

Does Your Flour, Madam, Whiten Through Kneading

We well remember our little chat with Mrs. B. An A1 breadmaker and four-square home-maker.

Said she; "After kneading my dough awhile, I often wonder how it whitens so noticeably under the hands. The more I knead and work it, the whiter it gets, more wholesome-looking, you know. That's a very encouraging thing in FIVE ROSES flour which I've sadly missed elsewhere. Sort of makes you roll up your sleeves and get busy."

Maybe, Mistress Housewife, you've noticed it, too.

But all flours, alas! are not FIVE ROSES.

With flour from poor quality wheat, poorly milled, there's no material improvement in the color of the bread due to kneading.

No reward for your trouble, you see.

It's the gray that's developed, Madam, not the white.

It's whiter dough you want, whiter the longer you knead it, and you want it so without having your elbows tingled and lubricated like John L. Sullivan's.

And FIVE ROSES, Madam, responds beautifully to the least exertion.

That fine uniform granulation answers to yeast action, and in the morning your dough is up as light as a cork.

The strong, live dough crackles and snaps heavily as you knead it down.

Then the snowy whiteness in the pans to be proved and baked!

From the oven your crusted golden loaves fill that kitchen of yours with the aroma of freshly-baked hickory nuts that portends a tooth-teasing flavor irresistible.

And the kiddikins need no other call to breakfast, Madam; just following their noses.

Don't let your neighbour beat YOU at breadmaking. You can so easily do better, Mistress Housewife. By getting FIVE ROSES. So roll up your sleeves, Madam, and— DO IT NOW.

THE PRINCE COUNTY GUARDIAN

Offices in Summerside, John Dickieson, Agent, and in Alberton, Herbert Clark, Agent.

The latest news, first of all.

At a late hour last night Samuel Simpson, North St. Elkanors, was very low with no possible hope of recovery.

Lowell McQuarrie, Summerside, now in St. John, is receiving high praise on his excellent hockey playing as rover.

The County Court met at Alberton yesterday with Judge McLeod presiding. The docket was a very large one but many of the cases were settled out of Court.

J. A. McKay and H. H. Lefurgey, Summerside, were among the passengers going to Charlottetown by the social train yesterday afternoon to attend the hockey match in Charlottetown.

Dealers in Alberton yesterday were paying 18c a lb for butter, 18c a doz for eggs 40 cents a bus for white oats, 39c a bus for black oats, 9 1/2 cents a lb for pork, 8 1/2 c a lb for hides, \$9 a ton for loose hay and \$10 for pressed.

Dealers in Summerside yesterday were paying twenty-five cents a bus for potatoes; twenty-five cents a dozen for eggs, four fifty a ton for loose straw, forty to forty-one cents a bus for oats; ten cents a lb for pork and ten dollars a ton for loose hay.

There will be sessions of special interest in the Methodist Church, Summerside, today. The first session will be held at 3.30 p. m. and the second at 7.30. At the evening session an offering will be taken for missions. It is expected that several men, prominent in home and foreign work, will address these gatherings and among them will be Rev. E. W. Morgan, returned missionary from West China and Rev. Thos Marshall, Superintendent of Methodist Missions for the Maritime Provinces. All will be heartily welcome.

The funeral of the late Mrs. D. S. Wright, Summerside, took place yesterday afternoon and was very largely attended. Many were present from Searlestown where Mr and Mrs Wright lived until a few years ago when they removed to Summerside. Mrs Wright had always enjoyed good health until within two weeks of her death which coming so suddenly was a great shock to her many friends and acquaintances. She was a true Christian lady and a devoted wife and mother, and will be greatly missed in the community where she was so well known and loved. She leaves to mourn her husband, one daughter, Miss Minnie at home, and two sons, Leslie A., and Fred J. E. in Summerside. The pall bearers in attendance at the funeral were—Thos Hinton, G. D. Wright, E. J. Wright, Colin Wright, E. H. Wright and Edward Strong. The officiating clergyman was Rev. H. Johnson assisted by Rev. Mr Bamford. Mrs Wright's only surviving child, her sister, Mrs Capt. W. B. Black, Tanton, Mass., and Mrs Lewis Wright, Summerside.

