

Except in the bottle—No! You cannot get real Boveril except in the Boveril bottle. Boveril is so strong that it cannot possibly be manufactured in cheap cubes. It takes the beef of an entire ox to make less than two dozen bottles of Boveril. Add Boveril to your cookery more nourishing and to save butchers' bills. But it must be Boveril.

BASIC SLAG

(Sometimes known as Thomas Phosphate Powder)

The two sources of Phosphoric Acid, the element of fertility lacking to the greatest extent in the cultivated soils of the Maritime Provinces, are Basic Slag and Acid Phosphate, or Superphosphate. These two Fertilizers both contain from 250 to 300 lbs. of available Phosphoric Acid to the ton.

BASIC SLAG

Contains in addition to the Phosphoric Acid from 800 to 1000 lbs of Lime. In the form in which this Lime exists it does not burn up the humus in the soil like burnt Lime. It is calculated that 95 p.c. of the soils of the Maritime Provinces are sour and the effect of an application of Basic Slag is to correct this acidity.

BASIC SLAG

In addition to the Phosphoric Acid and Lime contained in Basic Slag there is also present a quantity of iron, the effect of which is to aid bacterial growth in the soil, a matter of the highest importance.

BASIC SLAG

Also supplies magnesia and manganese, which in conjunction with the other elements present, especially Lime, will prove a great aid to the farmer in rendering available the crude potash contained in the soil and making him independent of potash which in former times was supplied at enormous cost from Germany.

BASIC SLAG

Is the only phosphatic fertilizer in which all these valuable elements are combined. Do not overlook the fact that when you buy a ton of Basic Slag you get as much available Phosphoric acid to the ton as in any other fertilizer and in addition you have the benefits of the other elements referred to herein.

Prof. Cumming of the Agricultural College, Truro

In the annual report of the Dept. of Agriculture for Nova Scotia, for year 1914, writes, referring to their experiments in connection with commercial fertilizers as follows: "In our experience with roots the best results were obtained from Phosphoric Acid, either in the form of Acid Phosphate, or Sydney Basic Slag. The addition of Muriate of Potash did not materially increase the yield. The heaviest yields of mangels were in the plots treated with Slag instead of Acid Phosphate. In the turnip fields Basic Slag gave better results than Acid Phosphate. Where potash was used on this land there was no advantage"

MORE SCHOOL ROOM.—On account of the increased attendance of pupils at Queen Square School it has been found necessary to provide an additional room and the School Board has fitted up the rooms in the building formerly used as office and Board room. This room, which is large and airy, is in every way adapted for the purpose, and the School Board has spared no pains to put it in first class condition. The walls and wood-work are nicely painted in suitable colours and with entirely new furniture the room is certainly in every way a model room. Miss Pennessy and her bright class of boys are the happy occupants of this new room which was opened yesterday morning.

DREDGING.—The Dominion Government Dredge No. 9, Captain McCarthy, is busily engaged in dredging on the West side of the railway wharf in preparation for the coming of the Car Ferry steamer, "Prince Edward Island." The dredge began operations about the fifteenth of December last. The work is somewhat difficult owing to the depth of water required by the new boat and latterly owing to the formation of lily which somewhat retards the work. On Saturday the work was carried on with the thermometer at two degrees below zero, some of the men being slightly frost-bitten. The dredge will remain in Georgetown harbor for the winter.

BOARD OF TRADE.—The annual meeting of the Summerside Board of Trade was held in the Board of Trade room on Monday evening. Attendance was not as large as might have been wished but a good deal of important business was put through. Considerable correspondence was read and disposed of, including a resolution re National prohibition and one from Mr. G. B. B. to the Coastwise Shipping, both of which were adopted. Reports from different committees were received and discussed. The reading of the President's address and the election of officials were set down for an adjourned meeting on Monday night.

WEDDING BELLS.—The Amherst News says Mr. Leighton Stewart, Mining Engineer formerly of Summerside, P. E. I., now of Sanitago, Chile, South America, and Helen M. Christie, only daughter of Mr. and Mrs. J. A. Christie of Amherst, N. S., were united in marriage Saturday morning at ten-thirty at the home of the bride, 3 Adelaide Street. The ceremony was performed by Rev. C. W. Rose in the presence of the immediate friends and relatives. The wedding march was played by Mrs. Emily Christie and the floor was opened by Miss Jean McLaughlin, cousin of the bride. After the ceremony a dainty luncheon was served, and a very pleasant social hour was spent with the bride and groom. The bride looked charming in a handsome navy blue costume with a pink tulle shawl, and a very chic velvet hat. She carried an unusually beautiful shower bouquet of carnations and lilies of the valley. Among the out of town guests were Mrs. Henry Reid, Sackville, aunt of the bride, and Mr. Stewart of Summerside, father of the groom. Mr. and Mrs. Stewart left at noon on the C. P. R. for Chilliwack, New York, accompanied by the very best wishes of many friends. Mrs. Stewart was one of Amherst's most popular young ladies and her departure from town will be much regretted. The New Scotian wishes the best wishes for future happiness in their new home.

That is the statement made by Miss Gertrude M. Neman, an estimable young lady living here. She is so overjoyed at her recovery that she wants all suffering women to know how she found her cure.

"I had a cold to start with," Miss Newman continues, "and then things just seemed to go from bad to worse. My back ached, I had cramps in my muscles, and I suffered from headaches. My sleep was broken and unrefreshing, my eyes were puffed and swollen and I perspired freely irritable and in the mornings I had a bitter taste in my mouth.

THE POTATO MARKET.—The following references to the potato market in St. John and elsewhere will be of general interest in this Province. Potatoes are still going up and are a market phrase. In Boston sales are being made by retail markets and grocery stores at 50 cents a peck or at about \$5 a barrel. The restaurants and hotels in Boston are planning to make an extra charge for potatoes. In St. John the wholesale prices range from \$2.50 to \$3 a barrel, according to quality. At retail they are selling here at from \$1. to \$3.50 a barrel in small quantities. There is every indication of a further rise in this city. Woodstock quotes potatoes at \$2.75 a barrel at first hands. In Westmorland and Kent counties potatoes are scarce and many of them are of inferior quality. At Shediac the prevailing prices are \$1.50 and upwards. Prices in Cuba are still advancing.

WEDDING BELLS.—A very interesting took place at Pugwash Junction, N.S., on Jan. 12th inst., when Miss Isabella Ross of Kinross, P.E.I., was united in marriage to Mr. Ansley Goodwin, evangelist, residing at that place. Miss Ross is a graduate nurse of P.E.I. Hospital and a sister of Dr. A. Ross, now in military service in England, and well known in this city. The marriage, which took place in the Gospel Hall, was preceded by the singing of the hymn, "All hail the power of Jesus name," and prayer by Mr. W. N. Brennan, who for many years has been a true and devoted fellow-labourer with Mr. Goodwin. The ceremony was performed by Mr. Puddington, pastor of the Pugwash Baptist Church. The happy couple then repaired to their new home, where supper was served to many of their friends in a very enjoyable manner spent in a manner suitable to the character of the esteemed evangelist and his worthy bride. At the close of the evening Mr. Goodwin in a short speech, thanked their many friends for their hearty Christian fellowship and also for their approval of his relationship. After which prayer was offered and the company joyfully separated. The bride was very neatly attired in a travelling suit of dark grey with hat to match. Mr. and Mrs. Goodwin were the recipients of many useful and valuable presents. The Guardian joins with the many home relatives and friends in extending heartiest congratulations.
