

# TWO MAIN PILLARS

## Of the Liquor Traffic Are Appetite and Greed.

BY REV. W.P. ARCHIBALD

### Indulgence in Drink Blunts and Hardens the Moral Nature.

The two main pillars of the liquor traffic are appetite and greed: The appetite of the buyer and the greed of the seller. Conscience is dormant if not dead in both of them. Indulgence in strong drink blunts and hardens the moral nature. The liquor dealer's business tends to destroy any remnant of conscience that there may be in him. We do not look among the keepers and frequenters of bar-rooms for men of keen and sensitive moral perception. The power of God can create in these men a new heart, yet we do not expect from their ranks much help against King Alcohol.

What we need to reach success is reinforcements of conscientious, earnest, faithful men and women, alive to the evils of the traffic, full of sympathy for the woes of its victims, full of love to God, and home and native land. Those recruits will not be a spontaneous growth. They must be prepared and trained. Our hope lies in the growth of our land. Pulpit, press, home, school, division lodge, must unite in efforts to form and mould a good conscience on this subject in the rising generation. Let the good old force of moral suasion not be lost sight of, but used diligently where it will have power. Much has been accomplished in the education of the public conscience. The splendid majority for prohibition at the plebiscite is a witness to the hopeful advance of enlightened sentiment. Temperance workers should be encouraged to push the cause. There remains yet much to be done. The plebiscite has shown that there are a great number of our citizens who are indifferent to this momentous moral issue. They need to be plied with fact, argument, and appeal to arouse them from their apathy. There are a large number of professing Christians who do not take the position they should. Love of ease, love of the world, or love of drink, brings countenance and courage to the enemy. They repeat the defiant question of Cain, "Am I my brother's keeper?" These sleepy, self-indignant church-members must be awakened. They must be reminded that self-denial is a first principle of the Christian religion. The conduct of those professed followers of Christ who patronize the illicit traffic in strong drink, must be held up to deserved shame and contempt. A revival of honesty and purity and separation from the world must be diligently promoted. A standard must be lifted up for the people, the standard of God's word, which teaches that "it is good neither to eat flesh nor to drink wine nor anything whereby thy brother stumbleth, or is offended, or is made weak."

## AN EXPENSIVE ENQUIRY

Twenty-Five Dollars Spent Each Minute.

LONDON, Aug. 5.—It is estimated that the enquiry into the proposed amalgamation of Irish railways, in the House of Commons, cost no less than \$25 a minute. This sensational rate of expenditure is probably without parallel in the history of parliamentary committees. The proceedings extended over a period of 27 parliamentary days, and have involved, it is computed, a total expenditure of something like \$250,000. Twenty counsel were briefed for the various interests concerned, and the number of witnesses examined constituted a record for at least the last ten years. And the net result of it all is that the scheme has been rejected by the committee. If the proposal has received the sanction of the House, it would have conferred upon the Great Southern Railway Company a practical monopoly of the whole of Ireland south of a line drawn from Dublin to Galway, and a competitive line through Connaught with the Midland Great Western of Ireland. The opposition to the scheme came mainly from Limerick, Tipperary and Kerry, and from the new local governing bodies of those portions of the country affected.

## SALVATION ARMY RECRUIT.

Miss Cora Van Norden Enlists in Gen. Booth's Organization.

NEW YORK, Aug. 2. Society gives another recruit to the Salvation Army this week—Miss Cora Langdon Van Norden, beautiful, accomplished, heirless to millions, the daughter of Warner Van Norden, President of the Bank of North America, No 25 Nassau street, and member of many exclusive clubs and societies. She has followed her equally beautiful sister, Miss Emma Van Norden, who has been a hard working officer for seven years, into the fold.

Unless the crowding father interferes, The Young Soldier, which is the official gazette of the junior members of the Salvation Army, will announce it in the issue which appears this week. Col. Lewis, now in charge at Salvation Army headquarters, in West Fourth street, in the absence of Gen. Ballington Booth, made this public yesterday. Miss Van Norden will be editor of the little weekly.

When, in 1892, Miss Van Norden's elder sister renounced worldly amusements for the Salvation Army, Miss Cora became mistress of the beautiful home at No. 16 West Forty-eight street, where she lived with her father and brother.

