LONDON AND THE BLUEJACKETS

England's Capital the Scene of an Enthusiastic Welcome to the Sailors of The Fleet Which Has Lately Visited The Thames. Stiring Scenes.

LONDON, July 21—(Special)—The blue-jackets of the 158 warships in Thames who have filled the role of hosts were guests of London today. Twelve hundred of them marched through the thoroughfares and were greeted with unbounded enthusiasm.

THE SITUATION AT GLACE BAY

Striker's Claim They Can Continue the Strike, Other Side Confident Also.

SYDNEY, July 21—(Special)—The Glace Bay Standard today states that the strikers will have all the financial backing they want from the central organization in the United States and the strike will be continued.

On the other hand the Coal Co. and the P. W. A. claim that the end of the strike is already in sight.

They point to the coal output and the shipments which are daily increasing.

EVELYN THAW ATTRACTS CROWD IN MONTREAL

MONTREAL, July 20—Mrs. Evelyn Thaw attracted a very large crowd around Bonaventure station today when it became known that she was a passenger on the Rutland train from New York. She drove away from the station with friends, and owing to the attention she attracted here it is thought she will take the train for Metapedia from an outside station.

Mrs. Thaw was very stylishly dressed, and there was very little difficulty in picking her out from the many sketches in the papers.

YESTERDAY AT THE SCHOOL OF SCIENCE

The Botany class is one of the largest and most enthusiastic in the history of the School. The registration is sixty-five of whom over fifty are doing the regular work.

The instruction includes both lecture work and laboratory practice. Each day from 11 to 12 a. m. the whole class meets. At this hour, experiments are performed and principles illustrated in a variety of ways.

From 3 to 6 p. m. those who do not have laboratory work in other sciences meet in small sections for individual instruction in microscopic work.

While this phase of the subject is not of special interest so far as getting ideas for common school teaching is concerned, it is of value to those teachers who want to know more about the subject than their pupils will require. No teacher can teach a subject well if he knows only enough to pass the same examination as his pupils must pass.

By taking a small amount of advanced work, however, he will have a larger store of ideas from which to select material for his school.

One of the chief objects of the summer school is to bring the nature student in direct contact with nature, rather than with a text book. Text books state that certain things in connection with plant life are true. The summer school endeavors to prove these statements by coming to the plant itself for an answer.

A common school pupil may be told a fact every day for a month, and at the end of that month he may know neither the fact nor its significance. If that fact be illustrated, however, by some simple experiment that the pupil can perform without costly apparatus, he has learned something he cannot forget, moreover, the doing of a few experiments enables him to devise means by which he can ask the plant for other information when certain observed phenomena must be explained.

Besides experimental work, the school is endeavoring to acquaint the student teachers with the various classes of plants found in any neighborhood. Not only do we wish to know the plant's name, but we want to know its probable history—how it

THE LITTLE SHAH IS VERY UNHAPPY

LONDON, July 20—A dispatch from Tehran to the Times says that the little shah will hold a durbar in the city to make the acquaintance of his faithful subjects. He is pathetically unhappy and would willingly exchange his honors for his mother's lap.

ST. JOHN C. P. R'S ATLANTIC TERMINUS

ST. JOHN, July 20—The Harbor Board meets at 3.30 to receive a draft of the agreement regarding the transfer of the West St. John harbor lots to the Government, which has been prepared by the Recorder.

It is understood that the draft as it now stands contains a provision that in consideration of the transfer of the shore lots the C. P. R. should make St. John their only Atlantic terminus. It is not likely that this provision will be adopted.

ST. JOHN C. P. R'S ATLANTIC TERMINUS

Kid Burns Tom Bennett's Secretary Daniel Cronin Harry Perry Tom Bennett Parker Hooper James Blake Harry McDonald Cindy Gray Geo McLeod Rosie Rosieville Miss M. Stover Mrs. Purdy Mrs. Forsythe Mrs. Dean Mrs. Chandler Miss Flora Dora Dean Miss A. Dorton Miss Della Olden

Chorus of about 40 voices under the direction of Prof. Watts.

LYNN SHOEMAKERS TO STRIKE

LYNN, Mass., July 20.—A general strike of the packing room employees in the Lynn shoe factories affecting over 1500 operatives is threatened. Tomorrow price lists from the Union will be submitted to all the large manufacturers in the Lynn union. The officers anticipate no serious difficulties. In eight of the factories the proprietors will be given until five o'clock tonight to sign the price lists. Failing in this men will refuse to work on Wednesday morning.

CONDENSED ADVERTISEMENTS

(Too Late for Classification.) WANTED, a girl for general housework, 159 Grafton St. 7-22431pd. WANTED, a house with modern conveniences, Centrally located. Apply to 138 Great George Street, 7-22431pd.

