**BOBS MAKES NO CHANGES.**

LONDON, May 13.—Lord Roberts returned to England with the reputation of being the only general capable of re-organizing the British army and turning the lessons of South Africa to practical account. Military men assert that while he has been in the war office several months there have been no change in drill and tactics. The drill season has opened but the troops are trained precisely as they were before the Boers gave the British a series of object lessons in the resources of defensive and guerilla warfare. The fact that Mr. Brodrick's recognition scheme has not yet received the approval of parliament does not explain the slowness of the headquarters staff in adapting the old time system of training to new conditions.

**APPEAL FOR MERCY.**

PEKIN, May 15.—The answer of China to the statement of the ministers of the foreign powers as to the losses sustained by nations and individuals in China, has been received. The answer commences with an appeal to mercy, saying that the country is impoverished. The answer explains that the utmost China can offer is 15,000,000 taels annually for the next 30 years. This amount will be derived as follows: From salt 10,000,000 taels from the Likin tax 2,000,000 and from native customs, 3,000,000.

**ASSIST NATURE.**

You have been told to "hitch your wagon to a star"—that Nature will assist you. That's all right. There are times, however, when you should assist Nature and the spring is one of these times. Nature is now undertaking to cleanse your system—if you take Hood's Sarsaparilla the undertaking will be successful and your complexion bright and clear.

**FARMERS MAKE MONEY**

**The Canadian Dressed Poultry Co., Limited.**

CAPITAL STOCK - \$450,000

HEAD OFFICE, HAMILTON ONTARIO

PRESIDENT—Mr. GIBSON ARNOLDI, Barrister-at-Law, Toronto

MANAGER—Mr. S WILLIAM GILMORE, Merchant, Hamilton, Ont.

OBJECT OF THE COMPANY.

This Company is formed to advance Canadian trade with England in dressed poultry, ducks, turkeys and geese, dressed meats and other farm produce that the company may deem it advisable to deal in. This is the great object of the Company. It will be no monopoly and it cannot be made one; it's success means the Farmers' success. The farmer who wants to make money must first become a shareholder in this Company, which is the only company of its kind, and by so doing show that he means business, as his money being invested, his interests and the interests of the Company are the same, and then raise poultry, turkey, ducks and geese for the Company. This Company will buy only from its own shareholders; therefore, with care and attention every farmer and every farmer's wife and every man, woman and child of ordinary intelligence in Canada who has fifty dollars can buy ten shares and become a shareholder, and by beginning in a small way and saving his profits make himself wealthy, like Mr. Taylor has done. Who Mr. Taylor is is explained in the following extracts from a story told by Professor Robertson, the well-known Commissioner of Agriculture and Dairying for Canada, to the standing committee of the House of Commons.

"Well-to-do farmers fatten chickens. I learn also that there is money in the business. I had got the name of Mr. Samuel Taylor from one of the leading poultry dealers in London. When I got to his place I found Mr. Taylor was a successful farmer. He had begun life as a farm laborer without capital. When I visited him he had a fine farm Steading and was doing a prosperous business. I would not like to say how much money the chicken-fattening business brought him in, but I would not be surprised to learn that his annual net balance was over a thousand pounds (five thousand dollars a year). This man had begun life as a farm laborer and by sticking to this business had made money of it.

The Promoters are now arranging to establish not less than twelve receiving and shipping stations in Canada to be fitted with plants necessary to make the exported article as perfect as possible. The number of stations in each Province will be as nearly equal as possible, having regard for the size of the Province and the number of shareholders in each. The operations of the Company to be confined for the present to Ontario, Quebec, New Brunswick, Nova Scotia and Prince Edward Island. The Company is also engaging the most experienced help to be found in Canada and England and making arrangements to in England get the very highest price for its shipments.

The buyers of this Company will commence operations, it is expected, on or about the first of June, 1901, when they will call on the shareholders and arrange with them as to the continuous supply—that is, the number each shareholder will raise and supply each month to the nearest receiving station of the Company. It is therefore necessary that all intending shareholders send in their subscriptions for stock at once, as the Company will only buy from its shareholders and the lists will be closed.

This is a grand chance to make money for either farmers or their wives and those who either cannot afford to keep up a large farm or who, through some infirmity or poor health, are not able to attend to the heavy duties of heavy farming.

Prices to be Paid.—This Company will pay the very highest prices to its shareholders, so as to encourage the raising of first class poultry, and, as it will year in and year out be selling at the high prices to be obtained in England, it cannot afford to pay more than the best prices now paid for birds now sold on the Canadian market.

