

The Central Guardian

ROYAL YEAST

Has been Canada's favorite yeast for over a quarter of a century. Bread baked with Royal Yeast will keep fresh and moist longer than that made with any other, so that a full week's supply can easily be made at one baking, and the loaf will be just as good as the first.

How Thin People Can Put on Flesh

Thin men and women—that big, hearty, filling dinner you ate last night. What became of all the fat-producing nourishment it contained? You haven't gained in eight one ounce. That food passed from your body like unburned coal through an open grate. The material was there, but your food isn't work and stick, and the plain truth is you hardly get enough nourishment from your meals to pay for the cost of cooking. This is true of this folks the world over. Your nutritive organs, your functions of assimilation, are probably sadly out of gear and need reconstruction. Cut out the foolish foods and funny sawdust diets. Cut out everything but the meats you are eating and eat with every one of those single Sargol tablets. In two weeks note the difference. Let the scales be the judge. Five to eight good solid pounds of healthy, "staythere" fat may be the net result. Sargol aims to change weak stagnant blood with millions of fresh new red blood corpuscles—to give the blood the carrying power to deliver every ounce of fat-making material in your food to every part of your body. Sargol, in mixes with your food, to prepare it for the blood in an easily assimilated form. Thin people tell how they have gained all the way from 10 to 25 pounds a month while taking Sargol and say that the new flesh stays put. Sargol tablets are a careful combination of six of the best assimilative elements known to chemistry. They come in 40 tablets to a package, are pleasant, harmless and inexpensive, and all other good druggists in this vicinity sell them subject to an absolute guarantee of weight increase or money back as found in every package.

If you find a druggist who is unable to supply you with Sargol send \$1.00 money order or registered letter to the National Laboratories, 74 St. Antoine St., Montreal and a complete ten days treatment will be sent you postpaid in plain wrapper.

The only Cure for that "Moisture" on Your Piano

is to give the case a thorough treatment of our Magic Cream. This cream applied like shoe polish, is the only reliable piano cleaner and polisher we have ever found.

Magic Cream

is not heavy bodied nor greasy and gives a quick, long-lasting, mirror-like polish.

Good for furniture, picture frames and any fine wood too. A bottle .25c