AFTER THE AGE OF 50 people find that their strength is not what it used to be, and they frequently suffer from sudden exhaustion and weak heart action. To all such we recommend the invigorating tonic FERROVIM, composed of fresh beef, Citrate of Iron and a pure stimulant. Nothing could be more beneficial in such cases \$1.00 a bottle.

bill at present before the senate there.

The committee on resolutions recommended that the sale of liquors for medicinal purposes be taken from the registers and vendors and that the books of vendors who sell to doctors and druggists be open to inspection by the inspectors under the act.

Other suggestions were made tending to the strengthening of the prohibitory act which was left to a committee of five to prepare and have introduced in the legislature.

The committee on nomination recommended the following officers: President—Rev. H. C. Thomas. Vice President—(Queen's) George E. Full.

Vice President—(Prince) Samuel Bernard. Vice Pres'tent—(King's) E. G. Giddings. Vice President—(King's) E. G. Giddings.

The finance committee reported that about seventy-one dollars was required to meet expenses. A subscription was opened and the amount guaranteed.

The large number of reports of damage to the winter wheat crop in the southwest from the severe weather had a dampening influence upon the market. Announcement was made of one or two important bond offerings and a canvas of the number of projected issues gave the impression that new financing must play an important part in the money market for some time to come.

The persistent strength in the foreign exchange market was an indication that further exports of gold might be a feature of next week's market. The heavy volume of merchandise exports at the port of New York and the coming maturity of corporation note issues of which large portions are held abroad explain this movement.

The establishment of higher prices for the Ann Arbor issues was accompanied by reports of the acquisition of that system in the interest of the Edwin Hawley group.

The bank statement showed the cash decrease limited to about \$1,000,000 and the loan increase apparently due to taking over of loans of the trust companies. The feature of the statement was the heavy contraction of \$1,208,600 in the circulation item. This retirement of bank notes with government bonds at their present low price is highly significant of the rebandancy of the circulation and the impossibility of keeping bank notes out.

The whole problem of high prices impaired export demand and stimulated import demand, and the outward tide of the gold movement is

involved in the condition thus indicated. The contraction of the note circulation will act to correct the condition, but the effect on flotation of future government bond issues presents a new phase of the problem. Bonds were irregular; total sales, par value, \$1,286,000. U. S. twos and three advanced 1/2 and the fours 1/2 cent. in the bid price on call this week.

The death of J. Y. Leard, took place at his home at Fortune Cove on Saturday evening last after a brief illness of only a few weeks of the Grip, at the age of 61 years. The deceased was a carpenter by trade and was also a most successful farmer. He was a consistent worker of the Cascumpeck Methodist Church and his death is a distinct loss to the church as well as to the community in which he lived. Mr Leard is survived by his widow, one son and one daughter, also by his sisters, Mrs. Geo. M. and Thomas, residing in Alberton. Archibald J., in Saskatoon, Josiah in Buffalo and Rev Robert in Portland, Maine. The funeral took place yesterday afternoon, Rev Hugh Westmoreland officiating.

NEW YORK, Feb. 28—The stock market remains largely in professional hands and the recession in prices today may be ascribed to the disappointment of the professional element over attempts to advance prices earlier in the week.

There were several items in the day's news that were regarded as prompting to caution in adopting assumptions as to the future. The Philadelphia general strike in sympathy with the street carmen's strike caused anxiety. The statement of eastern railroad managers giving reasons for refusal to grant demands for increase of wages directed attention to the general subject and the widespread field of such pending disputes.

The large number of reports of damage to the winter wheat crop in the southwest from the severe weather had a dampening influence upon the market. Announcement was made of one or two important bond offerings and a canvas of the number of projected issues gave the impression that new financing must play an important part in the money market for some time to come.
