Gays' Plants

We make a specialty of growing vegetable and flower plants, as well as carrying on the most extensive market business in the Maritime Provinces.

For several years, we have devoted our whole time personally to the home garden, Mr. Campbell taking charge of the retail market, and we are in a better position than ever before, to attend to our large number of customers, at home and abroad. This year we have discarded a number of flower plants, not popular, and unsalable, and below we give a list of the plants most called for.

Annual bedding flower plants—
Aster, Phlox, Verbena, Stocks, Petunia, Zinnia, Balsam, Portulaca, Nasturtium (Tall and dwarf,) Mignonette, Alyssum, Lobelia, Golden Weather Snapdraggon ALL THE ABOVE ANNUALS 15c PER DOZ.

Seedling Pansies, Salvia, (Deep Scarlet) very fine. Seedling Dahlias and Seedling Carnations 20c per doz. Double dahlias, 8c each.

Perennials Wintered Over. (Large Clump plants) Pansy, Daisy, Carnations, Dianthus, Sweet William, Forgetmenot and Hollyhocks 5c each, 50c per doz.

Vegetable Plants—Extra early transplanted cabbage plants 50c per hundred. Late cabbage plants 12c per hundred. (Ready about 15th June.

Cauliflower and Celery 75c per hundred. Late tomato plants 20c per doz. Extra early tomato plants 40c per doz. Cucumber 15c per doz. Pumpkin and squash 20 per doz.

We mail annuals postage free, but perrenials add 1c each extra.

Late Cabbage plants 35c extra per hundred, transplanted early cabbage cauliflower and celery 10c must be added per hundred for postage. Late tomato plants 3c per doz. extra for postage, and very early tomato plants 6c per doz. must be added for postage. Large orders should go by express or freight.

Our Charlottetown market is open every day from 8 to 6 o'clock. It will be to the interest of customers to call there when at all convenient and personally select their plants. Flowers have been so much improved of late years that the old time stock would not be recognized. Please remember to send cash with orders, and write plainly, sign name and address. Every season we receive a number of orders without a signature.

FOR FARMERS.

The College of Agriculture of Cornell University has recently issued a Bulletin on an Agricultural Survey of some counties of New York State. It is perhaps the most complete census-taking of its kind that has ever been made. Trained men were sent information on the value of land, to every farm in each county to get machinery, stock on hand, on a certain date. The acreage and yield of each crop, the amounts sold, and the receipts. The expenses for labor, seed, feed, fertilizer, &c., &c. The information so obtained was most complete and the results are of great interest. 749 farms were examined in four townships. On the average the owner received $423 as payment for his personal labor and management for a year. The common wages for hired men in these townships was $300 to $350 with house rent, garden wood and milk. Some of the better men receive more. Tables are given showing the labour income of all 749. Roughly speaking, one third of the owners make less than hired men, one third make about the same and one third make more. There are 180 pages in the Bulletin, every one of which contains valuable and interesting information.

WAS TROUBLED WITH

Weakness and Palpitation OF THE HEART.

Through one cause or another a large majority of people are troubled, more or less, with some form of heart trouble.

Little attention is paid to the slight weakness of the heart, but when it starts to beat irregularly or intermittently palpitate and throb, skip beats, beat fast for a time, then so slow as to seem almost to stop, then it causes great anxiety and alarm.

To all such sufferers Milburn's Heart and Nerve Pills can and will give prompt and permanent relief.

They do this by their restorative influence on every organ and tissue of the body.

Mrs. John J. Downey, New Glasgow, N.S., writes:—"Just a few lines to let you know what your Milburn's Heart and Nerve Pills have done for me. I was troubled with weakness and palpitation of the heart, would have severe choking spells, and could scarcely lie down at all. I tried many remedies, but got none to answer my case like your Pills. I can recommend them highly to all having heart or nerve troubles."

BAKED CREAM TOAST.

Toast the required number of slices of two-day-old bread, dip quickly in hot salt water (one teaspoonful to a pint of water), butter, and lay in a flat pan, then pour a little rich milk over it and place in a hot oven for about five minutes. Take up on a platter and pour two tablespoonfulls of cream on each slice, place the platter in the oven just long enough to heat thru and then serve at once. Slices of crisp bacon may be placed around the toast. This is an excellent breakfast dish.

FRUIT SALAD.

Soak half box of gelatine in a generous pint of water, add the juice of two lemons and two cups of sugar. Bring to a boil and strain. When cool pour over two sliced oranges, two bannanas, half cup of cherries, half cup of English walnuts (meats) as nearly whole as possible. Stand on the ice till it sets. Serve with whipped cream.

THE BUD MOTH SPRAY.

The bud moth is one of the most destructive insect pests of the orchard on Prince Edward Island. All farmers having either a home or commercial orchard should take the necessary precautions to guard against insect.

The larvae of the Bud Moth is a small drak brown catterpillar about one fourth of an inch in length. It lives through the winter in a small silken case concealed in the crevices of the twigs. As the buds are opening in the spring, it emerges and begins feeding on the young and tender leaves. They injure both the large and small trees, particularly the latter. They destroy the terminal buds on those young trees. The future shape of these may be seriously affected.

Since the larvae start feeding in early spring, the proper time to spray is just as the leaf buds are opening. The spray to use at this time is lime sulphur wash (1—32) with three lbs. of lead arsenate to forty gallons.

In most of the sections of the Island the buds are now at the proper stage of development for spraying. All orchardists desiring a healthy condition of trees and fruit, should not delay this very important operation any longer. It will be too late when the buds are more than half opened.

What's in this cigarette?

IT'S only right that you should know. A man particular about what he eats is usually particular about what he smokes.

Rigid cleanliness in the Tuckett factory and sheer quality in Tuckett tobacco make for the strict purity of the Tuckett cigarette. From noted plantations comes the choice Virginia tobacco—the ripe, brown leaves of the crop, full of flavor and fragrance. These are matured and mellowed to develop every trace of latent flavor and blended in precise proportions according to a time-tried formula.

Cigarette makers whose skill and deftness is a result of many years' experience impart to

Tuckett's Cigarettes

the final qualities essential to the complete enjoyment of a thoroughly luxurious and satisfying smoke.

Three Varieties:
Tuckett's Club Virginias, 15c. for 10
Tuckett's Special Turkish, 15c. for 10
Tuckett's T. & B., - - - 10c. for 10

It is significant of Tuckett quality that these cigarettes are sold by high class dealers, hotels, grills and clubs whose patrons demand a high class cigarette.
