

COLORITE

The Wonderful Liquid Magician

Colorite is an entirely new discovery in colors applied to liquids. It is not a dye nor a paint. There is nothing made that resembles it, or that will produce equal or similar results. Substitutes which claim to do so are merely dyes without lustre or permanent value.

Colors old and new, straw hats, satin, silk and canvas slippers, also basketry.

We carry all the colors and our stock is fresh this season. 30c per bottle.

Valiant Soldiers Receive Splendid Welcome

Charlottetown welcomed another contingent of men from overseas Friday evening. There were about 35 in the group, mainly artillerymen, who landed the previous day at Halifax by the steamship Cedric.

There was a large gathering of citizens at the Depot upon the arrival of the train from Borden at 7.20, including the 4th Regiment and the League of the Cross Band which played lively selections before and after the train got in and along the line of march to Prince of Wales College, where the reception was held.

The League of the Cross Band also played several selections in the College Hall during the reception.

The boys were given a most hearty welcome as they entered being received with handclapping and with cheers, afterwards.

Premier Arsenault presided and in fitting words warmly welcomed the boys back to their native Province. He spoke of the great part played by Canada in the war a part in which the Island boys had proved themselves soldiers of the first order. He referred sympathetically to the boys who while bravely doing their duty had yielded their lives and whose loss is sincerely mourned.

After some further remarks in regard to employment, pensions, labor bureau etc., he referred to the splendid work of the ladies during the war in providing comforts and their work as now demonstrated in the welcome to the home-comers.

Addresses followed from Mr. W. F. Tidmarsh on behalf of the Citizens Committee for the reception of returning soldiers, and Lieut. Robert Meserve for the G. W. V. A.

The refreshments were then served and after cheers for the boys and band-music the reception ended.

The Pirate of the Piano Business is the Cheap Stencil

There are land-sharks as well as sea-sharks.

There are sharks who prey on every line of legitimate business.

In the piano trade the shark is the cheap stencil—a nameless, worthless out-cast, sold in the dark, under the surface, trying to "submarine" honest trade and victimize honest buyers.

Its very producers will not father their own product or give it their name.

The instructions given to the "commanders" of these under-cover trade pirates are "Get the business by hook or by crook."

The outstanding piano merchants of to-day are those who have built a trade on a named make with an established reputation from which there are no come-backs. Avoid the Submarine and get into the Dreadnought class.

FORGIVE AND FORGET

(Indianapolis News)

With the war over a wave of sickly sentiment, which has its origin in the quarters that before and during the war were Pacific, is sweeping over the country and showing its influence in such official action as that of Secretary Baker in "honorably" discharging a batch of "conscientious objectors" with full pay. Good nature is America's vice as well as its virtue. Admirable from some aspects, it often brings tolerance of things that should never be tolerated; it shortens memories of crimes that should never be forgotten. A small but vicious minority, represented mostly by writers in radical magazines, would have us draw to our hearts in brotherly love the slackers, the deserters, the traitors or, at least, the half-wits of fanatics who evaded service while millions of honest and really conscientious men were risking their lives in the mud and vermin of French trenches. The victory is won, they say, therefore forgive and forget.

To whom it may concern: This is to certify that I have used MINARD'S LINIMENT myself as well as prescribed it in my practice where a liniment was required and have never failed to get the desired effect.
C. A. KING, M. D.

Don't Scold, Mother! The Cross Child Is Bilious, Feverish

LOOK AT TONGUE! IF COATED CLEAN LITTLE STOMACH, LIVER, BOWELS.

Don't scold your fretful, peevish child. See if tongue is coated; this is a sure sign its little stomach, liver and bowels are clogged with sour waste.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomachache, indigestion, diarrhoea, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul waste, the sour bile and fermenting food passes out of the bowels and you have a well and playful child again. Children love this harmless "fruit laxative," and mothers can rest easy after giving it, because it never fails to make their little insides clean and sweet.

Keep it handy, Mother! A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Remember there are counterfoits sold here, so surely look and see that yours is made by the "California Fig Syrup Company." Hand back with contempt any other fig syrup.

"Ear, ear"

Mr. Harrison was in a bad temper, and when an acquaintance met him one morning with the question: "Ow is your 'ealth today, Mr. 'Arrison?" he waxed wrathful. "My name is not 'Arrison," snarped Mr. H. "Well," said the other, "if a hatch, a hay, two hars, a hi, a hes, an' a ho, an' a hen don't spell 'Arrison, then what hon hearth do they spell?"—London Ideas.

Teachers' Salaries

Sir,—I think Mr. Seaman's suggestions re Teachers' Salaries are to the point. Someone has said that the true teacher never gets his reward in this world and if that is the case the teachers of P. E. Island will be doubly rewarded. They are doing their duty faithfully and well on a pittance barely sufficient to pay their board and clothe them decently. I refer to the teachers in the towns and villages, are paid much better.

Now, how much longer is this state of things to continue? Are the teachers never to get enough wages to make even a poor living? Those in authority have now a splendid chance to do something. Let a special tax be put on for education. We are entering upon a new era and parents realizing the value of education, are willing to pay. Our best teachers are leaving and will continue to leave the province and if this state of things is to continue the loss to our island can never be estimated in dollars and cents.
I am Sir, etc.

Its joyful notes to greet;
A laugh is just like music
