The preparations were on a most elaborate Oriental scale.

CHAFFEUR INDICTED

NEW YORK, May 1.—William Darragh, the chauffeur, who on March 26, ran down and killed thirteen-year-old Ingaard Trimble, son of a prominent attorney of Covington, Ky., was yesterday indicted by the grand jury of murder in the first degree. Darragh speeded away after running young Trimble down, and fled to Texas, where after several weeks he was arrested by detectives sent from New York and brought back here for trial. The indictment is believed to be the first of its kind ever handed down by the grand jury of New York county for alleged reckless automobile driving.

FREE CHOCOLATES ON THE BIG TRIP

As stated in Saturday's issue the White Candy Co., Ltd., St. John, through their representative B. Roy Holman, will furnish complimentary an adequate supply of their high class Daisy and Bolmar chocolates to the Guardian's jolly party for the Big Free Trip. As an evidence of the enormous increase in the demand for the above firm's goods it may be mentioned that they will ship, as soon as it is possible to manufacture them, a carload of their high grade chocolates to Winnipeg. It is certainly commendable that any line of goods manufactured in the Maritime Provinces is in such unprecedented demand in the West, and is but another verification of the fact that "people know a good thing when they see it." The White Company will not offer for sale anything except that which is of high grade and perfect in every respect. Those who desire pure chocolates are not disappointed in White's.

While in St. John City the eight happy ladies and their escorts will be conducted through that up-to-date manufactory and thus see for themselves the manner in which high class goods are prepared.

What greater luxuries could be provided for a party of ladies than those which are being enumerated from day to day in this paper? Not only a Big Free Trip but everything necessary to make it thoroughly enjoyable. There will be no danger of weariness or seasickness for there will be furnished free an ample supply of that world renowned Mother-sill's sea-sick remedy. Lots of chocolates free for everybody to enjoy. Eight valuable prizes by the Britannia Mfg Co., of Halifax to the eight ladies who win the trip, and six consolation prizes to six of the lad-

The execution which excites a large amount of interest, will be private.

DR. RUTHERFORD FOR VET. COMMISSION

OTTAWA, May 1.—There is a movement on foot here to have Dr. J. G. Rutherford, Veterinary Director-General of Canada, appointed to all the vacancies caused by the death of the Hon. Thomas Greenway. It is recognized that Dr. Rutherford is an exceedingly well qualified man. He has had extensive experience in public affairs, having been a member of both the Manitoba and the Dominion Houses. He has organized the veterinary branch of the Agricultural Department in a most efficient way, as was shown by the fact that although the foot and mouth disease prevailed in the border American states during the past year, not a single case was allowed to pass the cordon of guards established on the Canadian frontier by Dr. Rutherford's staff.

IMPORTANT MEETING IN OTTAWA

OTTAWA, May 1.—The Outside and Inside Civil Service representatives organized yesterday, and decided to apply to the Government to have the Outside Service brought under the Act of 1908, which now applies only to the Inside Service. Dr. Smith of Windsor, was elected President. John F. Whear is the Island's representative in executive.

UNSATISFACTORY EVIDENCE

DUBLIN, May 1.—"Did you see the shot fired?" was the question asked of a witness in a recent trial. "I did not," was the response, "but I heard it foiled." "The evidence is not satisfactory," sharply announced the presiding magistrate. "Stop down." This legal finding was evidently not precisely to the liking of the Irishman, for no sooner had he left the stand and turned his back than he gave way to a somewhat irritable laugh. This had the effect of arousing in turn the judge's ire, and he immediately recalled the offender. "How dare you show such contempt of court?" demanded his honor. "What do you mean by laughing in that manner?" "Did your honor see me laugh?" asked the Irishman, in a most respectful tone. "No, but I distinctly heard you laugh," said the magistrate. A twinkle came into the eye of the witness. "Such evidence is not satisfactory, your honor," said he quietly, whereupon every one, including the judge, laughed.

CARRIE NATION BUYS FARM

HARRISON, Ark., May 1.—With money derived from the sale of souvenir hatchets which she has sold in her campaign against the saloon, Carrie Nation has purchased an extensive tract of land in Boone county, on which she expects to spend the remainder of her days. Poultry, pigs, pigeons, peas, and apples will be raised in quantity by Mrs. Nation, according to the announcement of her agent.

The Guardian received a telegram early this morning from Sydney, N. S., stating that Dorothy, the only daughter of John T. Pearson formerly of Charlottetown died on Sunday morning at the age of twenty, after a long illness. The remains will be forwarded to Charlottetown on Tuesday. The young lady was a great favorite among the people of Sydney and great sympathy is being expressed from all quarters for the bereaved parents.

