Lens Grinding Do You Know? That we operate the only Lens Grinding Plant on P. E. Island? That we employ a skilled Surface Grinder, and are daily grinding from the rough glass—the most complicated kinds of lenses? These are facts, which mean a good deal to the Glass wearing public, doing away with the annoying delays caused by sending away for special lenses.

EVERYBODY ADVERTISES, even those who say they don't.

ENGLISH EGG MARKET.—Eggs in England were selling for \$1.15 a doz. during March.

Clark, of Summerside, P. E. I. The work will involve an expenditure of \$6,000 or \$7,000 and the employment of about twenty men. It is expected that his work will be commenced at an early date.

REIDLANDS, Feb. 1, 1918.—I left the Imperial Valley yesterday about 2 p.m., and came northward by rail to the orange country. As the train proceeded we left behind the great din, different, delta region, with its amidst encircling mountains. We ran near the Salton Sea for many miles with redish colored mountains of naked rock on our right.

Feb. 2.—I got a nice room in the Hotel Reidlands for \$2.00 a week. This morning I went to the Triangle near by, to take a street car for Smythe Heights, and found an elderly man waiting to go to the same place, so we went together. He had been there before and proved to be a very agreeable and interesting companion.

Nothing can be grown here without irrigation. All over the heights one can hear water gurgling from short pipes that stick out of the ground. Water runs in shallow trenches through the flower beds to supply the thirsty plants.

The winter weather in day time in all this Southern California is much like a fine midsummer day in P.E.I. with the wind left out. But it is not always thus. Practically the only rain they get in all the year falls in winter. This season has been exceptionally dry which is very discouraging for the "dry" farmers.

The Conservation of Clothing. We are constantly being urged to conserve food and other products which will aid in winning the war. The high prices of many fabrics are causing many of us to conserve on clothing too.

A STAGE CLASSIC THAT IS A CLASSIC STILL THE STORY OF A WOMAN'S LAST STAND THE WOMAN PAYS—FOR WOMEN MAKE HER PAY

The Story: One of the most famous stories of an English dramatist who delights in presenting the problems of life in caustic fashion, masking his preachments with vivid and gripping stories of human interest. Felicia Hindmarsh is not made to pay the price of her early indiscretions. She pays for supposing that these indiscretions could be hidden, and it is the hiding of her identity behind that of her cousin, Mrs. Dane, which is condemned. It may be regarded as a problem play or merely as a gripping human document.

With feelings of deepest sympathy the death is recorded of a highly respected citizen in the person of Mrs. Patrick Coady, who passed peacefully away at her home at Vernon River, on the evening of April 10th, at the age of sixty-nine years. Deceased had been in failing health since the death of her husband about a year and a half ago, and despite the loving care and kindness of her relatives and friends she gradually grew weaker until God relieved her by calling her to her eternal reward.

IN MEMORIAM

MR. SIDNEY BEARS.

The death occurred at the P. E. I. Hospital on April 1st of Sidney Bears of Gladstone, two miles from Murray River. Mr. Bears had been in impaired health for some time and on Saturday March 30th he went to the hospital, but it was evident nothing could be done. He was only thirty two years of age. He leaves a widow (Nee Miss Jordan, Guernsey Cove) and two little daughters besides an aged mother to mourn.

MISS SUSAN JONES

Hazelbrook community and church has suffered a keen loss in the death of Miss Susan Jones who died of pneumonia on April 2. For many years she had served Hazelbrook Church as Treasurer, and was an estimable member of the choir. She was most deeply interested in all the activities of the church interest which never waned even during the last days of her suffering. Her was a strong personality with high ideals, and conscientious principles. Kindly, hospitable, and with a keen sense of humor, she was most companionable. She will be greatly missed by a large circle of relatives and friends. Our heartfelt sympathy goes out to the members of her family and especially to the two sisters who have been bereft of the one who for many years was the head of the home.

CANADA FOOD BOARD EDUCATIONAL DIVISION

If there is one phase of food conservation more than another that comes within woman's immediate sphere it is the question of waste. When she is saving on the little things and straining every nerve to make the most of what she has, wholesale and indiscriminate waste of food-stuffs through hoarding or storing naturally incenses her greatly.

It has been a sore point for some time past with many women that they have known of cases of waste on a large scale without being able to do anything to alleviate the situation. Even among themselves there has been a certain tendency to lay in large supplies of food-stuffs. For instance, when it was first intimated that flour and sugar would be scarce these commodities were bought in large quantities and stored in the cellar, in some cases to go to waste.

It is now against the law either to hoard or to waste. The Canada Food Board has put every woman's hand a weapon to fight against these wartime menaces. Hereafter it will be her privilege to report any case of waste or hoarding that comes within her knowledge.
