

"Doc Bird Says"

The only importance we attach to this business is that it is our life work. That is the most important thing in life after all.

It's quite important that you use only drugs of superior quality. The purpose of drugs is to relieve suffering—restore health. Inferior, weak, impure drugs do neither—the kind we sell do the greatest good. You'll be clear-sighted enough to realize that it's to your advantage to purchase drugs in this store—so well known for its high character goods and fair prices.

\$10,000 FIRE IN HALIFAX

HALIFAX, May 1.—Fire yesterday did \$10,000 damage to the Wright marble building, on Barrington St. Most of the damage was done by smoke and water to the contents. On the ground floor was Phinney's piano rooms and on the floor above the Colonial Tea Rooms.

The fire broke out in the basement and so quickly did the smoke fill the building that escape by the stairway was cut off. Half a dozen young women employed in the tea room were taken from the windows by ladders, some of them being almost hysterical. Several narrowly escaped dropping to the pavement below. Three alarms were sent in and after an hour's work the fire was under control.

HORSE NOTES

Neil McNeil, of North River, has a handsome foal from his 'For. Medium mare. The colt is sired by Bottom, 2.231. Everyone who has seen the youngster says he is one of the finest colts that have ever been raised in that section of the country.

Duncan Robertson, of North River, has purchased the stallion, Comodore Ledyard, from Dr. C. Strickland of this city.

Arlene, 2.81, one of the best free-for-all pacers on the half-mile tracks of the United States, is at present owned in Halifax.

Tommy Cotter, 2.294, well known to the Island horsemen, has been sent to Walter Cox to train.

No fewer than eight standard-bred trotting stallions were exported to Russia last week. Russia is becoming the greatest market for the American trotting horse.

Several purchasers of fast pacers and trotters have recently been made in New Brunswick and Nova Scotia.

Baron Cecil, 2.214, winner of the stallion race at Charlottetown last Fall, has been sent to James Carpenter, of Redville, to train for the coming season.

The owners of the pacing mare, Pearl Hick, 2.124, are anxious to have a match race arranged with James F. Newboro, 2.134, the Fredericton pacer—the race to take place on May 25th.

In order to raise the horse-breeding industry in Canada to a higher standard, legislation has been introduced to prohibit anything but pure-bred stallion being used for service after 1918. The various classes of grade horses are to be gradually eliminated, so that only pure-bred stock will be available after the year stated. The Stallion Enrollment Act is to be amended so as to provide for compulsory inspection by Government officers.

Baden, 2.51, has changed hands in Russia for \$35,000. Baden is by Binggara out of a Kremlin mare.

The breeding of the trotting horse will probably be greatly augmented by the fact that the majority of the European countries have under consideration, making of the trotting horse the type of horse to be used for army mounts. It is claimed that the trotter is more valuable for cavalry purposes and army work generally than any other type of horse.
