Five Passengers Die In Sinking Steamer

ST. JOHN, N.B., Oct. 23.—The St. John river again took its toll of life from among those who venture upon its waters when five persons were drowned in the river steamer Dream which foundered near the Mistake off the mouth of the Belleisle. Three men and two women passengers were the victims. The crew of four and two passengers were rescued after more than an hour's fight with water, tide and wind, during which time empty oil barrels and other freight were used as improvised lifebuoys.

When a reporter visited the scene two hours after the disaster, all that could be seen was the jolly boat riding partially submerged and still attached to the davits of the steamer, which sunk in about thirty feet of water. Apparently the steamer was almost upright on her bottom and 100 yards out from the shore.

After the Dream first canted survivors said that it was not ten minutes before she was out of sight. Those who were lost were caught below decks and had no chance of getting clear.

The missing are: Medley Dykeman, Lower James; Mrs. Medley Dykeman, Lower James; Mrs. Jefferson Dykeman, Upper James; E. J. Nelson, Hibernia; Hudson McIntyre (colored) Queenstown.

The rescued were: Captain Chesley McLain, St. John; Merrit Williams, engineer, St. John; Justus Ganong, purser, St. John; Brad Hawkes, fireman, St. John; Jefferson Dykeman, Upper James; George Pierce, St. John.

Must Wipe of Railway Debts

CALGARY, Alta., Oct. 23.—"Before the Canadian National Railways can ever hope to be in a position of showing a profit on operations, the huge accumulation of debt contracted in past years will have to be wiped out, in other words, the new board of directors must have a clean book to start with."

Such was the opinion expressed by Mr. E. R. Decary of Montreal, who with several co-directors and officials of the Canadian National Railways paid a brief visit here yesterday.

Mr. Decary was inclined to look to the future with confidence as operations of the G. T. & C. N. R. had shown marked improvement. "The people should forget the money that has been sunk, no man in the world could possibly show successful results with the amount of capital invested in these railroads."

MAN, WIFE AND DOG ARE RESCUED FROM SCHOONER IN LAKE HURON

DETROIT, Mich., Oct. 23.—Bobbing up and down on huge waves created by the north-east gale that swept the upper lakes and rivers all day yesterday, the skipper of the big lake freighter, Leonard B. Miller, discerned distress signals flying from a 40-foot schooner that lay in the trough of the seas far out in Lake Huron.

By careful maneuvering the freighter was brought about and worked up to within hailing distance of the smaller craft. On it was Albert Moore, his wife and a Great Dane dog. At imminent risk of swamping the little schooner, the Miller lay to, and a rope ladder was dropped down the side, as the seas were too rough to permit of the launching of a life boat. Mrs. Moore was first to reach the life-saving rope. Moore, however, refused to leave until his dog was safe, so the crew made a lifting carriage from a piece of canvas and the canine was taken aboard. Moore followed, and the schooner was left to drift.

The story related by Moore was that he left Aux Sable early Tuesday morning believing it safe to cross Saginaw Bay. It was the intention to sail to Detroit, where the Moores planned to spend the winter. But the breezes turned to a gale and soon the little 40-foot schooner was in difficulty. All the sails were cut away, but still the seas continued to beat over the boat. Then two lifeboats were cast off as was also a small canoe. Meanwhile the boat was being hurled out into the middle of Lake Huron. Water began to pour in at the stern. Then while Mrs. Moore grasped the tiller and tried to avoid heavy seas, her husband worked feverishly with the hand pump in an effort to keep the craft above the water.

When it seemed as though death was just ahead, the freighter Miller loomed up in answer to the signals of distress that Moore had hoisted. The couple were landed here today.

ARMING IN AUSTRIA FOR CIVIL WARFARE

VIENNA, Oct. 23.—Austrian capitalists are arming for civil war, says the Arbeiter Zeitung today, commenting on an alleged confidential circular issued to the members of the Austrian Industrial Association by Leykam Jostfal, a big industrial concern, which in Austria ranks on the same plan as the interests of Hugo Stinnes in Germany. The circular protests against a tax of two per cent. on payroll for the men of the concern's private gendarmerie. The Social Democratic steering committee at a special session passed a resolution to provide immediately for the arming of the proletariat on the grounds that Bargaese organizations are armed.

THE AGE OF DEATH

One quarter of the people on the earth die before the ages of six, one half before the age of sixteen and only about one person of each 100 born lives to the age of sixty five.

PHOSPHORESCENT LIGHT

Often has the ocean traveller remarked the greenish light which follows in the wake of his vessel. This is one of Nature's fireworks displays. She rejoices in light, and has given to many of her humblest creatures the power of creating it. On land we have the glow-worm and the firefly with their brilliant torches. The creatures that illuminate the summer sea are not fish, but they are tiny beasts which are almost invisible to the naked eye. Millions of them, each giving out a tiny point of light, make the waters glow as if countless electric lamps were burning beneath them. Almost all sea creatures possess this wonderful power to some degree. It is caused by the presence, in their bodies of phosphorus, the substance which is used for making matches. If a box of matches is opened in the dark, a similar lurid glow may be perceived, coming from the head of each.

