Dinner Marks Opening Of Dehydration Plant

A dinner was held at the Clifton Hotel, Summerside, for the directors of Island Foods Inc. and a number of guests to mark the official opening of the dehydration plant.

Dr. Edt explained how the dehydrated food is made. He said that Mr. Scates was reputed to have come to Ottawa and said that he had a fertilizer business and a farm but now he had a new business to start.

He referred to the history of dehydration and said it was used in the last war. Since that time, however, our information has been that it is a food problem with reference to transportation and its use in the military.

Mr. Scates in a short speech, referred to this function as indicating the official opening of the plant. He mentioned the efforts of Premier Campbell in being responsible for bringing this plant to the Island.

Mr. Allan, Col. Full and his associates. He felt sure that the guarantees from the government would not be taken by the promoters as an excuse to let the plant rather as a challenge to make it a financial success.

Mr. Donald Baker, president of the Summerside Board of Trade, extended the greetings of the body. Mr. Scates then introduced the principal speaker of the evening, Dr. C. C. Edt who is assistant in charge, Fruit Products Division, Central Experimental Farm, Ottawa.
