Brisker Note In Evidence At Local Market

The promise of fall in the air seemed to lend an air of urgency to the market yesterday, and a brisker note was in evidence.

Prices in all lines were similar to last week, and although the flower display was weaker, carnations were still on sale.

Never heard tell of such a season, according to Mrs. Johnston, proudly displaying a bushel and a half of red and green peppers and two bushels of cucumbers which she had just picked.

"And they say you can't even grow peppers on the island!"

"And the grapes are still out," she continues. "But it takes the first frost to lift the leaves before they ripen properly."

Mrs. Johnston also remarked that they had about 2,000 head of celery—"the biggest you ever saw"—which they were packing away in their dammy sack in storage.

Current prices included: Eggs, Grade A large 65c, pullets 50c; fowl 40c; chicken and duck 50c; green beans 18c; beef 18c; carrots (bunch) 10c; parsnips (bunch) 10c; corn 40-50c; cabbage and cauliflower 30c; pumpkins 5c; pipe tomatoes (lb) 15c; and basket \$1.75; celery 20c; Swiss chard 15c; green onions 10c; cranberries 30c.

Roast beef, pork, lamb and veal were again selling within the 32-50c range, and chops and steaks quoted at 50c.

Fresh cod 13c; salt cod 15c; salt herring 95c doz.; fillets 37c lb.; haddock 27c lb.; salmon 55c and halibut 59c lb.

"Aw, well," sighed our old friend Mrs. McNamara. "It's another open season, all right. But the colder it gets—the more they'll eat and the better for business!"

Blue Suit Said Basic Unit Of Man's Wardrobe

If you are thinking of buying a new suit, you can't go wrong selecting one in blue, opines a fashion expert. This is because blue is a color that is popular in all seasons, and it is a color that is flattering to all complexions.

It is a good job that a few remembered Bun's immortal words, "Remember, boys, this ain't no tea party."

Intramural football has been progressing. At the present time there is a three-way tie for first place. Frank Ledwell's Argos have five wins, as have Ebby Devine's Rockets. "Rusty" Callaghan's Wildcats have four wins and two draws. These three teams have a total of ten points each.

Quarterly exams are on Monday, Oct. 26 and on Tuesday, Nov. 2.

Duo Pianists Heard Here In Fine Recital

One of the finest of the many enjoyable concerts brought here by the Community Concert Association was given last night before a large and very appreciative audience.

THE WEEK at S. D. U.

Last Saturday about 7:15 a.m. a confident and high-spirited football team left St. Dunstan's for their game at Mt. Allison.

Another thing. Let's not wait till they set one of our goal lines before we tackle them, eh boys? There were some amazing tackles made by the Saints, but when the pile up was untangled, the ball just seemed to be over the line.

They must have thought we were great sports Time and again when they were plowing down the field, our boys would stand there and chew straws and give the ball-carrier encouraging slaps on the back as he went past. Oh I tell you it was a touching sight at times! If we had been proper gentlemen, we would have invited them out for tea and crumpets after the game. Ah well, we don't want to get hurt do we boys, and they do play so rough!

"Big Willy" MacDonald, captain of the team, kept trying to rally his forces by encouraging the boys and by plugging time and again for ten, fifteen, and twenty yards all over him. "Kiker" McIsaac, after suffering what looked at first to be a severe spine injury, came back to play a whole of a game on the wing. A boy that Mt. A. players spent a lot of time looking at from the ground was "Bum" Callaghan. "Bum" was bowling them over like tenpins. (You got MacLean that time, Bum!) Jimmy "I'm as tough as any goal post" Ayers broke up a lot of Mt. A. half line runs with some timely tackling.

It's a good job that a few remembered Bun's immortal words, "Remember, boys, this ain't no tea party."

Field Secretary Reviews Activities Of Girl Guides

The following report of the Field Secretary, Miss Barbara Jenkins, was submitted at Wednesday's annual meeting of the Provincial Girl Guides Association.

"Most of you are aware that a Field Secretary was appointed to the Guide Association last November, she resigned in March and I commenced duty in April. My report therefore is of activities from that time.

The work of a Field Secretary covers a very wide area and for your information will give a few details. First I think comes the organization of new companies, next assisting other companies in any other way that might be required and to promote renewed enthusiasm and interest.

Attending to the sale of literature and badges and stock at headquarters dealing with correspondence notices and general clerical work appearing in the Guide, writing up the news column and the issuing and editing of the Sign Post Magazine. The Field Secretary should be regarded as a General Information Bureau for the Guide Movement and Guides and Local Association should feel able to call on her for assistance and advice.

Imports Almost Nil

"Under existing conditions our imports from Newfoundland are almost nil but I am sure when Newfoundland joins Canada, that Prince Edward Island's share of our exports now on quota and under Dominion subsidy, such as cheese, eggs, butter, poultry, meat, etc. will flow freely into Newfoundland which should be a means of bringing down the high cost of living here.

"Prince Edward Island is a purely agricultural Province and a large exporter of products needed in Newfoundland. With our first-class steamship service between the two islands involving only two days sailing time, Prince Edward Island is the natural supplier of all Newfoundland needs in agricultural products which includes potatoes, vegetables, meat, eggs, all dairy products, canned goods, etc.

"Newfoundland is a mecca for sportsmen seeking trout, salmon fishing and hunting. Many more Newfoundlanders finally be spending their vacations in Newfoundland in the future and take advantage of this wonderful sport. This industry alone has untold possibilities for increased revenues for Newfoundland, when our people become conscious of its possibilities.

"For many years past, Prince Edward Island has enjoyed a large trade with Newfoundland and with our exporters paying strict attention to the quality of the goods which the people of Newfoundland are demanding more and more. The trade between our two islands is bound to increase in the future.

"When Newfoundland finally becomes Canada's tenth Province, Prince Edward Island, the smallest Province in our great Dominion, will be the first to extend across the sea a welcome hand of friendship."

dread too when he introduced the "Williams' Shift" in baseball. Just how this shift works nobody seems to know, but one of Chuck's lieutenants, namely "Pido" MacO'Connell, was seen on the football field Thursday afternoon, of all days, going through intricate maneuvers and drawing diagrams on the field of a smug look on his face, so I feel that it's only fair that the other teams in the league be warned to beware of the Kelly Shift.