LABOR STRIKE IN OPERATION

Strike of Labor Unions on Great Lakes Against Lake Carrier's Association.

CHICAGO, May 2—(Special)—Strike of labor unions on great Lakes against the Lake Carriers' association, was put into full operation, and probably twelve thousand seamen are involved in the Great struggle. Thousands are idle in Chicago, Cleveland, Buffalo, and other centres, but the situation differs little from that which existed since the opening of navigation, when the marine engineers refused to sign any contracts in which the open shop clause was inserted. The tie up is merely made complete.

DOUBLE DROWNING AT SOUTHAMPTON

PORT ELGIN, Ont., May 2—(Special)—A double drowning occurred near Southampton, on the Sauguen River the victims being Andrew Ruxton, and Samuel Cairns. The men were making repairs to a bridge, when they fell into the river which is flowing at extra speed on account of the rains. The bodies have not been recovered. Both men are married, and Cairns leaves four children.

ANCIENT CONCRETE BRIDGE

FRANCE, May 1.—In the south of France is a concrete arch bridge known as the Point du Gard which was erected in the year 56 B. C. The concrete in this was not composed of crushed stone or other small aggregate of the variety now employed in concrete bridge work, but was of the old style consisting of alternate layers of large and small stones, gravel, etc., and of cementitious materials. Vitruvius describes the materials and methods in use before the Christian era, and other writers like Albert in 1845 and Polladio in 1870 accurately describe the method which "the ancients" (as they call them) employed. "Of using boards laid on edge and filling the space between with cement and all sorts of small and large stones mingled together." It is very improbable that the Pont du Gard would have withstood the rigors of climate of the Northern United States but its actual state of preservation as well as that of many other specimens of ancient concrete work, prove that if modern work is honestly executed, it will many times outlast any reasonable period, so that a very small yearly sinking fund per cent is all that is required for properly designed and erected concrete work.

EXPERIENCES IN NEWFOUNDLAND.

ST. JOHN'S, May 1.—Sir Robert Bond, former Premier, met a hostile reception when he attempted to land on the steamer at Western Bay for the purpose of addressing a political rally. When he started to go ashore he was met by a Morris party, and warned that the electors did not desire to hear him. The former Premier charged that the objectors were engaged by the Morris party to prevent him speaking, and announced his intention of landing and making an address. The crowd made a rush for the landing and in the confusion, Sir Robert was pushed overboard. He was not injured and succeeded in climbing into a row-boat. He rejoined the steamer and made no further attempt to land. The incident is attributed to the intense political feeling which prevails throughout the Colony. The Bondites and Morrisites have nominated straight tickets in every district. There are no Independents running.

SENSATION IN A MONTREAL THEATRE

MONTREAL, May 1.—A sensation was caused at the Theatre Royal Friday evening when Miss Millie De Leon, the Oriental dancer, was arrested immediately after giving a somewhat warm performance, which has been crowding the theatre all week. The sensation was redoubled when Miss De Leon enthusiastically kissed the cheek of the officer who arrested her. She was gathered in by a plain clothes man, who had watched her dance, and was taken to the station charged with indecent dancing and improper exposure. At the station she was examined by the police matron, who pronounced her not properly but magnificently dressed, and she was bailed out to appear in the court yesterday morning. This is the first time in twelve years such an arrest has been made here.

Son of Senator Comeau of Digby Catches Small Pox While in Ottawa.

OTTAWA, May 2—(Special)—Senator Comeau of Digby has had his son with him, a lad of about thirteen, and he spent most of the time about the senate, and in his father's room when there. He developed smallpox, and has been taken to the isolation hospital. Comeau is quarantined at his boarding house, and the room which he occupied in the Senate, and which two other Senators also occupied, is closed. The matter created considerable sensation among Senators.

POLICE COURT NEWS

The Police Court Saturday was occupied with the case brought by Jane Atkins, against three lads, Galbraith, Smith, and Cantwell, charged with annoying her in her dwelling. The evidence taken proved that the woman had been subjected to a great deal of annoyance in this way. Cantwell, on account of his youth, was discharged with a strong caution, while in the case of Galbraith and Smith, a sentence of \$4 or fifteen days was imposed. This sentence was allowed to stand against them and to be put into operation the first time any other charge is brought against them. In addition to this the Magistrate gave them a strong reprimand. A man named Martin, who had been summoned last week as a witness in this case, but who disregarded the summons, was arraigned on a charge of contempt of court. His Honor explained to him that his actions made him liable to a very severe penalty and the defendant's very apparent ignorance of the law was the only reason why he would withhold punishment in this case, which excuse, however, would not stand in any case in future.

