1. Chas. R. Trenholm; 2. Chas. R. Trenholm.

ACCIDENTS KILL 358 NEBRASKANS

LINCOLN, Neb., Aug. 31—(U.P.)—During the first seven and a half months there were 358 persons killed in accidents in Nebraska. Of this number, 176 were killed in automobile crashes.

"WET" SNAKES BREAK DROUGHT

CHICAGO, Sep. 1. (U.P.)—When members of the Bagesu tribe in Africa wish to break a drought they get a snake drunk on beer; then if it rains too much they use the same method to bring back the sunshine, according to a store of legends and superstitions brought back from there by Wilfrid D. Hambly, who led an expedition for the Field Museum.

The weird rain and sun superstition is described in Hambly's book as follows:

"When rain is needed the Bagesu send a rain maker and a priest to a spring in which a snake lives. Nearby they construct a large trough, which they fill with beer. When the snake comes out to attack them, it gets drunk on the beer, and while in a helpless condition its fangs are removed. From the well it has left unguarded they fill pots with water. The water thus

drawn is believed to attract rain, which will continue to fall until stopped by the priest. When it is desired to stop the rain the snake is again tempted to indulge too freely in beer, the waterpots are then overturned, the rain ceases, and the sun shines to ripen the harvest.

"Among certain tribes snakes are regarded as the reincarnation of the souls of dead people, and treated with ancestral reverence. There are also beliefs in the affinity of certain living people's souls with those of snakes, whereby the persons involved derive special powers, usually for evil doing."

ACCIDENTS KILL 358 NEBRASKANS

LINCOLN, Neb., Aug. 31—(U.P.)—During the first seven and a half months there were 358 persons killed in accidents in Nebraska. Of this number, 176 were killed in automobile crashes.

Here's death to the germ which causes "ATHLETE'S FOOT" ... so common now in Canada

THE ringworm parasite, which infects toes and feet and has invaded Canada with an epidemic of ringworm infection called "Athlete's Foot," now is ready for quick death!

Exhaustive laboratory tests have proved that Absorbine Jr. penetrates deeply into flesh-like tissues and that wherever it penetrates it kills the ringworm germ. This will be good news to thousands who have worried over this threatening foot condition.

There are many symptoms—a slight redness, itching, blisters between the toes; a soggy, white

condition; skin cracks, or scaly dryness—all may indicate "Athlete's Foot."

Correct it with Absorbine Jr. At the first hint of infection, douse on Absorbine Jr. Better yet, guard against the disease by treating the feet after every exposure to damp floors, even in your own home. Keep a bottle handy; use it every day. "Athlete's Foot" infects and reinforces persistently. If it does not yield readily to Absorbine Jr. see your doctor. At all druggists' \$1.25. W. F. Young Inc., Lyman Building, Montreal.

Absorbine Jr.

For years thousands have found Absorbine Jr. unequalled for sore muscles, rheumatic aches and pains, sprains, bruises, burns, cuts and sunburn. Always have a bottle handy.

The Open Season For Ducks

FAMED PALACES OF MANCHUS IN CHINA RENTED

PEIPING, Sept. 1. (U.P.)—Several of the former Manchu palaces in this city are offered for rent on short or long leases. Some families already have leased palaces in the Nan Hai (South Sea) Park and write the address "Forbidden City" on their stationery.

Experiments with renting former palaces were begun last year, when the Summer Palace, favorite recreation ground of the late Empress Dowager in the suburbs of Peiping, was thrown open to foreign and Chinese tenants. Its success led to opening the Forbidden City, in the center of this ancient capital.

Opening of the Forbidden City, declares Mayor Chou Ta Wen, is a definite move to make Peiping a great tourist center, and to induce tourists to stay a long time. Rents have been fixed very low, so that at the present rate of exchange, apartments in imperial palaces are available at about \$20 (gold) a

month. Entire palaces are available at \$75 (gold) a month.

The palaces are one story wooden structures, built around lovely rock gardens in pure Chinese style. They have been renovated and have electric lights and running water. If the experiment succeeds they probably will be fitted with modern plumbing.

The Nan Hai is one of the three imperial pleasure gardens here, covering more than 50 acres in the heart of the city. It has a beautiful artificial lake, with artificial islands containing rock gardens, and

"AUNT" JANE DEAD

TAZEWELL, Va., Sept. 1. (U.P.)—"Aunt" Jane Fudge, who claimed she was 102 years old, but whom relatives thought was much older, died here recently. The old woman, who lived two generations in slavery, had resided within 100 yards of the Norfolk and Western Railway track ever since it entered Tazewell. She never had been on a train. She had never been in an automobile until recently, when she attended the funeral of a grandson.

"GP" Tires are Custom-Built
Quality—Not Mass Production
It's not how fast we build tires, or how many we can make in a day. It's the extra time we take to build them right, and the extra material we put into them that makes them perfect. That's why "GP" Tires last longer. With us it's quality—not mass production. Every tire is custom-built. And they cost no more.
