

Pale? Thin?

How is it with the children these days? Have they plenty of grit, courage, strength? Or are they thin, pale, delicate? This reminds you of Ayer's Sarsaparilla. It does great things for children. It gives them a good appetite, improves their digestion, builds up their general health. Ask your doctor if he endorses this.

POLICE OFFICER SPRAIN, will be the mounted officer for the Halifax suburbs during the coming summer. A splendid horse has been purchased in Prince Edward Island for patrol duty says the Halifax Herald.

IN FUTURE please address all correspondence of an advertising nature to Advertising Department, subscriptions to Subscription Department, news to News Department, and letters to editor, etc. to Editorial Department. Do not under any circumstances, address to any individual member of the staff, as such person is liable to be absent from the office.

THE REV. W. C. WILSON has returned from a tour in the United States, where he collected \$3000 for his cottage hospital at Springhill. The institution which now accommodates thirty-five patients, is greatly prospering, and has now an endowment of about \$70,000, sufficient with the patients' fee, for its present support. Mr. Wilson, however, hopes to enlarge it before long. Rev. Mr. Wilson was at one time a resident of Charlottetown and is well known here.

DRAMATIC measures for the reorganization of King's College, Windsor, it is likely will shortly be adopted says the Canadian Churchman. The attendance this year is about equal to last. There is no prospect of amalgamation with Dalhousie. It is now generally understood that it would be impossible to procure the necessary act from the legislature, voiding the trust. The University is certain to continue under some form, but the change of attitude of the president has been a severe blow. Future developments will be watched with interest.

FOR the help of those who have horses that are scared of automobiles The Guardian publishes the following sensible remarks by a writer in an agricultural exchange:—Drive both a horse and an auto and have had ample opportunity to view the horse-carriage question from the viewpoint of both the farmer and the automobile owner: I believe that any horse can be by a few trials be trained to pass an automobile quietly, I possessed a horse that was frantically afraid of an auto the first few times he met it. Like all horses unaccustomed to the machines he shied from the strange thing because he thought it would hurt him. It is doubtful if any horse shies or scares at a thing just to be mean. If a horse has any life in him at all he will shy from any object on the road that is strange to him. Especially is this true of colts, and one that will not do it is hardly worth breaking. In my case I led the horse up quietly to a machine that was drawn up to one side of the road. He snorted and pranced frantically at first, but was gradually persuaded to approach close enough to touch his nose to the seat. Then the motor was started and the horse held close to the vibrating machine. He soon learned that it was a harmless thing, and he now passes an auto on the road with but a pricking of his ears and a look of disdain, and he believes it hardly worth the attention of a sensible horse. While driving my machine I have met all sorts of people on the road, and fully three-fourths of them have trouble in passing with their teams. The whole trouble lies in the people being more frightened than the animals. Men begin yelling, women screech, and the horses at once conclude that the automobile is going to hurt them. I have met farmers, who on seeing the machine approach would hurriedly blindfold their horses that they might not see the puffing monster pass. After such an experience it would be a difficult matter to drive that team by a car without serious trouble. Others begin applying the whip when their team shies, and the next time the horses are afraid of both the automobile and the whip.

In the article on the history of Bridge town, contributed to the Magazine Guardian of the 5th inst., by Geo. E. Saville, the writer states that he omitted to mention amongst the men who did business at Bridgetown Hugh McLellan, who built the store now occupied by Matthew & McLean, and Andrew Miller who did business for many years in the house where he now resides, and who still enjoys the goodwill and respect of those who know him. Mr. McLellan is now in British Columbia, and is numbered amongst the successful Islanders abroad.

The Guardian's correspondent from the East writes:—Lobstermen are doing well, good catches in all sections—Cod fish struck in abundance on both sides of East Point on the 7th close inshore, and immense quantities of fine quality are landed every fine day.—A large lobster boat came ashore on the beach west from Red Point during a strong breeze on the morning of the 10th. She likely broke adrift from some Eastern Factory, as some traps, a hatchet and bait were still aboard.—John Bruce has received word from his daughter Aily in California, safe after the earthquake. Josiah McLean was badly hurt but will recover.—Misses Agnes Mellick and Annie Cummings have arrived home from Lowell Mass. Rev. Mr. Linkletter is assisting the energetic pastor of this section, Mr. Sarder, in special meetings.—Martin Murphy and family of Kensington, have arrived in East Baltic, having purchased the extensive property of Daniel Moran, who with his wife and family leave in a few days for Boston.

REGARDING the item published in Monday's Guardian, a correspondent writes from Tignish. "It is stated in The Guardian that a Syrian pedler named Max Israel has been arrested. I am in a position to affirm most emphatically that there is no Syrian by that name in the world. Max Israel is a Jew, from Germany or Russia. Yours sincerely, G. A. Shelton."

CHARLES H. COOPER, of St. Louis, Mo., arrived in Bear River Nova Scotia on Saturday last on a short visit to his mother, Mrs. Cooper, and sister, Mrs. W. W. Wade. He left on Monday via St. John for New York, where he is at present transacting business in connection with the Simmons Hardware Company of St. Louis. Mr. Cooper is well known in Charlottetown. He was for a number of years employed in the office of the Steam Navigation Co., and has many friends in business circles here.

Dr. Hamilton Cures Rheumatism

You Use His Mandrake and Buttermilk Pills—He Guarantees a Lasting Cure.

Rheumatism begins and ends in the blood which at no time is ever free from poison. But if the kidneys are healthy, they will filter out the wastes and poisons.

In case of rheumatism the kidneys are not doing their work. As a result, poisons cry stallize around the joints and cause pain almost akin to torture. There can be no cure, no permanent relief until the kidneys are stimulated, first get them into working order. For this purpose Dr. Hamilton's Pills excel all other remedies; they heal and strengthen the kidneys as no other poisons depart from the blood and all medicine can do. Once the kidneys are renewed by Dr. Hamilton's Pills the trace of rheumatism disappears.

NO CASE IS TOO CHRONIC TO YIELD TO THE MARVELLOUS INFLUENCE OF DR. HAMILTON'S PILLS.

"I spent nearly three years experimenting with rheumatic remedies," writes Geo. E. Sanbury of Portland. "I had almost given up hope, when I tried Dr. Hamilton's Pills; they completely cured me. No remedy could be better."

You will never regret using Dr. Hamilton's Pills. Get a supply to-day from your druggist, 25c per box, or five boxes for \$1.25. By mail to any address if price is forwarded to N. C. Polson & Co., Kingston, Ont., and Hartford, Conn., U. S. A. 15121
