"Right as Krusen" After Taking Kruschen

Read this letter from an athlete, telling how he obtained relief from rheumatic pains:

"My knees were so stiff with a kind of rheumatoid trouble that I could only rise from a chair with pain and difficulty. This had been growing worse and worse for about two years. It was all the more galling because in my young days I had played for two counties at football and held my college record for the 100 and 220 yards. Naturally I tried all sorts of embrocation, but with absolutely no perceptible effect. Then I decided to try Kruschen salts, and to cut a long story short, I am now as right as rain."—W.S.T.

The pains and stiffness of rheumatism are frequently due to deposits of uric acid in the muscles and joints. Kruschen helps to stimulate the excretory organs and so enables them to eliminate this excess acid from the system.

Borden Celebrates Coronation

The citizens of Borden excelled themselves for the Coronation celebrations. The Boy Scouts did most of the work of decorating for the occasion and the artistic effect of their work brought many compliments. A platform facing the square was draped with flags and by two o'clock the quadrangle was filled with citizens and visitors. Cars formed up for parade, decorated with flags and bunting.

The main feature of the whole procession was a float representing Britannia with little Miss Ethel Ozen dressed in white riding in front and four little boys as pages on each side. Heading the procession was constable C. W. MacArthur, Boy Scouts and Girl Guides, the Summerside citizen band and Borden Fire Department brought up the rear. After parading the principal streets they assembled at the square where a fitting program was carried out. Mayor Willard Leard presided and called the gathering to order to listen to His Majesty's address which was broadcast from London. At the conclusion the Band played the National Anthem, followed by the Coronation Prayer by Rev. Arthur Organ. Mayor Leard welcomed the visitors and complimented the citizens in their patriotic endeavour.

Rev. William Monaghan was then asked to address the gathering. His stirring and patriotic address on the British Empire was an inspiration to all loyal citizens, making them feel proud that they belong to an Empire that stands first of all for the principle of right and justice.

"Rule Britannia" by the Girl Guides was the next item on the program.

A speech from Rev. Mr. Nicholson on the great event of the day celebrated in the heart of the Empire and fittingly observed throughout the Empire came next.

Band selection, Ex-Mayor Lidstone of Summerside also gave a few remarks. A grand fire work display and Scouts bonfire in the evening brought the day's proceedings to a fitting close.

The Band boys were entertained by the Mayor to supper at the Abegweit hotel.—S

Order - in - council Approving Consent Queen's Wharf Transfer

The letter giving consent to the transfer of Queens Wharf to the Irving Oil Co., read at Monday night's meeting of the Summerside Town Council, was from P. S. Fielding, Clerk of the Executive Council, and not, as erroneously reported, from Mr. E. H. Strong, K.C., Recorder for the Town Council. Mr. Strong's letter was mentioned, but was not read as it had been discussed in caucus.

Mr. Strong's letter expressed a different viewpoint and is given below.

Copy of minute of the Executive Council dated April 16th, 1937 with reference to Queens Wharf, Summerside, from P. S. Fielding, Clerk of the Executive Council:

"Queens Wharf — Summerside Council having under consideration an order made by His Honour the Lieutenant Governor in Council on the 30th of September 1876, whereby the property known as Queens Wharf at Summerside was placed under the control of the Corporation of the said Town of Summerside; and the said corporation having, since the time of the said order-in-council remained in possession and control of the said wharf, and also in apparent and reputed ownership thereof; and the said corporation having agreed with the Irving Oil Company Limited, of Saint John, in the Province of New Brunswick, for the sale of the said Queens Wharf with its appurtenances to the said Irving Oil Company Limited; and Honorable the Administrator of the government with the advice of the Executive Council do hereby, so far as the jurisdiction of this province extends, approve and consent to the proposed sale of the said Queens Wharf and doth consent that the said premises be conveyed and transferred by the Irving Oil Company Limited to the said Town of Summerside."

Certified a true copy.

P. S. FIELDING,
Clerk of the Executive Council.

Mr. Strong's Letter

April 26, 1937.
The Mayor and Councillors,
Town of Summerside,
Prince Edward Island.
Gentlemen:

Mr. Thane A. Campbell, K.C., as Solicitor for the Irving Oil Company, has handed to me a deed, for my approval or otherwise as your Recorder, purporting to be a conveyance from the Town of Summerside to the Irving Oil Company of the Queens Wharf in your said Town.

