The Stanley went to Tormentine yesterday at the usual hour, and word was received here by telegram about noon that she would leave there in the evening for Georgetown. It is needless to say that there was considerable indignation in Summerside at the steamer's removal while the ice conditions did not warn any change being made. Capt. Brown, no doubt, had orders from Ottawa, though the Summerside Board of Trade had assurance from the Minister of Marine that the steamer would be left on this route as long as Capt. Brown deemed it prudent to stay.

THE MAN WHO WORKS HARD.

Perseverance and willpower he must have, but whether he has strength and vigor is another consideration. Hard work, long men usually have irritable nerves and should fortify their systems with a course of Ferrozone, a tonic that rebuilds and revitalizes beyond all selling. It's just wonderful the strength that Ferrozone imparts to broken-down men. It brings new blood, supplies the system with abundant nourishment, and where formerly there was tiredness and lassitude Ferrozone establishes a reserve of energy and vim. Try Ferrozone,—price 50c. per box.
