Below Is Reason Enough For Buying a Maxwell

Before buying look into the economy end—Bigger tires, two or three hundred pounds extra mean more gas—What does more gas and greater tire upkeep mean? Dollars and cents of course. The price is less than any other car of its class. Then buy at once—Quick delivery.

The run was made by a Maxwell Touring Car, identical with the stock car in every way. On November 22nd, 1915 the car started and on January 5th, 1916 the little wonder rolled back to the finish after covering 22,000 miles without stopping the engine. For 41 days and nights averaging more than 500 miles every 24 hours only stopping to replenish supplies did this car grind along. The engine never stopping once. The test not only beat its previous mark but beat the world's record made by a British car by 5,000 miles. Drivers relieved in relays of eight hours. Official observers were at stated periods. The old American record was first to fall, then came the European mark, and still the sturdy little Maxwell kept grinding on. Through rainstorms and mud, through California winter weather, still the Maxwell kept grinding off the miles. The test was then stopped and the car rolled home with the engine running perfectly and not a twist in the car anywhere. Representatives of the American Automobile Association conducted the terrible test.

RECRUITING IN QUEBEC

By Canadian Press

MONTREAL.—Major-General Lesard, who in conducting a recruiting campaign in Quebec Province, with Col. Blondin, and who was present at the meeting in Monument Nationale said: "If I have come to Quebec to help Colonel Blondin, it is with a view to rendering a service to the French-Canadian race to which I belong. I have no come to cast aspersions of apathy and cowardice on my compatriots. I feel confident their qualities of gallantry and energy have not deteriorated."

He questioned if those who represent the French-Canadian race have done their duty, in coming into close contact with the people and whether they have exercised themselves sufficiently to mould the opinion of the race, seeking to draw it away from its smaller individual interests, and to set its vision on the larger matters of its public obligations and its higher responsibilities.

Clergy Largely to Blame

The General complained that the lower clergy of the province have not lent an attentive ear to the voice of the higher episcopal authorities, so as to bring its message in regard to the duty of the French-Canadians at the present time to recruit to the race as a whole. He pointed out the grave responsibility the lower clergy assumed in putting a damper on the appeals of the higher hierarchy to its children. As far as he himself was concerned, he expected a more wholehearted co-operation from the clergy, in conformity with the great influence it exercises on the destinies of the French-Canadians. He might say the same thing about their leaders—those who were directing opinion upon Quebec.

MONTREAL.—"We must prove to the whole country that we are able and ready to do our part in sending men and subscribing munies for the war. We must show that we are in sympathy with those who have made such sacrifices in the war. It is our war and we have to do our duty." Thus stated Hon. Mr. Sevigny, Minister of Inland Revenue, during the course of a stirring address at the Liberal-Conservative rally in Monument National last night.

Quebec's participation in the war was thoroughly gone into by several speakers. The Separate School question, now being argued and which has been before the public for many months, was denounced as the machinations of the Liberal party. Controller Champagne, who spoke at some length on the question, declared that French-speaking residents of Ontario were not being ill-treated by Regulation 17, but if they would realize facts they would come to the conclusion that they were very fortunate when other provinces were considered.

When Hon. Mr. Sevigny rose to speak his reception was the most cordial. The speaker's first statements led to the effect that notwithstanding any or all accusations that had been hurled at him by the opposition, he felt he had done his duty. He had been called a traitor and a turncoat. He admitted that in 1911 he had denounced all participation in war by the Dominion. He fell in line with many very clever men. Sir Robert Borden at that period had opposed the vote for the construction of a navy.

Sir Wilfrid Inactive

"When in 1914 the Prime Minister announced that it was Canada's duty to help the Empire, I believed it was my duty, in defiance of anything I had done in 1911, to give my vote in the name of the French-Canadians, to help on the war," said Mr. Sevigny. "What have the Liberals done in the war? When history is written it will tell that Sir Wilfrid Laurier had refused in 1913 to go to the aid of the flag and civilization."

French-Canadians Willing

Mr. Sevigny, in continuing, said the vote given him by the electors in the County of Dorchester on January 27 was sufficient warrant for him to give his whole support to the Government. He referred to his speeches in the campaign of his adversary, Lucien Lamont, the personal choice of the Liberal leader. Lamont's participation in the election had been meant to show that French-Canadians were not willing to continue their help in the war. Happily this is being proven wrong. He stated the speaker, who then explained the poor showing of Canada's ancient province in the matter of enlistments.

