

# WILLIE WESTINGHOUSE GIVES HIS PAPA A WHIRL ON THE ICE

Dear Tommy—This is a machine I built to have some fun with on our pond. It would push you about a mile with one winding.

Papa came along, and of course wanted to try it.

So I started him off.

But Papa promptly got rattled, and forgot the controller—

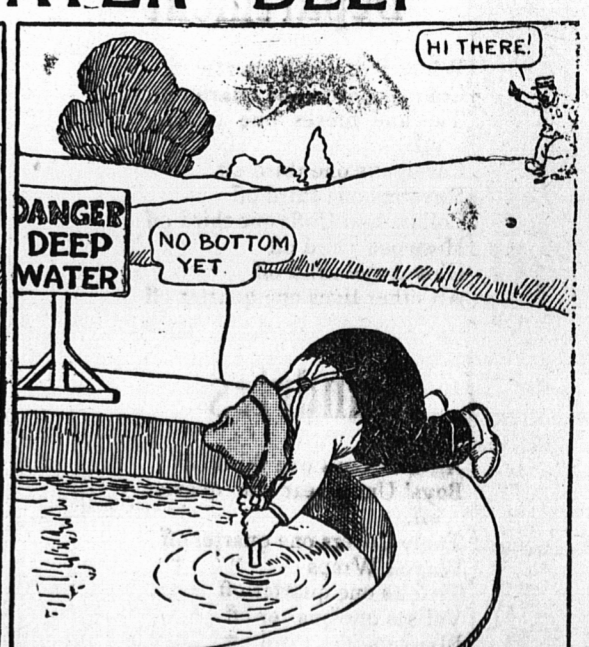

And the propeller did all kinds of stunts with him.

As usual, he blamed me for it all.

Yours, Willie.