Red Pepper Heat Stops Backache

The heat of red pepper takes the "ouch" from a sore, lame back. It can not hurt you, and it certainly ends the torture at once.

When you are suffering so you can hardly get around, just try Red Pepper Rub, and you will have the quickest relief known. Nothing has such concentrated, penetrating heat as red peppers.

Just as soon as you apply Red Pepper Rub you will feel the tingling heat. In three minutes it warms the sore spot through and through. Pain and soreness are gone.

Ask any druggist for a jar of Rowles Red Pepper Rub. Be sure to get the genuine, with the name Rowles on each package.

OPEN NOSTRILS! END A COLD OR CATARRH

Count fifty! Your cold in head or catarrh disappears. Your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more sneezing, hawking, mucous discharge, dryness or headache; no struggling for breath at night.

Get a small bottle of Ely's Cream Balm from your druggist and apply a little of this fragrant antiseptic cream in your nostrils. It penetrates through every air passage of the head, soothing and healing the swollen or inflamed mucous membrane, giving you instant relief. Head colds and catarrh yield like magic. Don't stay stuffed-up and miserable. Relief is sure.

Must Wipe of Railway Debts

CALGARY, Alta., Oct. 23.—"Before the Canadian National Railways can ever hope to be in a position of showing a profit on operations, the huge accumulation of debt contracted in past years will have to be wiped out, in other words, the new board of directors must have a clean book to start with."

Such was the opinion expressed by Mr. E. R. Decary of Montreal, who with several co-directors and officials of the Canadian National Railways paid a brief visit here yesterday.

Mr. Decary was inclined to look to the future with confidence as operations of the G. T. & C. N. R. had shown marked improvement. "The people should forget the money that has been sunk, no man in the world could possibly show successful results with the amount of capital invested in these railroads."

HERE'S A NEW ONE—FLIM FLAM GAME

TORONTO, Oct. 23.—Something new in flim flam games has been shown in the reports to the police from several firms of attempts to pass worthless checks.

The scheme is to ransack letter boxes in apartment houses, taking away the letter containing bills, personal letters were left intact. Afterwards the culprits present the bills to the firm to whom the accounts are owed and offer to pay with a check from which there would be considerable change.

Last week one apartment owner was asked by a plumbing firm on Queen street west, if he had authorized anyone to pay his bill. He replied that he had never received any bill, and so he had told no one to pay it. The plumbing firm then stated that, on the previous day, a man had come to the office with a bill. He said he had been authorized to pay it in the name of the person it was made out to, and offered a \$60 check. The change after the bill was paid would amount to \$40. The firm became suspicious and told him to return the next day. He never came back.

CANTEEN FUND GRANT FOR VETS IN NORTH

COBALT, Oct. 23.—Stressing the fact that immediate steps are necessary if the families of returned soldiers burned out in the recent fires are not to suffer extreme hardship, W. C. Ferris, secretary of the Cobalt G.W.V.A., has written to C. Grant McNeil, Dominion secretary of the organization, urging that the chairman of the Royal Commission charged with the administration of the profits of canteen funds be asked to take "special and speedy action to legalize the distribution of at least part of the fund," for the benefit of the refugees who served with the C.I.E.F. He points to the precedent established in the unemployment crisis two winters ago, when the different returned soldier organizations were given grants from the funds.

A DEAR FRIEND

We were taking the fresh air children back to the city. At the last minute we missed small Annie. We made a hurried search and found her at last on the floor beside her bed, with her face buried in the pillow.

"What's the matter, Annie?" we asked. "What are you crying for?"

"I'm not crying," was the indignant reply. "I was just kissing my bed good-by, cause I don't know when I'll ever see another." — Youth's Companion.

Very Temperate.

"He was very temperate. He got drunk only once a week," remarked a witness to a Liverpool coroner.

Makes Tea and Coffee Famous

HOUSEWIVES find that Carnation Milk is the secret of many a famous cup of tea or coffee. Carnation adds a flavor you can't get any other way. Makes wonderful cocoa and is delicious as a milk drink—add water and serve ice cold.

Carnation Milk is good because it is pure, rich milk from fine dairy cows; evaporated to the consistency of cream; then sealed in containers and sterilized. No sugar or preservatives in Carnation—just "whole" milk.

So handy, too. You buy it with your groceries and keep it always ready. Order several tall (16 oz.) cans now—or order a case of 48 cans. Carnation Milk recipes are famous for their goodness. Write for your copy of the beautifully illustrated recipe book containing 100 new ones. It's free. Try this recipe.

CARNATION AS CREAM IN COFFEE—To give your cup of coffee an appetizing flavor with golden brown color—use Carnation undiluted as it comes from the container. A teaspoonful is enough—use more if desired.

CARNATION TEA—Three parts hot tea. One part Carnation Milk. Sweeten to taste. A most delicious beverage.