HAMPTON, Conn., July 20—Ralph Whittaker, sixteen years old son of Frank Whittaker, of Cincinnati, O., was shot and instantly killed by George Huling, 17 years old, while hunting here, late yesterday. Huling mistook top of Whittaker's cap rising from the bushes for a wood chuck, and shot at him with his rifle, the bullet entering the brain, causing instant death. Whittaker, in company with his brother, Russell was spending the summer with his grandparents.

SHOT COMPANION BY MISTAKE HAMPTON, Conn., July 20—Ralph Whittaker, sixteen years old son of Frank Whittaker, of Cincinnati, O., was shot and instantly killed by George Huling, 17 years old, while hunting here, late yesterday. Huling mistook top of Whittaker's cap rising from the bushes for a wood chuck, and shot at him with his rifle, the bullet entering the brain, causing instant death. Whittaker, in company with his brother, Russell was spending the summer with his grandparents.

ALARMING RUMORS FROM SOUTH AMERICA

Trouble Between Bolivia and Argentina is Rapidly Coming to a Head. Ministers of Both Countries Have Been Recalled. People of Bolivia Present Petitions Asking To be Enrolled In The Army.

LAPARE BOLIVIA, July 21—(Special)—Official circles admit that a complete rupture has occurred between Bolivia and Argentina. All diplomatic relations have been severed. The recalling of the Argentine minister Fonseca who has been stationed here throughout the disorderly events leading up to the present crisis was followed immediately with the recall of the Bolivian minister at Buenos Ayres.

The rupture of relations was announced after an extended official conference at which efforts were made to meet the aggressive attitude assumed by Argentina and allay growing popular agitation in Bolivia. The spirit of the people is shown by monster petitions asking to be enrolled in the army, the petitioners promising support to government in case of armed conflict. The feeling that hostilities may occur is shown by the continued departure of many Argentine and Bolivian residents.

IMMIGRANTS FILL PRISONS, ASYLUMS

Of Ontario Is the Statement In An Official Report Recently Given Publicity.

TORONTO, July 21—(Special)—That the prisons and asylums of Ontario are being filled to an alarming degree by immigrants from Europe who have been in Canada only a brief period is alleged in a report issued by the prisons branch department. The report is intended to throw new light on the Federal immigration policy and hints at the desirability of strict conditions at points of entrance.

SPANIARDS ARE OPPOSED TO WAR

With Morocco and Have Made Several Demonstrations of Dislike of It.

SEVILLE, Spain, July 21—(Special)—An infantry brigade was today ordered to Melilla to reinforce the Spanish troops there. MADRID, July 21—(Special)—Great excitement prevails in the Spanish capital. The population is clearly opposed to the Spanish-Moroccan war. There were several demonstrations in front of the Ministry of War today, and much rioting in the streets in which women took a prominent part.

WILL CONTRIBUTE TO MEMORIAL

To be Raised in Remembrance of Birth of Parliamentary Government.

TORONTO, July 21—(Special)—The Ontario government will contribute \$1,000 to the fund being raised for the erection of a memorial at Halifax of the birth of parliamentary government in Canada.

ENJOYABLE DAY AT BELVIDERE

Perfect Golf Weather For the Matches With the St. John Players. The Result.

Perfect weather greeted the St. John golfers yesterday morning and a most enjoyable day was spent at Belvidere. In the forenoon men's singles were played with the result as given below: Won St. John Charlottetown Won 2 Dr. Magee vs Perry Pope 2 J. H. Thomas vs H. W. Longworth 1 J. L. McAvity vs W. K. Rogers 3 F. W. Fraser vs D. B. Stewart 3 J. G. Harrison vs A. E. Innes 3 F. A. Peters vs Dr. Alley 3

Charlottetown wins by two points. In the afternoon the game was men's doubles and the home team won by a good margin. The players opposed each other as follows: Won St. John Charlottetown Won J. M. Magee vs Perry Pope 1 F. A. Peters vs D. B. Stewart 3 J. H. Thomas vs H. W. Longworth 1 J. L. McAvity vs W. K. Rogers 2 F. W. Fraser vs A. E. Innes 3 J. G. Harrison vs Dr. Alley 3

Charlottetown wins by 8 points. The system of scoring was by points viz one point for each nine holes and one additional point for the match; possible, 3 points in one match. This forenoon a return match of men's singles will be played and the afternoon will be taken up with mixed foursomes and putting and approaching contests.

