The Most Useful Fish.

The cod is the most useful fish in the world. As an article of food, wholesome and substantial, either fresh or salted and dried, it forms a valuable addition to the food resources of the world, and in this and other ways few members of the animal kingdom are more universally serviceable to mankind. Enormously prolific (one fish producing 9,000,000 eggs) and widely distributed, its usefulness is appreciated almost everywhere. The tongue is considered a delicacy, the swimming bladder furnishes isinglass equal to that got from the sturgeon, while cod liver oil has a worldwide reputation as a medicine and food in pulmonary and other wasting diseases, where its highly nutritive properties give it great value. The Norwegians give cods' heads, mixed with marine plants, to their cows to increase the yield of milk. The Icelanders give the bones to their cattle and in Kamchatka the dogs are fed on them, while in the icy wastes, destitute of trees, they are frequently dried and used as fuel.—London Answers.

COMING EVENTS.

City Council meets on the second Monday in each month. James Paton, Mayor W. W. Clarke, City Clerk.

Next regular meeting Lodge Prince Edward S. O. E. Tuesday, Oct. 9th 8 o'clock. Red Rose Degree. Initiation.
