Round Table Conference With U. S. A Possibility

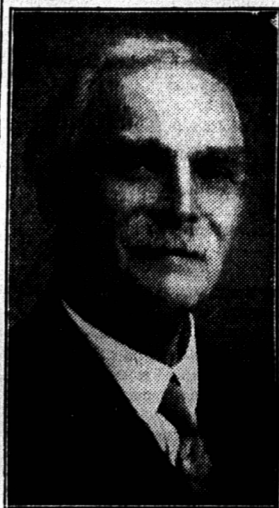

Gov. Roosevelt Candidate For President Suggests A Get-Together Parley Between Canada And United States.

MONTREAL, June 9.—(By The Canadian Press)—A round table conference between Canada and the United States to thresh out a trade agreement looms as a possibility should Franklin D. Roosevelt be elected President of the United States, an Albany dispatch to the Montreal Star from a staff correspondent today says.

In an interview with the Star's correspondent Governor Roosevelt said: "You in Canada have things we want, we have things you want. I would say: let us get together at a round table conference and work out a practical system of fair exchange. Each country would still make its own tariff in the light of its own needs. You would make yours and we would make ours. But you have, say \$200,000,000 worth of commodities that we want and we have \$200,000,000 worth of commodities you want. On those items we would lower the tariff bars. It would cost nobody anything. But it would get commodities moving and it would get men to work."

Bullet Pen Takes A Life

MONTREAL, June 9. (By the Canadian Press)—Yesterday Emile Vinet picked up a "fountain pen" on the street—tonight he died.

The object looked exactly like a fountain pen so Vinet examined it carefully. He wondered why the nib was concealed. While working over his treasure there was a loud report. A bullet, exploded by a trigger released by a small spring entered his thigh. Gangrene set in quickly despite hospital treatment.

Police, examining the weapon, found it just large enough to hold one .38 calibre bullet. They believed it had been cast aside by someone who feared arrest.

INCORPORATION OPPOSED BY PRESBYTERIANS

General Assembly Completes Work To Reconvene Next June In Peterborough, Ont.

LONDON, Ont., June 9.—(By The Canadian Press)—The Presbyterian General Assembly decided today against the incorporation of the church or its board of trustees. Ever since union the assets of the church have been held by an unincorporated board of trustees. Incorporation was opposed today largely because it might involve the term "Presbyterian Church in Canada," against the use of which the United Church has protested many times. A resolution proposing the incorporation under no other name than the "Presbyterian Church in Canada" was considered. "This is inviting litigation," said E. W. McNeill, Church Treasurer. "To go into a Legislature with a determination to put in the Presbyterian Church in Canada, would

National Guard For Free State

LONDON, June 10.—(Friday)—(A. P.)—A Dublin dispatch to the Daily Herald said today that President Eamon De Valera of the Irish Free State was forming a National Guard. Although organized along military lines, it will not be a military body, but an athletic organization, the newspaper said. The members would undergo a brief period of athletic training annually in various centres with military pay.

Several barracks were being converted into gymnasiums for the guard, the dispatch added. It suggested the guard might absorb the "Irish republican army," an official organization, which was repressed under the regime of the former President William T. Cosgrave but since has been active again.

P. E. Island Homestead May Becon. Memorial

(By J. F. Sanderson, Canadian Press Staff Writer)

LONDON, Ont., June 9.—The Gordon homestead near Alberton, P. E. I., may become a memorial to two missionaries of that name who gave their lives to the work of the Presbyterian Church in Eromanga, New Hebrides. The Presbyterian General Assembly today referred to the historical committee of the Synod of the Maritimes the offer of the owners.

Extra mural courses for the ministry are practically useless, said principal Thomas Basking of Knox College, Toronto, presenting the report of the board of education to the Assembly today. The applications of various ministers and students for licenses and ordination, were reviewed.

GANGSTER GIVES HIMSELF UP

(Canadian Press)

DETROIT, June 9.—A wide search for Harry Fleisher, dapper Detroit gangster wanted for questioning in the Lindbergh baby kidnapping case, came to a close today when Fleisher, pale and nervous, walked into police headquarters and gave himself up. He refused to talk, answering all questions with a shrug of the shoulders but his attorney, Edward H. Kennedy Jr., declared emphatically that Fleisher "had absolutely nothing to do with the Lindbergh case."

He Left His Tools Behind

POTTSVILLE, Pa., June 9. (A.P.)—Here's a good trick—A convict in one prison escaped through the wall of another several miles away today. Like this:

George Steel, 15, a prisoner in the county house of detention, made a hole in the wall in an effort to escape but was caught and locked up. A gang of inmates of the county prison was brought over to repair it. Among them was Chester Chernowsky, 24, of Shenandoah, Pa. Instead of fixing it he walked through it and hasn't been seen since.

(Continued on Page 3)

BONUS ARMY MENACE TO WASHINGTON

LONDON, June 9.—(Canadian Press Cable)—Demonstrations were held by unemployed in two British cities today and in one police were forced to charge 2,000 persons with drawn batons before they succeeded in restoring order.

At Bristol a near riot occurred after a mass meeting. Police sought to herd the crowd down one of the main shopping streets when several persons threw stones through shop windows. Several were reported to have been hurt in subsequent charge by police. There were no casualties among the forces of the law.

At Glasgow, Scotland, exciting scenes were witnessed when a procession of 2,500 women, headed by women councillors of the city, got mixed up with another parade of 3,000 men.

Novel Distilling Plant In C. B.

Add one whiskey keg, filled with water, for vaporizing and cooling purposes. Connect the two with several feet of copper tubing for a worm.

The quality of the product will be ascertained in court tomorrow when Royal Canadian Mounted Police produce as evidence ten bottles of moonshine. The police seized the still, moonshine and ten gallons of mash at 33 Charlotte Street, Sydney.

A Further Moratorium Is Suggested

PARIS, June 9.—(A. P.)—It is believed in official quarters here the statement of Henry L. Stimson, Secretary of State reaffirming the United States position on war debts has strengthened the French contention that a further moratorium on reparations will be the best possible result of the conference at Lausanne next week.

In some quarters Mr. Stimson's statement was interpreted as an attempt to forestall any effort in Europe to condition action at Lausanne upon reciprocal compensation later by the United States.

The Paris Mide said in this afternoon's issue that such declarations as Mr. Stimson's only aggravate the European situation and that "America does not seem to realize that they also aggravate the situation in that country."
