WEDDING BELLS—The home of Mr. and Mrs. Benjamin Smith, Winslow, was the scene of a very pretty event on Wednesday evening August the sixth when their only daughter Ida Pearl was united in marriage to Mr. George W. Senter of Hunter River. The wedding ceremony was performed by the Rev. Mr. Metel of North River. The bride entered the parlor leaning on her father's arm while the wedding march was sweetly rendered by Miss Janie Andrews, cousin of the groom. The parlor was beautifully decorated with ferns and sweet peas. The bride wore a white silk crepe dechene with silver overlace and ribbon trimmings and carried a bouquet of sweet peas and maiden hair ferns, while Miss Ada Ford, cousin of the bride and groom, was dressed in a suit of fawn crepe dechene. The groom was ably supported by Mr. Honeywell Spence of Hunter River. After the ceremony about seventy-five guests immediately friends and relatives of the bride and groom sat down to a delicious supper served by Mrs. Smith in the latest style, while the rest of the evening was spent in music and songs. The presents were numerous and costly testifying to the popularity of the bride and groom. The young couple left later for their future home in Hunter River followed by the best wishes of all.—(Patriot, please Copy.)

PERSONALS

Mr. William E. White, officer of the Car Ferry was in the city on Thursday.

Mrs. Osbert Inman, Vernon spent yesterday at York the guest of her brother Herbert Vessey.

Miss Ruby Stewart Marshfield, has been re-engaged to teach in York during the present year.

Miss Georgie Boyce, Mermald, and Miss Etta M. McLaughlan, Hillsboro are visiting at York the guests of Mrs. Wesley Matthew.

Mr. Richard Power and the Messrs Landrigan Bros. returned yesterday to Boston after a pleasant visit to Covehead Road.

Mrs. A. Bolener, Newton Centre is spending the week with her brother, W. H. Crockett, York. Mr. Crockett is reported much better than usual.

Miss Eva Stewart, Marshfield, spent last week at Millview the guest of her uncle Mr. Frank Jenkins.

Mr. C. D. Hicks, station agent at Humphreys, N. B., and Mrs. Hicks have returned home after spending an enjoyable week on Prince Edward Island.

Mrs. John Prowse and two daughters Saskatoon and Mrs. J. B. Brooks are visiting in the city the guests of their brother Mr. Stanley Hardy.

Miss Margaret Collins, R. N., and Mr. Frank Collins who have been visiting their parents Dr. and Mrs. J. T. Collins, Vernon River, have returned to Boston.

Mrs. Ella Weeks (nee Miss Gibbs) of Worcester is spending a few weeks at Grand Pracadie the most of her uncle Mr. Warren Gibbs. She is accompanied by Mr. Andrew Baker, also of Worcester.

Childhood Indigestion

Nothing is more common in childhood than indigestion. Nothing is more dangerous to proper growth, more weakening to the constitution or more likely to pave the way to dangerous disease. Fully nine-tenths of all the minor ills of childhood have their root in indigestion. There is no medicine so little ones to equal Baby's Own Tablets in relieving this trouble. They have proved of benefit in thousands of homes. Concerning them Mrs. Jos. Lunette, immaculate Conception, Que., writes: "My baby was a great sufferer from indigestion, but the Tablets soon set her right, and now I would not be without them." Baby's Own Tablets are sold by medicine dealers or by mail at 25 cent box from the Dr. Williams' Medicine Co., Brockville, Ont.

PRINCE EDWARD ISLAND

A home so dear lies in the sea
An island that we love,
Surrounded by great rocks and sand
And clear blue sky above.
'Tis but a garden rich and fair,
Close nestled in the sea,
A cozy spot, just "hearts content,"
An island ever free.

Dear old Prince Edward Island—
The dearest spot of earth,
And I am one that's proud to own,
It is my place of birth,
Its forests they are wonderful
Its rivers they are grand
And its three fair counties
Are joined close hand in hand!

A number of her brave young men
Has fought far over seas,
Some of them are home again
While others "rest at ease"
More of her children strayed away
Far from their cozy nest
We know soon they'll understand
This is an "Isle of rest."

In Bonshaw on West River
Is my sunny place of birth
'Twas from those laughing scenes
I learned gaily and mirth
And if ever I am off this Isle
And far away I die
I want my last resting place to be
On dear old P. E. I.

Olga E. MacNevin, Bonshaw, aged 15.

International Affairs Discussed

WILLIAMSTOWN, Mass., Aug. 28.—Imaging a little college town; flood it with notable men; provide a forum for discussion; add the sunshine that comes through the great trees upon the lawns of Williams College, and you have the scene where 225 men and women students of foreign affairs are entering on the final week of their month-long gathering to search out the causes of war and to study the way to international peace.

This is the Williamsstown Institute of Politics and the latest in four years ago by Dr. Harry A. Garfield, president of Williams College and a son of the assassinated president of the United States. It has been financed by Bernard H. Baruch of New York, former chair-man of the War Industries Board.

The students include admirals, generals, editors, authors, diplomats, bankers, industrialists, government officials and college professors. Each is anxious to exchange ideas and theories.

The Institute takes no votes and adopts no resolutions. It simply provides a place for conversation and discussion of international affairs. Each year there are lecturers from abroad as well as noted Americans.

The students are housed in the halls of Wills College. Each morning soon after eight o'clock they assemble for breakfast in the college gymnasium. Round table discussions by groups begin at nine o'clock. At eleven o'clock there is an open conference for all members of the Institute. In the evening one of the foreign lecturers makes an address. Residents of the country around Williamsstown are permitted to attend these evening lectures.