The said deed recites the order-in-council of His Honour the Lieutenant Governor of this province made on the thirtieth day of September, 1876, whereby the said Queens Wharf was placed under the control of the Town of Summerside with power of executing such rates of wharfage for vessels, etc., as provided by a local Act, and also recites that the Town of Summerside has continued in possession and control of said wharf, etc., for a period of sixty years, and the deed purports to grant "all that parcel of land commonly known as Queens Wharf".

In the first place, I am obliged to bring to your attention the fact that, under the terms of Confederation, whatever is comprised in the term "Public Harbors" became the property of the Dominion of Canada" by force of Section 108 of the British North America Act, so there is no question that the Summerside Harbour became vested in the Dominion of Canada when the Province of Prince Edward Island entered Confederation, namely: in 1873, so that it follows that the Provincial Government in 1876 had no power or authority to vest any title to Queens wharf, that is, as to the water lots on which it is situated or the wharf itself, and apparently the provincial authorities never attempted to do so, although by their order-in-council of the thirtieth of September, 1876 above quoted, they apparently endeavored to place Queens Wharf under the control of the Town of Summerside.

Secondly, although it would appear that the Town has exercised

control over the wharf for sixty years, there is no prescription as against the Crown, and in any case that does not arise as the Corporation only held the wharf under the order-in-council and not otherwise which gave them no adverse rights as against the Crown or any other party so as to establish title in the Corporation.

Thirdly, the deed now presented for execution also purports to convey a parcel of land situated on the southern side of the Town of Summerside. At least, if one could call sea-bottom, land, then in this light the expression, land, might be correct, but land covered with water of this nature is legally known as water lots and should be described as such, but the water lots on which Queens Wharf is situated are not vested in the Town of Summerside but are vested in the Dominion Government. The Town of Summerside could no more convey such water lots to the Irving Oil Company than they could convey any other portion of the harbour, so it would be erroneous and improper for the Town to sign any such deed.

On the other hand, as this is a wharf which since it was built, the general public have had a right to use and enjoy in connection with shipping, fishing, etc., these rights are still vested in the public or in the Crown for the public and in any deed, proper reservations should be made protecting these rights.

There are many other reasons, legal and otherwise, why the Town should not sign such a deed, but would suggest that the Town of Summerside has kept up this wharf for years and especially at late under financial loss, there is no doubt His Majesty the King in the right of the Dominion of Canada would join in a proper conveyance to the purchaser, but there would have to be a careful survey made and the exact limits of the water lots to be conveyed would have to be carefully defined because no doubt there were water lots in the vicinity of this wharf granted to private owners before Confederation which would still be vested in the grantees, their heirs and assigns.

Lastly, I would impress upon your Worship and Councillors that no deed should be executed by your Corporation of any such property which should not be executed by a citizen of standing placed in the same position or even more so, a public Corporation representing the citizens of this Town should not sign any deed or other instrument outside its power and authority, especially as it might give a false foundation for title which, on close examination, would prove worthless and hold up the Corporation to the contempt of the public in my opinion, it would be inadvisable and improper for the Town of Summerside to execute the said deed.

I am forwarding a copy of this letter to Mr. Thane A. Campbell, K.C., Solicitor for the Irving Oil Company.

Yours respectfully,
(sgd.) ERNEST H. STRONG,
Recorder.

At the conclusion of the Mass the "Te Deum" was chanted. Outside the church a procession was formed, headed by four mounted horsemen, representing the cavalry, a float, beautiful and soul-stirring representing Britannia, Canada and the nine provinces, and the Tignish band.

Mr. Bernard, reports a speech by Rev. J. A. Bernard, C. F. McCarthy, and John Gillis each in his turn expressed his sentiments on this solemn occasion. After closing remarks by Mr. Jos. A. Bernard the program was brought to a close by the singing of the well loved anthem "God Save the King". It was an event that will long be remembered by all who were present. The whole proceeding presented a picture of unity of mind and heart, loyalty to King and country. An immense bonfire followed by a beautiful display of fireworks was carried far into the night, the whole display being enlivened by patriotic songs from the many spectators present. The splendid cooperation and enthusiastic efforts of those who presented this program speaks in no uncertain terms the words, "In Unity There is Strength." God Save the King.