A PEN PICTURE OF NEW SULTAN

From a Correspondent of the Telegraph in Constantinople. Says, "He Certainly is Good, But Very Weak."

LONDON, May 2—(Special)—The Telegraphs Constantinople correspondent, gives an interesting pen picture of the new Sultan as he appeared at Selamluk. "Nobody knows what he thinks" the correspondent says, "as he said nothing. Many believe that he feigned ignorance, and indifference, in order to save his own life, and it appears as if the Simulation will continue. One can only read in his protruding eyes, good natured ingenuousness, and almost infantile curiosity, which contrasts strongly with his aged appearance. He certainly is good, but weak. I was unable to see him a sovereign of the New Epoch, a reorganizer of Turkey, a Sultan of progress."

LIONS KILLED BY ROOSEVELT

NAIRIO, East Africa, May 2—(Special)—Four lions, formed the magnificent bag of Roosevelt's first day's big game hunting, consequently the former president was highly gratified, particularly as three of the beasts were killed by himself, and the fourth by his son Kermit. Lions are very numerous, but even under the circumstances the hunter's luck was exceptional.

LETTER FROM G. H. CLARK

The Department of Agriculture, City, is in receipt of a letter from G. H. Clark, Seed Commissioner, Department of Agriculture, Ottawa. In his letter he says, "You are to be congratulated on having one of the best important annual seed exhibitions in Canada. It would of course, be much to the ultimate benefit of Prince Edward Island Agriculture if the present export of grain could rapidly be changed to the exports of more finished products, as dairy products, meat and wool, but the export of high class seed grain, that is worth from 10c to 20c per bushel in advance of commercial grain prices, is entirely justifiable and is worthy of the encouragement you have given to it through your seed meetings and seed fairs." The farmers ought to consider this very seriously. The highest quality of seed can only be grown on good land and if the high price of oats due almost entirely to so much of it taking the place of the Seed Oats formerly imported from Ontario induces the farmers to feed less of it to their cattle than it has been doing, the seed trade will be an injury and not a benefit to this Province.

NO DEMONSTRATION ON MAY DAY

PARIS, May 2—(Special)—May Day passed off without a disturbance anywhere, and so far as the labor demonstrations were concerned, the elaborate precautions, which were taken by the government, were wholly unnecessary.

A LARGE ATTENDANCE

The attendance at the First Methodist Church was very large yesterday both in the morning and evening. The Rev. Mr. Flanders of Centenary, St. John, spoke in a manner not soon to be forgotten. At the evening service he dealt with the workshop of life in which the formation of character takes place. His examples were practical as well as beautiful, and his appeal to the young men and women for the innobling of their lives was one of the strongest and most impressive ever made in the city. Should Mr. Flanders ever see it to visit Charlottetown again he will be sure of the warmest and sincerest of welcomes.

WHAT THE GUARDIAN WILL DO IN A FEW DAYS

Business men are already talking about the advantages there will be in placing a "Special" advertisement in The Morning Daily Guardian of May 22. One gentleman has said that it will not only be an excellent opportunity of financially helping a good cause, but that he could get good returns for his money. Four-fifths of the receipts from all of the "Special" advertising, which will be placed on the "Special" pages with the "Special" articles by the ladies, will be for the "Anti-Tuberculosis movement." The Guardian merely being paid for the expense of setting each ad in type and for inserting same in each page. Another person has said that although he has many friends abroad he will take pleasure in mailing each of them a copy of the Women's Morning Daily Guardian of May 22. Every reader of the Rural Daily Guardian should not fail to send along at least five cents for a copy of the Morning Daily of May 22, as it will be by far the most novel and interesting ever published in Eastern Canada. The Daughters of the Empire are actively making plans to surprise everybody on May 22. Not more than five cents will be asked for each copy of the paper, but all who desire can pay any larger amount they wish, for the net receipts from all such sales and all such "special" advertising will be for the Anti-Tuberculosis movement. The Guardian will receive no more for each copy of that big issue of from 20 to 24 pages than for the regular eight page paper and only the cost of setting in type and inserting each advertisement. Thus the net receipts will help stamp out that dread mady Tuberculosis. But The Guardian will make some very important announcements with- out fail to the next few days.
