

A Family Medicine Without Alcohol

A Strong Tonic - Without Alcohol
A Great Alternative - Without Alcohol
A Blood Purifier - Without Alcohol
A Family Medicine - Without Alcohol
Ask your doctor if a family medicine, like Ayer's Sarsaparilla, is not vastly better without alcohol than with it.

The Ring That Binds

The supremacy of the "W.W.W." Wedding Ring is undisputed. They are pre-eminently proper. The first "W.W.W." Wedding ring was made in 1838. Look for the stamp inside.

Home Made Bread

No woman can afford to bake bread in hot weather and it's doubtful if she can afford to bake bread at any time. If any house wife will follow the cost of 4 or 5 loaves of bread, if milk is used in the making, she will find the cost is close to 8c per loaf and making a small quantity at a time in order to have it fresh keeps her working all the time.

WHY YOU SHOULD USE SWIFT'S ANIMAL FERTILIZERS

First. They are made from Rendering House materials.

Second. They are Nature's products, restoring fertility.

Third. They produce humus, which stores moisture and nitrogen.

Fourth. They are the best substitute for barnyard manure.

Fifth. They do not exhaust the soil, but are soil builders.

Sixth. They contain potash in the best forms adapted to crops.

Seventh. They are SWIFT, SUPERIOR, SURE, and active all the time.

The ANIMAL materials from which our Fertilizers are made are by their very nature the most powerful Crop Producers known.

Organic Matter when added to soils improves them; the clays open, air and water more freely enter and do good; the barren sands more tightly grasp food and water, and holds them longer for growing plants.

Organic matter warms the heavy clays and lessens the burning of the sands and it increases available plant food in all soils.

We have just received our stock of the above fertilizer in the following brands:--

Empress Brand Bone Fertilizer For Grain.

Potato Manure Potato Phosphate For Potatoes.

Ground Bone--for grass Animal Brand--for all Crops. All of which we are sell at lowest prices.