"In certain parts it is said that Quebec has not done her duty, that her sons have not enlisted in sufficient large number," said Mr. Sevigny. "There are many causes for these statements. Since the war commenced those who opposed the Laurier naval policy have gone forth preaching that it is our duty to get into the battles. But there is a man of prestige, a man who can influence the French-Canadians, and who has done nothing."

Would Listen to Laurier

"I am convinced that my compatriots would have listened to him had he appealed to them to participate in the war. Has he done this? Has he told them, 'Here is your duty, do it? He has had the right, but they have been more of a political nature than for recruiting. He has allowed the Liberal press in Quebec to come out and denounce conscription. If Sir Wilfrid Laurier had made appeal to his compatriots, I know that all would be prepared to take up arms for the cause for which Belgium, France, Great Britain and the United States are fighting."

"If there is any cause to blame the French-Canadians for not enlisting, it is because Sir Wilfrid Laurier has not done his duty. There are a great many of our people who are in sympathy with the cause of the war. We have only to look upon the gallant deeds of the men in the 22nd Battalion and those who went with other units."

Amicable Settlement

That the school question could be settled better by mutual concessions was the opinion of Mr. Sevigny. He hoped the disagreements would be buried at least, until peace is restored in the world. That French-Canadians could solve the problems he felt sure but no progress could be made if both factions refused to grant concessions.

Mr. Sevigny announced that a conference at Washington, was hoped, would find a remedy for the high cost of living. The appointment of a food dictator, he said, would be out of the question. If the dictator was appointed and staples had to be sold at a stated price there would be no exportations to the United States, and this would be unfair to the Americans now in the war.

EUROPEAN EMBARGO ON SWEDEN SEED.

The Seed Commission, Ottawa has telegraphed:—"All Swede seed supplies from Europe have been stopped by embargo. This year's crop of Swede seed has been ploughed up in favor of food production."

Farmers having sound Swede turnips with or without neck and roots attached will receive all possible assistance by writing G. Lalacheur, Department of Agriculture, Charlottetown.

AMERICAN AND GREEK IDEALS.

Venezelos Encourages the Greeks of America to support American Democratic ideals as symbolized by the Star-Spangled Banner.

E. Venezelos, President of the Provisional Government of Salonica has addressed a message to the Greeks of the United States of which the following is a translation:

You have expressed the unanimous sentiment of all liberal Greeks in repudiating the kaiser, with whom since the tragic events of December the nation has once and for all severed every tie.

I congratulate you on your resolve to devote all your strength to the noble task undertaken by the United States.

In your distinguished President's stirring and inspiring declaration, defining America's aims in the war, the Star-Spangled Banner has become the symbol of humanity's purest ideal. Devotion to such a cause is henceforth the duty and privilege of every free man.

I am convinced that the Greeks of the United States, imbued with this conception, will succeed in winning the active and highly valued sympathy of the great American nation.

THE CAUSE OF INDIGESTION

Thin blooded people generally have stomach trouble. But they seldom recognize the fact that thin blood is the cause of their indigestion, but it is.

Thin blood is one of the most common causes of stomach trouble; it affects the digestion very quickly. The glands are diminished in their activity, the stomach muscles are weakened and there is a loss of nerve force. In this state of health no thing will more quickly restore the appetite, digestion and normal nutrition than good, rich, red blood.

Dr. Williams' Pink Pills act directly on the blood, making it rich and red, and this enriched blood strengthens weak nerves, stimulates tired muscles, and awakens to normal activity the glands that supply the digestive fluids. The first sign of returning health is an improved appetite, and soon the effect of these blood-making pills is evident through out the whole system. You find that what you eat does not distress you, and that you are strong and vigorous instead of irritable and listless. You are on the road to sound, good health and care in your diet is all you need. If your appetite is feeble, if you have any of the distressing pains and symptoms of indigestion you should begin to cure yourself at once by taking Dr. Williams' Pink Pills. These pills are sold by all dealers in medicine or you can get them by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.