Great Prices in England.—Chickens shipped to Liverpool, England, met with a ready sale at eight pence (sixteen cents) per pound. As they weighed eleven pounds per pair, they sold for one dollar and seventy-six cents per pair. Just think for one moment—one dollar and seventy-six cents for a pair of chickens in England, and yet it is only a fair market price there, and the profits are equally as good, if not better, on turkeys, ducks and geese. The consignee wrote as follows about the shipment: "I was agreeably surprised at the all-round excellence of your small experimental shipment of Canadian capons (chickens). On opening the case the birds were found to be in a beautiful condition, and presented a most saleable appearance. After the birds were uncased I hung one to find out how long it would retain its bright appearance, and found that it became milky white as soon as it had dried out of the chilled state; to-day, five days later, it is as nice looking as a fresh killed bird. I think the price obtained will both please and pay you. It is a fair market price."

**Three Firms Alone Intimated Their Ability and Willingness to Handle About Two Thousand Cases Per Week at Good Prices.**

Raising Poultry Pays—It pays better to fatten them, and it pays best to ship them to England. The shipment sent to Liverpool England, above described brought one dollar and seventy-six cents per pair; the farmer sold them to the shipper for fifty-four cents per pair, which is above the average price, as often as he does not get more than thirty cents per pair; can anything be clearer than that the farmer is failing to make enormous profits? By becoming a shareholder you will commence putting the money in your own pocket.

Success.—This Company is a natural outgrowth of the great and wonderful cold storage system. Before "cold storage" became known it would have been an impossibility to carry on this great business, but now the great success of cold or chilled storage is the maker of this enormous business, which will prove a money-maker for its shareholders. Space will not permit giving a description of the great arrangements to be made, of the many receiving and shipping stations, abattoirs, cold storage plants, offices and agencies this Company will establish in the different Provinces of Canada and in England, or of the numerous employees it will engage to do the buying, killing, plucking, packing and shipping; the instructors the Company will engage will give to the working shareholders such directions and assistance as they may desire.

The Head Office will be at Hamilton, Ontario, and from MR. WILLIAM S GILMORE THE EXPERIENCED MANAGER, will direct its affairs. Mr. Gilmore is already well known to many Canadians, but for those who do not know him and who would naturally like to know something of the man who is to direct the affairs of the Company in which they intend to invest their money the following extract from a letter written by the celebrated firm F. W. FEARMAN CO., LIMITED, the greatest pork packers and provision merchants, and probably the oldest established firm of its kind in Canada, to the proposed bank of this Company, will be of interest:

Gentlemen.—At the request of Mr. W. S Gilmore I write to advise you that we have known him for years, and have had during that time continuous dealings with him as one of our customers. He is a practical provision dealer and butcher of many years experience. He is about fifty-five years of age, but active and progressive, and as a judge of poultry, live or dressed, he is certainly the equal of the best in Hamilton. As to his personal character, respectability and integrity, we believe he is fully to be relied on for anything he will undertake.

**SPECIAL NOTICE.**

Every shareholder in this Company is not obliged to raise poultry simply because he is a shareholder—anybody can buy stock in the Company and the net profit or dividends will be divided between all shareholders alike, and it is safe to say they will get large dividends for their money.

Exclusive privilege.—The Company extend an exclusive privilege to those who hold ten shares or more of the Company's stock to raise poultry, turkeys, ducks, geese, etc., for the Company, to supply the great demand, and to this class of shareholders the Company will pay the very highest prices for their birds. They will be given the great advantage of careful instruction, free of charge, in the art of raising and fattening poultry, as well as receiving their share of all the profits of the Company, and, as the promoters wish to make this a Company by the farmers and for the farmers, all the servants and employees of the Company will be chosen from among the shareholders and their families.

The Capital Stock of this Company is divided into shares worth five dollars each, and of this only a limited number of shares are offered for public subscription, but no subscription will be accepted for less than ten shares (\$50). If you wish to become a shareholder lose no time, but send in your subscription at once, as the stock will be allotted in the order which the applications are received, and no stock will be held open for anyone. Fill in the APPLICATION FORM given below, be careful to state how many shares you want and the amount of money you enclose, sign your name to it and then fill in your address and send it by registered letter to Mr. Gibson Arnoldi, the President of the Company, 9 Toronto Street, Toronto, Ontario, accompanied by a marked cheque, postoffice order or express order for the full amount of subscription, payable to the order of Mr. Gibson Arnoldi, President of the Company.

The promoters reserve the right to change the name of the Company if the Government requests them to do so as a condition to the granting of Letters Patent under the Great Seal incorporating the proposed Company, and also at the same time to ask incorporation with any other amount of capital stock than named in their discretion.
