Jews begin new Life behind high Wall in Warsaw

BERLIN, Nov. 25.—(AP)—Approximately 600,000 Jews will begin tomorrow a new life behind an eight-foot concrete wall built by Germans to enclose the ghetto district of Warsaw, dispatches from the former Polish capital reported tonight.

By German decree, all Jews in Warsaw have been required to take up residence in the ghetto, which lies in the central district of the city, and it has become overcrowded, with as many as seven persons living in one room in some buildings.

The Germans built the wall last winter, claiming the action was not anti-Semitic but simply a health measure to protect Poles and Jews alike from the pestilences likely to follow total war.

They left its entrances open—open to the entrance of all persons who wish to enter or leave must have a special pass. This applies also to any Gentile Pole wishing to enter the ghetto temporarily.

The Jews have been busy taking their belongings and their business properties within the Warsaw wall.

The German decree brought about a wave of frantic purchases outside the ghetto in an effort to stock up on things which may not be procured within.

The wall surrounds 100 or more city blocks and closes off 200 streets and even street car lines.

BRITISH LABOR

(Continued from page 1)

"How long we can continue, depends not merely upon our will but also upon the will to hit back. The only thing the Nazis understand is force. It is our duty to make them suffer."

He said the first line of the British labor party are to prosecute the fight with "flexible resolve" safeguarding the rights of the citizen and widening the range of the government.

Appealing for faster production of war supplies in the United States, Sir Walter said: "American labor can conquer the Nazis without firing a shot. I want you to make your worksheds the source of defence for all democracy."

Although British labor in the emergency has relinquished the right to strike, Sir Walter said it is determined to prevent bureaucracy.

Denying this any aristocracy, whether of birth or wealth, has the right to rule, Sir Walter declared: "In our country we have used the instrument of taxation to effect a very extensive redistribution of the wealth of the country. We have succeeded in putting the burden on the backs of these the broadest to bear it."

"Out of every \$5 of income of the richest people of our country \$4.37 is taken in taxation," he said.

Fall Of Main

ly fortified Dodecanese as soon as the British naval blockade weakened the islands' bases, according to Greek informants said casualties in both the Greek and Italian armies thus far have been comparatively light because of the rarity of large-scale battles.

Since the fighting started the Greeks have taken around 6,000 Italian prisoners, a neutral military observer estimated. About 1,000 arrived today in Athens.

Walter Tucker (Lib. Rostern) heartily endorsed Mr. Hlynka's protest against disruptive statements.

One of his constituents, a Canadian of Ukrainian origin, had been one of the men lost in the sinking of the Canadian destroyer Fraser off Bordeaux, France, last June.

June. In the same issue of the Saskatchewan paper carrying the announcement of this youth's death was the Parker statement that "white" Europeans were not "white."

He cited a tendency among English-speaking Canadians outside Quebec grudgingly to recognize the rights of French-speaking Canadians under the Confederation agreement.

Canada was a bi-lingual country. There would not be real Canadian unity if attempts were made to whittle down and back out from the terms of the Confederation agreement.

Mr. Tucker urged that the banking and commerce committee be given the duty of reviewing Canada's war finances and that the agriculture committee be given the wheat problem to study.

Gordon Fraser (Con. Peterborough West) joined with previous speakers in urging that free transportation privileges be given to soldiers on leave.

W. G. Weir (Lib.-Prog. Macdonald) said he believed the Throne Speech debate was "a little too formal" and that much good would be gained by referring major issues to special or standing committees of the House. There they could be discussed informally, witnesses called and examined, conclusions reached and recommendations made.

Mr. E. McGarry (Lib. Inverness-Richmond) commended the Government for its vigilance and promptness in dealing with fifth columnists but he complained against the "mal-distribution" of wartime industrial activity. However, he recognized such industries had been located because of the economic and strategic importance of particular sites. He urged that some military camps, at least, be placed in this area.

HAD LONG RECORD

LONDON.—(CP)—It is recalled that Edward Charles Norman Jeffries, 40, killed in his first military action, had been in the air for several Canadian commercial services and had more than 5,000 flying hours to his credit.

May be Labor

(Continued from page 1)

Mr. Hlynka cited three examples of statements which he said had this effect. He urged that the Defence of Canada Regulations should be applied to persons deliberately making malicious statements which tended to cause disunity.

He complained against the tone of a speech by R. L. Maitland, K. C., of Vancouver, British Columbia Conservative leader, in the Throne Speech debate in the British Columbia Legislature. It threw unfair suspicion on Canadians of Anglo-Saxon extraction, Hlynka said.

His second complaint was against the wording of an official notice which said 500 additional constables being recruited by the Royal Canadian Mounted Police required to be of "British racial origin." This was being used by minor officials as a basis for racial discrimination, by applying the phrase in its narrowest sense.

Finally, he complained against a published suggestion by G. W. Parker, Saskatchewan relief administrator, that there should be two scales of relief, one for central Europeans and one for "white people."

In such a crucial time for the nation, the British flag to all Canadians stood for liberty, justice and fair play, uniting Canadians in the common cause.

Walter Tucker (Lib. Rostern) heartily endorsed Mr. Hlynka's protest against disruptive statements.

One of his constituents, a Canadian of Ukrainian origin, had been one of the men lost in the sinking of the Canadian destroyer Fraser off Bordeaux, France, last June.

SILVER FOX RANGERS!

Through good times and bad the PRINCE EDWARD ISLAND FUR POOL LIMITED maintains the same solid, sound and responsible business organization which has enjoyed the CONFIDENCE

of so many ranchers in the past.