All the Van Nordens are religious. Mr. Van Norden is a leading member of Dr. Kittredge's Madison Avenue Reformed church and superintendent of its Sunday school. It was a great blow to the devoted father, however, when his eldest daughter left her home to join the Salvationists.

Mr. Van Norden was plainly distressed when asked to tell about his daughter. He denied that she had joined the Salvationists outright. "She is not going to wear any Salvation Army uniform," said he, "nor is she going to renounce society. My daughter has been very much interested in the work for some time and has taken part in it in an amateur way—that is all. If she had really joined I should be frank enough to say so."

## WONDERFUL ASTHMA RECOVERIES.

Clarke's Kola Compound Ointment Tested by the British Columbia Government, at the Home for Incurables, Kamloops, B. C., the Medical Superintendent Pronounced Long-standing Cases Cured.

Many temporary relief asthma remedies have during the past few years been placed before the public, but until the introduction to the medical profession of Clarke's Kola Compound, nothing has been found to have any effect on preventing future attacks. The Medical Superintendent for the Home for Incurables in Kamloops, B. C., has had probably the best chance in Canada to thoroughly test this wonderful remedy for asthma. He reports that on the three cases of asthma where Clarke's Kola Compound has been tried, in not a single instance did it fail to cure, and on one particular case a lady had been confined to her bed most of the time for nearly a year previous to taking this remedy, and "less than three bottles have completely cured her. Over one year has now passed, and there has not been the slightest indication of asthma returning. Three bottles of Clarke's Kola Compound are guaranteed to cure any case of asthma. Over 500 cases have already been cured in Canada, one by this remedy. Sold by all druggists. Free sample bottle sent to any person. Mention this paper. Address The Griffiths & Macpherson Co., 121 Church street, Toronto, or Vancouver, B. C., sole Canadian agents.

For Sale By Geo. E. Hughes.

## 7,000

## FARMERS

### Required to Harvest A Manitoba's Wheat.

### 35,000 FARMERS THERE

### Every Fifth Farmer Will Probably Need More Help.

WINNIPEG, Man., Aug. 4.—Premier Greenway has issued from the provincial department of agriculture and immigration the following letter with regard to the annual influx of farm laborers to this province during the harvesting season. It will be seen that from six to seven thousand men will be needed and it is the intention of the department to give work to any men at present in the province before the excursions from the east arrive. The letter reads as follows:

"It is well known that farmers in Manitoba can put in more crop than the same force of laborers can harvest, and do their fall plowing for next season's crop. For several years past farm laborers have been brought from the east to assist in harvest fields. Last season over 5,000 hands were brought in and about the same number the previous year. It would be disastrous to the province if, when we have a good crop, sufficient men were not available to harvest the same. This department collected information each year through our regular crop correspondents, regarding the number of harvest hands required. Reports are not all in yet, but a sufficient number have been received to show not less than six thousand men will be required to assist in taking off this season's crop."

"The department cannot undertake to locate each man individually. Experience has taught that excursionists distribute themselves most effectively throughout the province without any assistance from officials. We are aware that in the past too many men have gone at first to Brandon and a few other centres and for a day or two much dissatisfaction would be expressed, but these congested points were soon relieved by sending the surplus of men to points not fully supplied and invariably requests were forwarded to the department within a week of the arrival of excursionists for more men. These demands could not be supplied. The wages paid according to the experience and ability of the workmen."

"At present there are 35,000 farmers in and if every fifth farmer required a man it would take 7,000 hands to supply the same. In many wheat growing districts every farmer will require one, and in some instances two or three more men, and although 25,000 farmers may not require any help, it would take 10,000 men to supply the remainder at one to each farmer."

"When the wealth of our province, represented by the wheat fields upon which the prosperity of our cities, towns and villages, as well as all our business concerns, banks and railways and implement agencies so much depends, is in danger of being left upon our fields for the want of sufficient help to garner the same, this department deems it wise to do all that is possible in the way of securing help for the farmers to assist them in garnering their crop. The press assists in advertising this want of the province, and railway companies will, as in past years, give cheap excursion rates from the east to harvest hands, good for three months."

(Signed) THOMAS GREENWAY, Minister of Agriculture and Immigration.

## REDUCING THEIR NAVIES.

### Chili Willing to Sell One of Her Cruisers if Argentine Republic Does the Same.

Valparaiso, Aug. 4.—Both Chili and the Argentine Republic are preparing to reduce their navies. It is rumored here that Chili has sold the cruiser Esmeralda to Italy or Japan. This, it appears, is conditional on Argentina selling one of her ships.