The students are all specialists in international matters. Washington takes a friendly interest in the Institute and the store department draws upon its archives for the benefit of the members. This year, for example, John Van Antwerp MacMurray, chief of the Division of Far Eastern Affairs of the State Department, brought a bag of confidential documents which he opens occasionally for the round table which he conducts.

A round table directed by W. S. Culbertson, vice-chairman of the U. S. Tariff Commission, a veritable parliament. Experts discuss realities in a creative atmosphere. The Dawes reparations plan has provided the principal theme for their arguments.

Europe and the Far East are represented in the list of lecturers. From Great Britain are Sir Valere Chirol, expert on India and formerly head of the foreign department of the London Times; Sir James Arthur Salter, head of the financial and economic section of the League of Nations, and the late Richard Henry Tawney, economic advisor to the British Labor Party; Louis Aubert, long political editor of the Revue De Paris, speaker for France. Dr. Moritz J. Bonn, banker, gives Germany's are described by Yuzuru Tsurumi, who is engaged in writing a life of Woodrow Wilson for Japanese readers and who is son-in-law of Baron Goto, mayor of Tokio.

UNDERSTOOD AT LAST

M. Le Vicomte Sorigny, a distinguished member of the French embassy, was present at a silver wedding celebration of a bishop. Leaving over to his neighbor, the Vicomte asked, sotto voce:—"Tell me, mon cher, vos des allivaire wedding vitch ve celebrate! I do not quite understand!"

"Oh," replied Forester Blythe (the bishop's nephew) "don't you know? Why, my uncle, the bishop, and my aunt have lived together for twenty-five years without ever having been separated, and without any angry word having passed between them."

"Ah!" exclaimed the diplomat, heartily, a light breaking in upon his understanding. "And now 'e merry he? Bravo!"

THAT CAR OF YOURS

BY HARRY E. PORTER

THE CHAIN DRIVE.

With this type of drive it is possible to adopt the most suitable form of load-carrying member, the unsurpassed weight is lowest in the chain drive and in this respect it is the best form of drive. The dead axle is usually of rectangular or I-beam cross section. The plain rectangular form is usually employed because it is low in first cost. As the final reduction is made by means of sprockets, the jack shafts and differential can be made lighter than when but one reduction is used, and the efficiency is very high when new.

QUES.—How can side-plate be taken out of Connecting Rod?
S. E., Albany.

ANS.—A temporary method is by running hard solder on the sides of the Rod Babbitts and file down to fit ends of Journals. We are sending Chart of differential set up.

Will Discuss Unemployment

(The Associated Press)
OTTAWA, Aug. 28.—The unemployment problem and its solution will be discussed at a conference called by the Dominion Government through Hon. James Murdock, Minister of Labor, for the early part of September.

In the hope that a full and free discussion by all parties concerned may result in the discovery of a solution, the Government has included in its invitations to the conference representatives not only of provinces and municipalities, but also of the two great railway operating in the Dominion, the Canadian Manufacturers' Association and the Association of Canadian Building and Construction Industries. The voice of labor will be heard through representatives of the Trades and Labor Congress of Canada.

The summoning of such a conference indicates that the Government is anxious to be prepared for a condition which in past years has been a prolific source of trouble. With another winter in the offing bringing a great diminution, if not complete cessation, in many lines of outdoor construction work, it is not unlikely that the country will again be faced with the problem of finding jobs where there are none for numerous workless men.

Many workers now being absorbed into the harvest fields for temporary employment will be back in the towns and cities when the crops have been gathered. Their ranks will be swollen by those who have been engaged in certain lines of railway and building construction which are suspended in winter.

While accepting a share of the responsibility of caring for the unemployed, the Dominion Government takes the ground that the problem is one which must be dealt with primarily by the municipalities concerned. During the winter of 1920-21, under a regulation passed by the Conservative Government, the Liberal administration of Premier Mackenzie King, cash assistance was given to the municipalities. The Federal Government reimbursed any municipality to the extent of one-third of the amount expended by the municipal authorities for unemployment relief, the remaining two-thirds being met by the province and municipality interested. From January 1, 1922, more than \$600,000 was disbursed by the Federal Government in this manner.

In January, 1922, the Federal Government again came to the assistance of the municipalities. Municipal undertakings in the nature of public works during the winter months were encouraged, the Dominion Government meeting part of the extra cost due to the difficulties of winter construction, was no general Federal relief granted. Cash assistance for unemployment relief was also given.

General increased industrial activity in the winter of 1922-23 practically ended abnormal unemployment, and Federal assistance at for continuing outdoor construction on large undertakings in winter, it will go a long way toward solving the problem.

Paperhanging now Simplified

Do you fully realize how much more simple, easy and rapid, paperhanging has become with the perfection of semi-trimming?

Consider the difference between this and the old-fashioned methods. Staunton Semi-Trimmed Wallpaper eliminates all trimming. You simply give the ends of the semi-trimmed roll a rap on table or floor and the selvage falls off. Then cut the strips the required length and apply paste. Hang the paper—and the result is a perfectly butted job.

Staunton Semi-Trimmed Wallpaper is accurately trimmed for you in course of manufacture. It saves time, prevents muss and disorder, and simplifies the work throughout. It is to the advantage of all who hang wallpaper to use Staunton Semi-Trimmed Wallpaper.

Ask your dealer to show you the patterns.
