In addition to visiting the offices of the party the police searched the homes of many Nazi citizens. They confiscated numerous files of correspondence and membership lists. Prussian officials declared they had established that 500,000 Hitler "storm troops," including automobile and motorcycle detachments, had been made ready for mobilization at various points throughout the state. A code message—"grandmother dead"—was to be broadcast throughout Prussia, these officials said, and it was to be the signal for each unit to march upon the nearest large city.

IN THE NOVA SCOTIA HOUSE NAMES HER DELEGATES

HALIFAX, N. S., March 17. (By the Canadian Press)—Third reading of the bill authorizing the province to enter into an agreement with the Federal Government for policing of Nova Scotia by the R. C. M. P., and a defense of the Public Health Department's administration in connection with hospital costs, by Hon. Dr. G. H. Murphy, centred attention in the legislature today. The mounted police would take over the duties of the Nova Scotia force, absorbing that body, on April 1, said Hon. John Doull, attorney general, when the bill was in committee. Tomorrow the budget debate will get under way with Hon. A. S. MacMillan, Liberal house leader, opening for the opposition. Tabling reports of his department Hon. Dr. Murphy took occasion to reply to criticisms of Gordon Romney, (Liberal, Lunenburg) who had held that the municipalities were being called on to pay too great an amount toward upkeep of patients in certain institutions. "We are dealing with human lives," the Minister said. "There is nothing too good for them. If expenditures can be reduced, well and good, but not only the claims of economies will be considered in administration."