## KING NOW WEARS ARMOR.

### Milan Will Wear Nothing But Bullet-Proof Clothes.

Moscow, August 5.—Private advices from Belgrade, state that Ex-King Milan is almost frightened to death. He dreads, or pretends to dread, assassination, wears bullet-proof armor and is constantly attended by a bodyguard. Those who will be tried immediately for the attempt to murder, or the conspiracy against the Ex-King now number twenty-six. Owing to the intervention of foreign diplomats in Belgrade the accused have been accorded better treatment in prison, and the recent outages against them have been discontinued.

## BRUTAL MURDER

### A Civil Servant at Washington

### COMMITTS THE DEED.

### He Attempted to Escape But Was Captured and Locked Up.

WASHINGTON, Aug. 6.—A horrible murder was committed today in the northeastern section of the city. The murderer was Benjamin H. Snell, a special examiner in the pension office, a man about 45 years of age. His victim was Liza Weissenberger, a girl thirteen years old, who had been employed in his household until a few months ago, when she was taken home by her parents, who became suspicious of Snell's conduct toward her. Snell seemed to be infatuated with the child and paid her a great deal of attention, which, however, she resented. This morning Snell went to his victim's house, and entering at the front door passed on through the middle room, where the girl was sleeping, to the dining room door. While standing at the door the mother ordered him from the house. Snell started to go, passing through the room where the child was. He bent over the sleeper and drew her from the bed. Awakened suddenly she screamed in terror. Throwing his hand through the girl's hair, Snell drew a razor across the girl's throat twice. Attracted by the child's screams, the mother ran to the rescue. In a frenzy she grappled with the murderer and was badly slashed on the arm with the razor. He attempted to escape, but was soon captured by the police and locked up in the ninth precinct station. He refuses to give any explanation of his acts and says he remembers nothing about them.

The murderer is a native of Vermont and was at one time employed in a bank in Montgomery, Ala. He has a wife and two children.

## Sam Jones.

If I thrown a stone into a crowd of dogs, and one runs yelping, you know that is the one that is hit. When you hear one of these fellows on the street yelping at me, you may know he is the dog that is hit.

Every thoughtful man whether he be an artist or a business man, a mechanic or a farmer, feels that he has a certain work to do in this world, and he wants to complete it. A brave man's principal fear of death is because it compels him to leave his life-work unfinished. He fears sickness for the same reason. He feels that he might as well break his neck and done with, as to have his best working powers hampered and wasted away by disease.

"To have the brain dulled and the body enfeebled by impure bile-poisoned blood, is no better than a living death, with all its horrible accompaniments of dyspepsia, nervousness and melancholy."

The best thing in the world to restore clear-headed energetic vitality and working power is Dr. Pierce's Golden Medical Discovery. It acts directly upon the liver and digestive organs, giving them power to manufacture rich, healthy blood free from bilious, noxious and morbid impurities.

It fills the blood with the red life-giving elements which nourish every organ and tissue. It replaces wasted tissue with healthy flesh and solid muscular strength. By feeding the brain and nerves with vital energy, it banishes neuralgia and nervous weakness and sleeplessness.

It is better than malt extracts or oily emulsions. It is not a mere temporary stimulant but a genuine and lasting nutrient, easily assimilated by the weakest stomachs.

Dr. Pierce's Golden Medical Discovery, Callaway Co., Mo., writes: "Before I commenced your treatment I could not take a drink of water without great suffering in my stomach. I could not eat. I was fast sinking. I had five different doctors examine me, and each one treated me without doing me any good. At last I took four or five bottles of your 'Golden Medical Discovery,' and five years' illness is now behind me. I feel as if my friends suffering from it, I tell them of your medicine and advise them to write to you."

Dr. Pierce's Pellets cure constipation.

## AS OTHERS SEE US.

A Pretty City But Rather Behind the Times.