Ask for Minard's and take no other. The circulation of THE GUARDIAN. Morning Daily and Rural Daily. WEEK ENDING JULY 17TH, 1909. MONDAY 7260 TUESDAY 7217 WEDNESDAY 7228 THURSDAY 7189 FRIDAY 7224 SATURDAY 7915 Total 44033 Daily average 7338

The circulation of THE CHARLOTTETOWN GUARDIAN is greater than that of all the other Daily Newspapers on Prince Edward Island combined. The above figures are not the counter total, and exclude all spoiled, blank and destroyed papers. These figures show only actual paid circulation.

TORONTO, July 22—(Special)—Fine and warm, followed Friday by showers and thunderstorms. The length of today will be fourteen hours and fifty six minutes.

Subscription books are open to interested parties and all possible assistance will be given anyone who wishes to verify circulation.

50,000

THE RACES AT TUNNEL TRACK

Sensational Heat by Ozen D in the 2.25 Class. Sets a New Provincial Record of 1.06 1-2 for the Half Mile. A Great Day's Sport.

OZEN D. The races at Tunnel Track, Cape Traverse yesterday attracted many spectators, who enjoyed one of the best day's racing that has ever taken place in this Province.

The chief interest of the day centered in the 2.25 class in which the starters were: Baby Boy, H. C. Hooper, Charlottetown. Idaho, H. H. Sterns, Charlottetown. Ozen D, T. G. Ives, Montague. Sylvan Electric, J. L. Read, Summerside. Leewood, S. N. Dawson, N. Tryon.

This was won by Ozen in three straight heats after a most exciting contest. The first two were taken easily but in the third his driver let him out, with the result that the half was done in 1.06; amidst the enthusiasm of the crowd. This sets a new Provincial record; and the owner of this fine horse is certainly to be congratulated on yesterday's performance. The second heat of this race was won by Baby Boy, and the third place would have been Lee Woods but that horse met with some mishap that stopped him in the third heat; and Sylvan Electric had the next place.

In the Free-for-all Trot and pace the following entered: Mamie P., 2.24; D. R. Morrison, Queen Marie, 2.21; Tunnel Track, Stables, C. Traverser.

Owned, Jas. Kennedy, Kensington. It was won by Mamie P., Queen Marie second, and Ozen third. In the Three Minute class the starters were: Lady Bell, by Parkside, R. H. Montgomery, St. Eleanors. Kandol by Kalol, R. H. Sterns, Charlottetown. Charlie Brazillian by Brazilian Fred Walsh, Tryon. Lord Stafford by Parkside Chas. Stavert, Summerside. It was won by Lady Bell, King Brazilian second, and Kandol third.

James Peters, proprietor of Wycliffe college, had an unusual experience yesterday afternoon of falling nearly seventy-five feet down an elevator shaft and escaping with only a badly sprained shoulder and a severe burn to the calf of his leg caused by coming in contact with one of the ropes on the drop down.

FELL SEVENTY-FIVE FEET ONLY SLIGHTLY HURT

THE CANADIAN EXPOSITION AND Selkirk Centennial—A National Project Planned for 1912

Interesting Interview With Mr. Roland of Winnipeg; One of the Commissioners.

Chas. F. Roland prominent in business circles of Winnipeg, was a recent visitor to the city. Mr. Roland is visiting Eastern cities in the interests of the Canadian Exposition and Selkirk Centennial, and as one of the committee who are exploiting the project is very enthusiastic.

"Asked as to some of the more important conclusions arrived at by the Committee in charge of its exploitation Mr. Roland replied:—"It is to be a centenary celebration of the arrival of the first settlers in Western Canada sent out by Lord Selkirk in the year 1812, and it is to be a couple with this occasion the opportunity of holding an All-Canadian Exposition, which we have considered after careful consideration would be a good advertisement for Canada, as the intention is to make it purely a national affair."

Canadian sentiment, said Mr. Roland, was East and West in favor of the project. "There is nothing to compare with an Exposition for national advertising. Think of all our home people, our governments, Dominion or Provincial—our great railway corporations and steamship companies and a hundred other agencies interested, all working to a common end. Such a combination will do more for Canada than we can ever anticipate."

"There are many thousands of people in Europe and the United States who undoubtedly still have but a crude idea of this Canada of ours, its immense area of arable lands, its wealth of undeveloped mineral and timber resources, such as you have in Quebec, its great opportunities for investment of capital. Why there are a lot of people on the outside who still believe that Canada is a raw state. It is thought by these people who have given this matter much time and investigation, that it is essential at this stage of our growth and development to show to the people of the world that we are a nation sufficiently advanced to invite the world to bring the best products from it—therefore the results will be wide spread."

Yes; 1912 is the date, and by unanimous voice of the country from Halifax to Victoria, B. C., they think that Winnipeg is the place to hold Canada's first great World's Fair, from the fact that our position is such that the thousands who come to Canada to the Exposition will have cause to travel through a greater part of Canada to come and go from it—therefore the results will be wide spread."