— Business Integrity —
— Financial Responsibility —
— Years of Experience —

This combination provides silver fox ranchers with a marketing service which last season secured for its patrons slightly over \$20.00 in average per pelt (including all low grades, pieces and culls) this being 10% above the average price received the previous year. Each year our average return for pelts has been higher than through any other channel.

To maintain this high standard we continue to retain the same PERMANENT management and staff who have always fully appreciated their responsibility to each patron. No expense is spared to place our offerings on the most profitable markets and last season 95% of our entire shipments were to London where through the facilities of the Auction Houses there and the activity of our London representative, who has had over twenty years experience in the international fur trade, we have received net prices substantially above those available in other markets.

Since organized in 1930 over 90% of our volume has been received from Maritime ranchers—75% from Prince Edward Island ranchers where we are best known.

Write for Marketing Plans, Free Tags, Bags, etc. Transportation charges and full insurance coverage paid by us on all shipments to us.

\$4,000 fire At Summerside

Citizens of Summerside were awakened about five o'clock yesterday morning for a fire which broke out in the old business building on Water Street. The fire which appeared to have started in the upper floor had gained considerable headway before it was discovered.

The firemen had the fire under control in about an hour. The building, a fire resisting roof which no doubt was the means of saving the adjoining buildings.

The building which is one of the oldest in Summerside and one of the few wooden structures remaining on Water Street, was occupied on the ground floor by M. L. Frank MacKenzie who has a dry goods store and tailoring establishment; and Mr. Harry F. Lee (tinmith). Upstairs was the office of the Herald newspaper, a beauty parlour run by Miss Huestis, and a portion of the back was used by the International Fox Feeds Ltd.

It was not known how the fire started.

Mr. MacKenzie who had a large stock of ladies and gentlemen's clothing is a very heavy loser as he had no insurance. The building which was owned by R. T. Holman Ltd., was partly covered by insurance. It is thought to be a total loss as the interior is badly gutted. The top floor is burned out and the ground floor badly damaged by fire, smoke and water.

There was a serious interruption of the electric light system in that section of the town on account of the fire. The lawyers offices of Heath Strong, K. C., Mr. H. S. Hinton and Edward Arnett were in considerable danger.—S.

Last night it was learned the building was valued at approximately \$4,000. It was considered a total loss in addition to the goods owned by those occupying the building.

From older residents of the town it was learned the building was built before 1877. At that time it was used as a post office. Later it housed MacDonald's livery stable. Since then various business establishments have occupied it.

Ice Storm

Gives Accounts

Bill Wilson, of the Amarillo Globe-News staff, telephoned the following account of the Amarillo ice storm to the Associated Press from Plainview, after an 80-mile drive over ice-covered highways from the Texas Panhandle city.

AMARILLO, Tex., Nov. 25.—(AP)—We are ice bound for at least 50 miles in all directions. There have been without electricity since 10 o'clock Sunday morning. We slip and slide on ice-coated sidewalks and steps, but life goes on at an amazingly normal pace despite the peculiar weather which has cloaked us in a frozen sheath.

The city has been without water since 6 o'clock Sunday afternoon. There are 10,000,000 gallons of water in underground tanks, but this can not be pumped into the main because there is no electricity.

There is only water enough for 15 minutes in case of a normal fire. The fire department answered at least 20 minor fire calls Sunday. A new power line is being laid directly from the plant to the city's water plant.

Mayor Ross D. Rogers said everything else was being made secondary to getting the water started.

At the Capitol, meanwhile, Senator Gerald Nye (Rep.-N.D.) introduced a resolution calling for an investigation by the Senate Foreign Relations committee of British and Canadian interests in the United States, including British property holdings.

Nye declared that he believed the groundwork is being laid to "open avenues of credit to Great Britain" and said that "we should jealously guard against taking that step until it has been definitely ascertained that Great Britain is coming to the end of her financial rope."

He expressed the belief that an investigation would disclose this is not the case and that the British have now just begun to draw on their resources here.

Dominion Bank's Net profit up

TORONTO, Nov. 25.—(CP)—After allowing for Dominion and provincial taxes, amounting to \$370,165, an increase of \$150,930 from the previous year, net profit of \$658,788 is reported by the Dominion Bank for the year ended October 31, 1940, as compared with \$801,290 for the previous fiscal period of 10 months.

The bank reports a strong cash position, substantially higher commercial loans with a consequent reduction of investments in long-term securities, slightly lower deposits due to subscriptions to Dominion war loans and improvement in earnings.

Dividends absorbed \$700,000, officers' pension fund \$85,000 and the write-off of bank premises was \$150,000, leaving \$23,788 to be added to the profit and loss, increasing the credit balance to \$861,189 compared with \$837,401 at October 31, 1939.

Deposits by the public, not bearing interest, show an increase of \$3,097,000 to \$41,075,000 and deposits by the public bearing interest a decrease of \$4,713,000 to \$80,622,000.

of extending financial assistance without revising the Johnson and Neutrality Acts, which bar credits to a debt defaulter or a belligerent. Hull replied that he would not undertake to say there was any agreement without action by Congress in some approving manner.

"The Secretary of State said the first step in meeting the problem would be executive conferences to determine the basic policy of the question before there was discussion of specific methods."

At the Capitol, meanwhile, Senator Gerald Nye (Rep.-N.D.) introduced a resolution calling for an investigation by the Senate Foreign Relations committee of British and Canadian interests in the United States, including British property holdings.
