

The Right drugs combined in the right way.

To properly compound prescriptions these days an adequate stock of drugs is required and knowledge of how to use them is also necessary.

Now remedies are multiplying and all advance in this direction creates new problems for the pharmacist.

We have all the drugs and medicines for which there is any demand in this locality. Any prescriptions brought here are compounded by a graduate pharmacist in a most scientific manner and at the most reasonable prices.

THURSDAY, SEPTEMBER 7, 1911

PROGRESS OF THE RECIPROCITY CAMPAIGN.

So far Sir Wilfrid Laurier, with one or more of his ministers has made the tour of Ontario, Quebec and the three Maritime Provinces. Hereafter until the date of the election he will devote his attention to Ontario and Quebec. His meetings have been very large and enthusiastic.

Mr. Borden having during the Parliamentary recess visited the Northwest, opened his campaign in Ontario simultaneously with the Premier, and has since visited Quebec and is now touring the Maritime Provinces.

Hon. George E. Foster and Hon. Clifford Sifton, other able opponents of the trade agreement, have been speaking in the Maritime Provinces and Mr. Sifton has returned westward. It is announced that he will spend the last three days before the polling in Brandon. Mr. Foster will devote the close of the campaign to Ontario, and especially Toronto.

It is expected that hereafter Hon. Mr. Fielding will remain in Nova Scotia till the election. Mr. Borden also, after his visit to this Province will give his attention to Nova Scotia. It is announced that Sir Herbert Tupper will come from British Columbia to take a hand in the campaign against reciprocity in his native Province.

Sir Richard Cartwright, Hon. George Graham, Hon. Wm. Paterson and Hon. Mackenzie King are actively campaigning in Ontario, and the Quebec ministers, Hon. Mr. Lemieux, Hon. Sydney Fisher and Hon. Dr. Beland are equally active in their own Province.

On the Opposition side the provincial Premiers of Ontario, Manitoba, British Columbia and New Brunswick have actively thrown themselves into the struggle to an extent that they have not hitherto done. They have, we believe, so far confined their speaking to their own several Provinces, but Premier Hazen will make the exception by coming to assist Mr. Borden in Prince Edward Island.

Sir James Whitney seems to be actively campaigning in Ontario. Sir Frederick Borden and Hon. Dr. Pugsley are looking after their own constituencies and keeping at the same time a sharp look-out over the party fight in Nova Scotia and New Brunswick, as is Hon. Mr. Oliver in Alberta.

THE IMPORTANCE OF BETTER TRANSPORTATION.

A tariff for revenue and improved transportation have been earnestly and continuously advocated by this journal for fifteen years past. We are now offered free trade in natural products with the United States. The Guardian accepts and endorses this as a good thing. But in doing this we would be recanting to our duty if we did not couple with it improved transportation and a reasonable through freight rate. We regard these as equally important with reciprocity and even more urgent.

Free trade in farm stuffs and fish will in no way improve our transportation.

Neglected Cold Lead to Consumption

Unless a complete cure is effected, the inflammation passes rapidly to the throat, bronchial tubes, and then to the lungs.

You can't make new lungs any more than you can make new fingers or a new nose—hence consumption is practically incurable.

Catarrh

But Catarrh can be cured, except in its final and always fatal stage. Catarrh sufferers, meaning those with colds, sore throat, bronchial trouble, etc., can all be cured right at home by inhaling "Catarrhazone."

Catarrhazone

In using Catarrhazone you don't take medicine into the stomach—you just breathe a healing, piny vapor direct to the lungs and air passages.

Guaranteed to Cure

The purest balsams and the greatest antiseptics are thus sent to every spot where catarrhal trouble exists—germs are killed, foul secretions are destroyed, nature is given a chance, and cure comes quickly.

Colds and throat troubles can't last if the pure healing vapor of Catarrhazone is breathed—sneezing and coughing cease at once, because irritation is removed.

Use Catarrhazone to prevent—use it to cure your winter ills—it's pleasant, safe, and guaranteed in every case.

Two months' treatment, large size, guaranteed to cure, price \$1; small size, 50c. at all dealers. Beware of substitutes and imitations. By mail from the Catarrhazone Co., Kingston, Ont.

and glasses fitted while you wait.

And Bourassa, Monk, Lavergne, et al, are very busy in Quebec. A great question in many minds is what will Quebec do on 21st September? Hon. Mr. Marcell when here confidently predicted that Sir Wilfrid will take fifty seats out of Quebec. That would make parties stand there 50 ministerial to 15 Opposition. The Nationalist claim is that Bourassa and Monk will together take at least 2 seats and divide the Province. We regard this as highly improbable. But no man can tell what Quebec may do till it is done.

If Quebec were to vote on the reciprocity question alone there would be little doubt of a good majority here for the measure, but other issues, notably the navy question, in many ridings, are more discussed than the trade agreement.

It will be seen from the above glance over the field that a great light is going on and there are many Richmonds in the field. The party papers give widely different estimates of the chances at home and abroad. Two Toronto papers which arrived by late mail gave exactly opposite estimates of what Prince Edward Island will do, one predicting the return of four Liberals and the other our Conservatives for this Province.

Extreme claims as to the result in Ontario vary from an even divide up to a Conservative majority of thirty or that Province. Our own impression, which may not be worth much at this distance, is that the present anti-reciprocity majority in Ontario of 12 will be somewhat reduced.

