..* MONTAGUE STRAWBERRY GROWERS ASSOCIATION. — The strawberry industry around Montague has been gradually developing until the output is sufficiently large to consider car load shipments. The Nova Scotia arkets have absorbed the greater part of the berries and the quality is such that if properly work d many more could be placed in the same town. Last season which was somewhat abnormal, presented difficulties that were instrumental in drawing the growers closer together for mutual benefit. The fox situation gave great difficulty and a much larger outlay than ordinary. The transportation was faulty and some shipments were marketed in rather poor condition. On Tuesday evening, Mr. Coughlan, the District Representative for King's County, called a meeting of the Growers to discuss the situation. The result was the formation of the Montague Strawberry Growers' Association with Fred McIntyre as President and James Lannan as Secretary. They purpose ordering supplies immediately. Transportation difficulties will also receive attention. Their ideas are to foster the growing of a high class berry, pack them informly, guaranteed quality insofar as it is possible, open up new markets, and by placing good fruit upon those markets, hold them indefinitely. The section around Montague is suitable for the small fruit industry and doubtless organization will assist in developing the growing of other small fruits when the markets will take them.

Your Child's Cough

Is it nothing? Is it to be neglected until it leads to that terrible scourge consumption? Peps stand between winter coughs and colds, and serious consequences. Peps are tablets made up of Pine extracts and medicinal essences, which when put into the mouth turn into healing vapors. These are breathed down direct to the lungs, throat and bronchial tubes —not swallowed down to the stomach, which is not ailing.

Try a 50c. box of Peps for your cold, your cough, bronchitis or asthma. All druggists and stores or Peps Co., Toronto, will supply
