—TREES SPOILED.—A deplorable incident took place in Centreville on Tuesday night when some unknown person sneaked out while the rest of the village were asleep, pulled out and broke a large number of the trees that were planted on Arbor Day. The trees were doing fine and added greatly to the beauty of the place. What must have been the disappointment of the people, when on going out Wednesday morning they found that their work was in vain—the trees were lying by the roadside dead! Such an act is deserving of punishment. Let us hope that the guilty party or parties may be discovered and severely dealt with.

—SCHOOL MEETING.—The attendance at the Abram's Village School meeting was large and of unusual great interest, was evinced in connection with the school. The teachers' supplement for next year is the same, and liberal provisions were made for repair and purchase of equipments. Mr. Joseph N. Gallant resigned as trustee and Mr. Joseph F. Arsenault was elected. The same teachers will remain for next year. As some difficulty had been experienced in the past in getting good dry seasoned wood for fuel, this year will be avoided, as a large quantity already cut, has been bought, which will keep a year's supply ahead.—M.

—SCHOOLS CLOSE.—The closing exercises of the Summerside Schools was held in the Agricultural Hall on Thursday evening and was largely attended. —MALPEQUE.—The talk of the day in Malpeque is the coming match race, between "Tenderfoot" and "Nell." The betting is three to one in favour of Nell. —BAD ROADS.—One cannot help but admire the beauty of the surrounding country as they drive through Bedoué, enter the thriving village of Centreville and notice the interest taken by the young men in helping nature by planting trees. It is to be hoped that the Road Master will follow the good example set by those enterprising young men and repair the roads which are in a sorry state.—H.

Hilbert Poirier left last Wednesday for Pinette to resume work in connection with bridge building.—The continuing wet weather is a great drawback to farmers in this section, a portion of their land being unfit for cultivation, and also a part of their sowing being destroyed by water. Arsenault, Urbainville, who is attending St. Joseph's College, Memramcook, is now home on a vacation. Mr. John F. The attendance of ratepayers was large, and there were also several teachers present, who carried on the examination. Among those present was Mr. Frank Doiron, teacher, of Piusville. The pupils were examined by Miss Marguerette LeClerc, Exelne Arsenault, Leah Lejeune, and Celina Gallant. The ready answers given to their questions was evident proof of the careful training under which they were placed.—History, geography and spelling especially were exceptionally good. Remarks on the good work done by the teacher were made by Rev. Father Baudreault, and several of the ratepayers. The Rev. Father made some very impressive remarks in connection with school work. Mr. Leo Doiron has certainly proved himself a capable teacher.—M.

—SCHOOL CONCERT.—The entertainment held in Emerald Hall on the 17th inst., under the auspices of the Women's Institute was a great success. Dr. J. D. MacGuigan presided, and a very interesting programme was rendered. It consisted of a lecture and school concert. Rev. Dr. Smith of Iona gave a very interesting account of his trip through Austria, Belgium, Germany and other European countries. The order was perfect, which goes to show how the audience appreciated the very instructive lecture given. A vote of thanks was tendered the Rev. speaker, which only in a small degree compensated for the benefit derived for the information received. The Rev. Mgr. D. J. Gillis then delivered a short speech which was applauded by all. The children's part in the program consisted of drills, marches, etc., and was admirably performed. Much credit is due Mrs. (Dr.) MacGuigan and the other ladies who devoted their time in training those who will one day become the men and women of this country.—E.

—HEAVY LOSS.—The greater part of the lobster and cod gears from North Cape to Kildare suffered a great deal of damage on Tuesday by the great velocity of the Northeast wind which raged during the entire day.
