PEACE PROCLAIMED GENERAL REJOICING IN MEXICO, P.E.I.

As time ushers into existence this 30th day of March, 1914, Time also, by the same complacent act, has brought to a close one of the most bloody wars that have ever cursed humanity on this old Globe of ours. On that date the Ambassadors chosen by the opposing parties in the Mexican P.E.I. civil war met at the Capital and by the signing of the treaty (OH FUDGE) proclaimed hostilities at an end.

The news that peace had been proclaimed was received by the people with universal manifestations of gladness. Joy bells pealed bonfires blazed and rockets soared by thousands. Strange though it may seem, not one of the causes which produced the war is mentioned in the term of peace.

Article six of (Oh Fudge) refers to Woman's Institutes as "strife breeders." Article nine advises that the better way to bring about household economy is "Stay at home and work at it," while Article fourteen bluntly states that the only way to manage Hubby, if you have one, is "to feed the brute."

Now that the strife is ended your correspondent wishes to make a few comments and offer a word of advice. Throughout the conflict I have been compelled to move and breathe and have my being amongst the opposing forces. I have endeavored to give impartial reports of events as they transpired. As might be expected hard blows were hit, hard things were said on both sides. The Institute taught our Ladies that they could not make omlets without breaking eggs. The strife just passed has taught them that you cannot have wars without wounds. It is difficult to see what either side has gained. We imagine few of even the more daring spirits will be recommended for a Victoria Cross. Few of their names will ever embellish the pages of their Country's history with "mighty deeds of valor done, or righteous battles fought and won."

The advice I have to offer is that they now bury the hatchet and let

Kidneys Wrong?

If they are you are in danger. When through weakness or disease the kidneys fail to filter the impurities from the blood, troubles come at once. Backache, Rheumatism, Sciatica, Gravel, Diabetes, Gall Stones and the deadly Bright's Disease are some of the results of neglected kidneys. Dr. Morse's Indian Root Pills contain a most effective diuretic which strengthens and stimulates the kidneys so that they do their work thoroughly and well. Try

Dr. Morse's Indian Root Pills

by gones be bygones. Yes Ladies, assume your usual avocations; meet and greet each other with a smile that won't rub oil and the friendly handclasp, as was your wont in days of yore. By the by we would advise "cutting out the kias," it is only a fashionable way one lady has of insulting another any how. Show the world at large that you are one and all Christian people, that you know how to forgive and forget. You know the scriptural command "Forgive and you shall be forgiven."

Now my dear Mexican friends, my heretofore task as war correspondent is over and in bidding you good by let me tell you that I have spent the jolliest winter of my life amongst you (I said jolly on account of war.) Wherever I may roam or where ever my lot in life may be cast, I shall always remember the people of Mexico, P.E.I. Farewell my friends, and may the power that rules the earth and sea watch over you and guard you from all harm and danger. May the balance of your lives be pleasant prosperous, peaceful and happy, may you succeed in everything you undertake and finally when you have finished your earthly careers may there be no regrets for past misdeeds. This shall be my prayer and wish from this hour henceforth and for ever Lang Syne.

HOUSEHOLD HINTS.

Coffee stains should be treated with boiling water when fresh.

It is best not to put the cogs of the dozer egg beater in water.

Fish should never be put into the icebox with other food unless closely covered.

When you wish to take a cake from the pan, turn the pan upside down when you take it out of the oven and lay a wet cloth over it. The cake will drop out easily.

Chickens are good when the feet are soft, the skin smooth and the cartilage at the end of the breastbone soft. Abundance of pinfeathers always indicates a young bird.

It is worth remembering that a sauce of average thickness is made by allowing two tablespoons each of butter and flour to one cup of liquid, whether it be milk, stock or other liquid.

Stock in The Taylor Ranch is a Profitable Permanent Investment

The breeding stock now in the Taylor ranch has been carefully selected from the most reliable pure blood strains of Prince Edward Island Foxes, carefully selected from foxes whose ancestors secured high prices as breeders and whose pelts brought top market prices. Two pairs of the seven pairs now in the ranch, are proved breeders and come from a strain of great productivity.

Free Ranching to Sep. 1st, 1914 Returns this Year Guaranteed

The Taylor ranch is one of the most up-to-date and most modern in every respect. The foxes have been in the ranch for one year. The directors have paid all ranching expenses incurred by the company up to Sep. 1st, 1914, thus leaving all profits available for dividends.

Directors guarantee a return this year of not less than ten young pups, these at present prices for live young foxes will enable the company to pay shareholders a dividend of at least 40 p. c.

The SIRDAR is one of the best Fox Propositions Now on the Market

The Sirdar Silver Fox Company is capitalized at \$75,000 for five pairs of pedigreed, pure-bred Island silver foxes—this is the lowest price quoted by current companies.

The foxes are from strains with established high records for large production and fur quality.

The ranching will be done by the largest and most successful fox ranch in the world today—at a charge not to exceed 15 p. c. of the increase.

Shares are selling very rapidly at \$10 each. Payments 25 p. c. with application, and 25 p. c. June 1st, balance August 1st. Write for prospectus TODAY.

Royal Bank of Canada

SOLICITOR

KENNETH J. MARTIN, Charlottetown, Prince Edward Island. Stipendiary Magistrate for City of Charlottetown

The Authorized Capital is---\$25,000.00

The above company is offering for sale \$10,000 worth of stock at \$25.00 per share. The rest has already been subscribed chiefly by prominent business men in England.

The assets of the company are five pairs of the highest grade Silver Black Foxes and the ranch.

All the foxes in the company's ranch are eligible for registration under the most select Class A. of the Fox Breeders Association, and have been pronounced by experts to be perfect specimens. One pair produced a litter of five last year and another a litter of four, all of which were successfully raised by Mr. Weeks and sold for the highest market figure. The five pairs have already mated and the company expects with average success to pay a dividend of 60 per cent this year. When you consider that the foxes are under the personal supervision of Mr. Weeks, a large shareholder in the company, who during the six years experience HAS NEVER LOST A FOX OR NEVER AND A PAIR THAT DID NOT BREED, and also take into consideration the short time before the dividend will be declared you cannot fail to realize what a good opportunity this is for a fox investment.

The ranch consists of a tract of land at North Tryon, covered with a beautiful thick growth of hardwood. It was purchased expressly for the purpose of Mr. Weeks and is an ideal location, being a mile away from the nearest road to which a right of way belongs to the company, thus guarding the foxes against any noise or disturbances. The ranch is the outcome of Mr. Week's years of experience in fox raising. In the centre of the grove of hardwood is most substantially built the wire enclosure; the individual pens being large and roomy, so as to make it as natural as possible as well as a clean healthy home for the foxes. There is also a commodious keepers lodge in the grove in close proximity to the ranch. An agreement has been entered into with Mr. Weeks that for three years he will act as manager of the ranch, provide all food necessary for the animals all help (including a night and day watchman) medical attendance and repairs for the proper upkeep of the property, for 10 p. c. of the yearly increase.

The above proposition is undoubtedly the most attractive one offering stock carrying a 1914 dividend and a small amount offered should be rapidly taken up, as many inquiries have already been received regarding same. The names in the Directorate ensure a capable business management and a proper safeguarding of the interests of the shareholders. Applications for prospectus and stock should be made to the Secretary-Treasurer.
