Stronger Market For Potatoes Is Predicted

Improvement Over Last Year's Conditions In Potato Industry Is Expected By Head Of Large Produce Company, now Visiting Here

"We do not look for extremely high prices, but we do look for a condition a good deal better all around than last year," stated Mr. Le Roy Dyal, of the Dyal Produce Company, New York City, with reference to prospects in the potato market for the coming shipping season. Interviewed by a Guardian representative last evening, Mr. Dyal expressed himself as being confident of improved market conditions this fall, and viewed the situation optimistically, basing his belief on observations made during the recent weeks while on a trip through Eastern Canada and United States, in which he covered the entire areas from Virginia to Prince Edward Island.

Round The World Fliers Missing

Griffin And Mattern Must Have Made Forced Landing Between Berlin And Moscow, But All Efforts To Locate Them Have Been Unsuccessful.

MOSCOW, July 8.—(Friday)—(A.P.)—James Mattern and Bennett Griffin, round the world flyers who started out so bravely by crossing the Atlantic in record time were unreported and more than 24 hours overdue here this morning. They had disappeared as completely as though their red, white and blue monoplane had gone sailing off into space. The last heard of them was at 6.05 p. m., E. S. T. Wednesday, when they were sighted over Lake Wysztyl, near Hegelingen, on the German-Polish border. That was three hours and five minutes after they took off from Berlin with high hopes of greatly extending their margin over Wiley Post and Harold Gatty, the round the world almen whose record they set out to better. Now they have fallen far behind Post and Gatty, Thursday midnight Moscow time, they had been out of New York 60 hours and 50 minutes. Post and Gatty reached Moscow 54 hours and 34 minutes after leaving New York. Soviet air officials did their utmost to locate the missing flyers. Enquiries were made along the line to Koensberg, Germany, but not a word of news resulted. If they were forced to make a landing between Berlin and Moscow they might well have come down at a point where communications were so bad they could not possibly get word here. There are many fairly good landing places along that route. As the hours passed and no news came, Moscow airmen pointed out that the globe-gridders might have decided to go on to Omsk, 1,800 miles to the east, where a new supply of gasoline awaited them. They had enough fuel for that trip, but no reports of a landing came from Omsk. When they left Berlin they had gasoline for only 21 hours' flying. Thus it was apparent this morning that they had been forced to land somewhere. If the flyers essayed a non-stop Berlin to Omsk hop they tried to make 3,500 miles all at once. At the approximate speed of their Harbor Grace-Berlin leg, they would have been in Omsk Thursday forenoon. The Kazan airport, three hours east of Moscow by air and on the way to Omsk, failed to spot the missing monoplane. All Wednesday night mechanics remained on duty at Moscow's brightly lighted airport, hoping that they might have a chance to inspect the ship and send her on her way.

Party Chieftains In Quebec Car Ignited By Gasoline

QUEBEC, July 7.—Canada's two party chiefs were in this province today. Rt. Hon. R. B. Bennett, Prime Minister, made a flying visit to this city this morning and was received at the Vice-Regal quarters in the Citadel by His Excellency the Governor-General. After his call on Lord Bessborough, Mr. Bennett left at noon for Ottawa. The Liberal leader, Rt. Hon. W. L. Mackenzie King, who has been in this province since the beginning of the week, is at present touring the Gaspé Peninsula by motor. It is expected that the opposition chief will return to the capital a few days before the date of the opening of the Imperial Confer- ence.

Submarine Prometheus Sank Off Cherbourg Harbour While Making Trial Trip. Desperate Efforts Are Being Made To Save The Lives Of 66 Men Who Went Down With The Ship.

CHERBOURG, France, July 7.—The French submarine Prometheus plunged without warning under the waves off Cherbourg Harbor while on a trial manoeuvre today, taking down at least 66 men in 150 feet of water seven miles north of Cape Levi. Seven members of the crew, including Lieutenant Du Meail, the ship's commander, were saved when they were hurled from the deck into the sea by the lurch of the vessel in its unexpected dive. They swam until they were picked up by a fishing boat. Efforts to locate and salvage the submarine with its imprisoned occupants, begun immediately, were impeded by strong currents prevailing at that spot. Search for the sunken craft by naval planes was handicapped by miserable flying conditions, which made their job dangerous. The submarine, in service only two years, was endeavoring to correct mechanical faults when it set out particularly for diving trials. It was in an effort to bring the machinery to perfection that this afternoon's disastrous trials had been arranged. It was estimated that 49 members of the crew and 17 other men, including engineers and workmen went down with the ship. The correspondent of the Paris newspaper Le Matin estimated the victims at 70. Women War On Prohibition

NEW YORK, July 7.—An organization of "more than 1,000,000 women of both U. S. political parties," banded together in a war on the 18th amendment, was placed behind the presidential candidacy of Franklin D. Roosevelt today by its executive committee. Announcement of the decision was made by Mrs. Charles H. Sabin, herself once a Republican leader, at the conclusion of a seven hour meeting of the executive committee of the women's organization for prohibition reform. Mrs. Sabin is chairman. "We urge," said a formal resolution, "members of this organization because they are committed to the cause of repeal, whether they be Republicans or whether they be Democrats, to give their support to the nominee of that party which favors the repeal of the 18th amendment, Franklin Delano Roosevelt." Meantime at Albany, it became known Governor Roosevelt would not use his position as the Democratic presidential nominee in behalf of beer bills or other legislation now before Congress. Roosevelt was described as feeling an effort on his part either for or against any Congressional proposal would constitute usurpation of power not possessed by the party's presidential choice.

Revolution In Peru

LIMA, Peru, July 7.—(A.P.)—A revolutionary outbreak in the Department of La Libertad, with several persons, including three policemen killed and a Communist agitator wounded, was reported in official despatches from Trujillo today. Martial law throughout Peru was proclaimed by President Luis M. Sanchez Cerro, whose government attributed the revolution to Communists and members of the Apra party. Several, including the agitator Barreto, were wounded in a battle fought between the rebels and troops of the first artillery, aided by police. Members of the Apra attacked a civil guard station at Puerto Chicama and another station at Tajan. One policeman was killed and another wounded in the first fight. Two policemen were killed in the second. Groups described as Communist paraded with Red banners in sections where they were dominant, the despatches said.

ROCKEFELLER'S BIRTHDAY

TARRYTOWN, N. Y., July 7.—From the sheltered seclusion of his rolling estate, John D. Rockefeller, who will be 93 years old tomorrow, issued today the prediction, "prosperity has always returned, and will again." A birthday cake, a quiet family gathering, and probably a 33-mile automobile ride all within confines of his 3,000 acres called "Kykult" will mark the occasion for the retired oil magnate. "These are days when many are discouraged," the statement said. "In the 93 years of my life, depressions have come and gone. Prosperity has always returned, and will again." If it is especially fine, Mr. Rockefeller may ride behind horses in a Victoria. He never has discarded his fine teams, and the 16-foot bridle paths permit easy passage through the wooded hills overlooking the Hudson River.

Bond Issue Fully Subscribed

TORONTO, July 7.—Hon. E. A. Dunlop, Provincial Treasurer, informed the Canadian Press late this afternoon that the \$20,000,000 provincial bond issue had been fully subscribed. The public was offered a \$20,000,000 issue of 14 year 5 1/2 percent debentures selling at 97 and accrued interest to yield 5.81 percent on Tuesday morning. The issue was offered direct from the provincial treasury, a departure from the usual course of selling them through the banks and bond houses. Instead of acting as selling agents for the government, bond dealers, chartered banks, stock exchange members and others acted as agents for the purchaser and were paid a commission of one percent.