For ourselves we have never doubted that reciprocity will carry throughout the Dominion by a good majority, but the Opposition are putting up a stiffer fight than was at first expected. A feature of the news of the campaign is the publication of names of many who have deserted from the parties they formerly supported. The Toronto Star has given the names of many former Conservatives in Ontario who now declare themselves in favor of reciprocity. Its list outnumbers any list we have seen of the Liberals who oppose the agreement, but does not include names of equal prominence. This would indicate, what is no doubt the truth, that reciprocity finds more favor with the plain people than with the wealthy classes.

Without reciprocity our farmers have been getting good prices at home. With reciprocity and without improved transport conditions the high cost, long delays and losses incident to our winter service and the three short haul rates will be accentuated rather than diminished.

That is why we insist and have insisted upon improved transportation service and rates. That is why we cannot wait. "Time does not wait." We shall, if we get reciprocity, in a few months be confronted with all our old troubles, difficulties, delays and losses, unless the Government will remove our transport shackles. We cannot get the legitimate benefits of reciprocity under such conditions. That is why we say the transportation question is more urgent than reciprocity.

We regret, we deeply and sincerely regret, that the Premier and Finance Minister when speaking to the people here entirely ignored this most vital question. We regret that the federal candidates of both parties have given it so little attention. To our mind it is urgent, all-important. Till it is settled and settled rightly our farmers cannot share at all equally with the farmers of New Brunswick and Nova Scotia in the New England market. The gate will be open at the American boundary, but only at unreasonable cost, delay and loss can our farmers reach the gate.

Sir Wilfrid and Mr. Marcell spoke sympathetically of our loss of population, and propounded reciprocity as a sovereign and sufficient remedy. We cannot share this view. Without improved transport at reasonable rates reciprocity will not give us manufacturing industries and winter employment for our young people. Without these, and without an equal chance for our farmers to share in the legitimate benefits of reciprocity the exodus will not be stayed. We write this subject, we feel strongly on this at a word from whom a bright door of hope might have been opened to the people of Prince Edward Island, did not choose to speak the word. Again we say we regret it, we deeply regret it.

The Winnipeg Free Press, the greatest Liberal newspaper published west of the great lakes and a strong advocate of reciprocity, has devoted its successive issues sixty-seven double column articles to the necessity of cheaper transportation rates. And yet the rates of which the Free Press complains are 20 cents per 100 pounds of grain in carload lots for 300 miles, while P. E. Island shippers pay 25 cents per 100 pounds for a like distance from points in this Province to points on the mainland. The Free Press quotes the average Eastern Railway rate for 300 miles at 11 cents. It is against the C. P. R., the Canadian Northern and the Grand Trunk that the Free Press complains. It is Government Railways and Government boats in winter that tax the Island farmer under the three short haul. And the Government could give us a reasonable through rate if it would.

PATONS

Fall and Winter Purchase List —OF— Fashionable and Serviceable Apparel for 1911 --- 12

"RAIN COATS—Three leading values chosen from a hundred or more productions for their superiority in style, durability, serviceability and value for price. PATONS.

NEW ADVERTISEMENTS.

SEALED TENDERS

addressed to the undersigned, and endorsed "Tender for Wharf at Grand River (South), P. E. I." will be received at this office until 4 p.m., on Tuesday, September 25, 1911, for the Repair and Reconstruction of County, P. E. I.

Plans, specifications and form of contract can be seen and forms of tender obtained at this Department, and at the offices of J. B. Hogan, Esq., and at the near, Charlottetown, P. E. I., and on application to the Postmaster at Lot 16, Prince County, P. E. I.

Persons tendering are notified that tenders will not be considered unless made with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank payable to the order of the Honourable Minister of Public Works, equal to ten per cent (10 p.c.) of the amount of the tender, which will be forfeited if the contractor tendering declines to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender is not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.
By order,
C. DE BROUWER,
Secretary,
Department of Public Works,
Ottawa, August 28, 1911.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

Duty Swept Away

Where the Prince Edward Island Farmer Gains

Farmers, market gardeners and horticulturists in particular, will do well to keep in mind the figures of the following tables. They exhibit the changes made in the United States tariff on a large number of natural products:

Articles	Present Tariff	Under Reciprocity
Horses valued at \$150 or less per head	\$30 per head	Free
Horses valued at over \$150	25 per cent	"
Lambs under one year	75c per head	"
Sheep over one year	\$1.50 per head	"
Poultry, alive	3c per lb.	"
Poultry, dead	5c per lb.	"
Oats, per bushel	15c	"
Barley, per bushel	30c	"
Potatoes, per bushel	25c	"
Turkeys	25 per cent	"
Cabbage, each	2c	"
All other vegetables in their natural state	25 per cent	"
Blackberries, raspberries, gooseberries and strawberries	1c per quart	"
Butter	6c per lb.	"
Cheese	6c per lb.	"
Fresh Milk	2c per gal.	"
Fresh cream	5c per gal.	"
Eggs	5c per doz.	"
Honey	20c per gal.	"
Garden and field seeds	15c pr. bu to 20c per lb.	"
Grass seed, including timothy and clover seed	Free	"
Hay, per ton	\$4 (2,240 lbs)	"
Straw, per ton	\$1.50 (2,240 lbs)	"

This great sweeping away of duties by the United States, if accepted by the people of Canada, as it surely will be, will mean hundreds of thousands of dollars to the producers of Prince Edward Island. If a farmer is making a comfortable living now, will be heard without a laugh the voice of the Tory orator, speaking in behalf of the Big Cities and the Big Interests, who tells him to "let well enough alone" and refuse the proffer of an extra gain undreamed of before last winter?