A representative of the Canadian Baker and Confectioner speaks as follows of Charlottetown:— This pretty little city is rapidly coming to the front as a summer resort, and at the time of the writer's visit many American visitors were registered at the leading hotels. It is an ideal spot, with perfect summer climatic conditions, several steamers connecting it with various points in Canada and United States, and has good railway connection with all parts of the island. Besides boating and bathing, there are excellent drives in all directions from the city. As yet there are no street cars in the place, but the agitation that has commenced for this modern convenience will no doubt result in a good electric railway service before long. The hotel accommodation for summer travellers is also a drawback. The management of the steamship line which has steamers plying between Boston and Charlottetown, and calling at several ports between, have made the citizens a standing offer to advance a certain favorable proportion of the cost of erecting a handsome summer hotel. It is possible that in a few years the people will work up energy sufficient to see the beneficial results that would accrue from such a project being carried out.

There is still a touch of behind-the-times among either the electors of Prince Edward Island or their legislators, which is amply shown in the twenty dollar tax commercial travellers are forced to pay before doing business there. Up to the first of June of the present year the tax was fifteen dollars per year, but on that date it was raised to twenty dollars, and this is the amount the drummer now has to add to the sales he makes in Prince Edward Island. That he adds it to his sales is morally certain. As one commercial traveller in conversation with the writer, remarked, "The traveller cannot afford to pay the tax, and the firm is not going to do it; then who pays it?" Either the merchants or their customers. The traveller in selling an order of goods reserves an extra discount, or even adds to the prices sufficient to cover his twenty dollar outlay. The merchant cannot buy as closely, hence he has either to be satisfied with a less profit or raise his prices, and like every place else competition is so keen in Prince Edward Island towns that it is almost impossible to raise prices, so the merchant has to be satisfied with less profit; but he is not satisfied. A number of the largest retailers in Charlottetown, the home of Legislative buildings, unhesitatingly express their disgust at such an ostrich-like method of raising money. Not only are they forced to pay higher prices, but the tax has kept away a great many travellers, which lessens competition and variety of choice. Hotels also feel the absence of a number of travellers who, before the tax was in existence, spent several days on the island, and the total left by them amounted to a considerable item each year.

Mr. D. Stewart is one of the most progressive bakers in this city. He is a firm believer in printer's ink and uses the press of Charlottetown to good advantage. His son looks after the advertisement writing, and has a new announcement every day. This they have found so profitable that now they would not conduct business without a liberal amount of judicious advertising. Business with this concern is in excellent shape, their city sales being supplemented by a good shipping trade. When seen Mr. Stewart was making a preparation for a supper for 4,000 people on the evening of July 12th.

## Sugar is Advancing.

HALIFAX, August 5.—The Acadia Sugar Refinery has advanced prices of refined sugar 10 cents per 100 pounds. New York and Montreal both made advances rendering the advance in Halifax possible. An advice from Montreal says the advance there is in sympathy with the strong advices on the raw article and the exceedingly light stocks of refined in refiners' hands. The tone of the sugar market has ruled stronger.

## 100 MILES AN HOUR

### Startling Speed Made Recently.

### BY IMPROVED ENGINES

### The Engine Pulled Five of the Heaviest Coaches on The Line.

LIVERPOOL, Aug. 5.—Recently interesting experiments were conducted with the Lancashire and Yorkshire railway company's latest engine of the new design. On the return journey from Liverpool to Southport the average speed was eighty miles an hour. The engine, pulling five of the heaviest coaches, left Exchange Station at 3.51 p. m. and passed the seventeenth mile-post at three and three-quarter minutes past three (12 3/4 minutes). But when taken into consideration the time occupied in getting up speed, and the slow round the Backsill and Waterford curves, approximately the highest average speed attained would be close on a hundred miles an hour. Such a velocity is both startling and admirable.

## The Danger of PILES

### Too frequently overlooked. Dr. Chase's Ointment a Prompt and Positive Cure.

The suffering caused by the intense itching and burning sensations of piles is only one of the horrors of this disease, for there is always great danger of piles developing into fistula, one of the most disgusting diseases imaginable. Even the great danger and expense of an operation are preferable to running the risk of contracting this most loathsome of diseases. But there is no necessity for a surgical operation for piles. Dr. Chase's Ointment is guaranteed to cure any case of piles, no matter how long standing, or how aggravated the case may be, so long as piles have not become fistula.

It is only by rare chance that internal treatment will cure piles. But it matters not from what cause they arise, Dr. Chase's Ointment will at once stop the itching and burning, and soon effect a perfect cure.

You can use Dr. Chase's Ointment with fullest assurance that what has cured scores of thousands of cases of piles will cure you. For sale by all dealers, or Edmondson, Burt & Co., Toronto.
